LARGEST CONSTRUCTION DAILY IN THE WEST

Vol. 57—No. 1 SAN FRANCISCO, THURSDAY, JANUARY 2, 1947

Copyright 1946 by F. W. Dodge Corporation

PLANS and Speculations

Construction of 61 housing units at Columbia Park in Pittsburg, and 40 units in Port Chicago, in Contra Costa County, will go forward with 15 per cent of the normal crew operating.

oOo

Among items coming up when congress opens January 3, is a bill to be submitted by Senator Sheridan Downey (D., Calif.) to exempt the Central Valley Project from the traditional federal 160 - acre limitation.

oOo

The Washington state highway department recently announced plans for a four-lane, north-south highway to cut the distance between Seattle and Portland to less than 160 miles. The 1947 legislature will be asked to pass on it.

oOo

A mill designed for treatment of 100 tons of ore daily is nearing completion at the famed Jumper gold property near Jamestown in Tuolumne County. Controlling this development is Ralph Fitzgerald, San Francisco mine operator.

oOo

Proposed construction of a new highway bridge at Avon on the Martinez - Port Chicago road has been deferred indefinitely because of the new embargo on structural steel. Cost of the proposed bridge is $165,000.

oOo

The board of trustees of Visalia College Farm is seeking a site for expansion of the school's agricultural activities.

Happy New Year!

The publishers and the staff of the

Daily Pacific Builder

join in wishing YOU a full measure of HAPPINESS and PROSPERITY during the year to come.

$15 MILLION TOLL JOB RESUMED IN SPRING

SACRAMENTO.—A $15 million toll project will add hundreds of long distance telephone circuits from here to the Pacific northwest. Circuits will be served by a coaxial cable capable of transmitting hundreds of telephone conversations simultaneously.

E. J. O'Brien, district PT & T manager, said that the cable can be the instrument for transmitting future network television programs. The portion of the project from Sacramento and the Oregon line will cost approximately $7 million; and work to be constructed by the Oregon division of the company will cost about $8 million.

Imports of Building Materials Soar In Last Quarter of 1946

Imports of lumber suitable for use in housing exceeded exports of such products by a ratio of 13 to 1 during October, according to an analysis made by the Office of the Housing Expediter based on figures from the Bureau of the Census. During the same period the imports of all sawmill products except railroad ties and box shooks were six times more than the amount exported.

Housing lumber imports totaled 92 million board feet in October, a gain of 14 million board feet over September, while exports of the same types of lumber were declining from 13 million to 7 million board feet during the same period.

October imports of building materials in general continued at higher levels than in earlier months of 1946. Plaster rock or crude gypsum imports were the highest since 1938 and three times the monthly average for the early part of this year.

#

ASK BIDS ON $147 MILLION PIPELINE

WASHINGTON. — War assets administration this week asked new bids for outright purchase of the $147 million Big and Little Inch pipelines running from the Texas Panhandle to the New York and Philadelphia terminus.

The pipes are used for transporting natural gas. It may also be used for transporting petroleum and its products.

A former provision that the lines could be leased has been thrown out, and only an outright sale will be considered. Bids are due by noon, February 8, 1947, and will be publicly opened and read February 10.

#

WARREN HITS FPHA

SACRAMENTO—Modification of the FPHA termination order to allow construction on a limited basis still is not satisfactory to California's governor.

Governor Warren declared today that he is not satisfied with the government policy as a whole. He stated:

"I am still firmly of the opinion that it was outrageous of the federal government to inaugurate a housing program for the veterans and then before it is completed, and after everyone has come to rely upon it, to abandon the program either because it was spread too thin or because of other inefficiencies that prevented completion of it."

#

WANTS CATALOGS

Hyman Rosenthal, structural engineer of 617 Montgomery St., San Francisco, reports a need for catalogs and manufacturers publications.

Material Shortages to Be Erased Early In 1947; Liberalize Commercal Building

With shortages of building materials and equipment fast disappearing, the construction industry may well look forward to a prosperous 1947. Heavy construction work—as well as home building—may set a volume record during the coming year.

Maj. Gen. Philip B. Fleming has declared that the non-housing restriction will be broadened to permit more commercial, industrial and institutional construction. Trade organizations, led by the Building Products Institute, have warned that without such an easement, an oversupply of many products will develop soon after the first of the year.

Apprenticeship Needed

Already, shortages have been eliminated in the brick and structural clay tile industries. Greater availability of low-cost standard materials, the return of free competition to the building industry and increased productivity on the part of on-site construction workers all should contribute to a lowering of costs, Douglas Whitlock, chairman of the Building Products Institute, commented recently.

Labor demands and costly strikes are a possible shadow in the generally optimistic picture. The threatened shortage of skilled building trades workers in the industry depends to a large extent upon expansion of the apprenticeship training program. Construction employment during the last half of the year has ranged above the two million mark.

Quality to Improve

Home builders hope to trim down construction costs by use of streamlined plans, greater labor productivity, and through a gradual lowering of material costs to be brought about by competition. A conservative prediction is that one million homes will be built in 1947, and that these will surpass in quality those of 1946.

Following is a skeleton outline of the status of a few of the many products vital to the construction industry.

Lumber.—The wood - preserving industry is looking forward to its greatest expansion in history during 1947. More than 180 plants are in operation now, and 14 new units are under construction and will be placed in operation during 1947.

During 1946 more than three and a quarter billion board feet of wood was chemically-alloyed to resist fire, rot and insects. Output in 1947 is expected to top that record—if lumber production continues upward and treating chemicals, particularly creosote, becomes more plentiful. The normal flow of creosote, a by-product of coke manufacture, has been crippled by this year's coal strikes, and imports of the product has been far below the normal 27 per cent of total consumption here.

However, one producer, J. F. Linthicum of the American Lumber & Treating Company, declared that unless the nation's coal situation is stabilized, railroads and public utilities may be unable to carry out long deferred maintenance and badly needed expansion for lack of vital creosoted cross ties and electrical transmission poles.

Plywood. - The plywood industry enters the new year with demand for all types far exceeding production — a condition that is likely to prevail for a period of years, according to industry spokesmen, "except for a possible period of relatively short duration during which public resistance to the high price of building construction may temper the demand."

Industrial requirements, however are large while inventories in the warehouses of jobbers and dealers are almost at the vanishing point.

Prices have advanced since the removal of OPA restrictions, moderately in most cases, though unfortunately some are taking advantage of existing conditions.

Production of softwood plywood in 1947 will approximate 1,800 million feet on a 3/8-inch basis, which approximates the highest prewar year. Accurate production figures

GROOVER AND I

"EXCHANGE DAY"

Why do Retail Merchants insist upon doing things the hard way?

☆ ☆ ☆

Beginning immediately after Christmas and until about the middle of January there is a constant pressure on stores by people who received a coffee percolator when they wanted a what-not, or received a what-not when they wanted a percolator.

☆ ☆ ☆

We would suggest that the last full business day preceding New Years Eve be designated by the Merchants as "Exchange and Return Day", a day on which all unwanted Christmas items could be returned or exchanged without question.

☆ ☆ ☆

Not much of a column, but the year is young yet. I will do better

☆ ☆ ☆

When a portal - to - portal pay suit is filed by the Fuller Brush salesmen!

Building Violations Difficult to Check

WASHINGTON—Spokesmen for NHA and CPA said here today there would be no change in the compliance setup under the new permit system for home building.

Permits Only Check

Officials for both agencies said compliance procedures would be "very similar" to what they were under the old HH priority pattern.

Morris S. Verner, Jr., head of the CPA compliance division, was confident that government activity against violators would continue to center on non-residential construction.

"We will insist that permits for new homes be taken out," he stated, "because that is the only check we will have on compliance with remaining regulations." (These restrictions now include only the maximum 1,500 square feet of floor space per house, year-around occupancy and the installation of only one finished bathroom per home.)

Violations Obscure

CPA will have no way of determining year-around occupancy except through expressed intent. "Of course we wouldn't know about that until the violation occurs," Verner said.

Obviously, it will be difficult to uncover violations of the single equipped bathroom provision until new homes are reaching the final completion stage. One high housing official said he doubted if many residential jobs would be halted at that stage.

Verner, on the other hand, said his office would continue to stop construction on all violations reported, investigated and found to be against permit system restrictions.

Badly Chosen Division Regulations Often Ignored in Small Frame Industrial Building

By HAROLD M. ENGLE
Consulting Civil and Structural Engineer

The problem of allowable areas between major fire division has always been a subject of controversy. Within the past few weeks, the nation has seen tragic evidence of the toll taken where areas became uncontrolled.

However, a sensible medium must be reached, for if the areas are held to exceedingly small limits, it is then difficult for the architect and engineer to produce a structure which will satisfy the occupancy requirements of the owner. The result is that it is difficult to enforce area limits. One of the major examples to bolster this contention is the one-story wood frame industrial type structure. These structures have become increasingly common in the past ten years and will probably continue to be built in large numbers. One of the main difficulties in breaking up buildings of this type into reasonable areas has been in the type of fire division generally required by building codes. It is both structurally difficult and also embarrassing, from the standpoint of the occupant, to have to put, say, a 13-inch brick wall or a 6-inch or 8-in. reinforced concrete wall completely through his structure. The cost of such walls is considerable.

It often means bringing a trade on the project which otherwise would not have to be employed, and it makes it rather difficult in the future if the owner of necessity has to revamp his plant and rearrange the area. It would be far better for structures of this kind if a reasonable fire division could be worked out, say, perhaps a 2-hour wall, which would employ essentially the materials which go into the building itself. Such a wall, for instance, might conceiveably consist of a 2 x 6 studs on 16- or 24-inch centers, with 1-inch sheathing on each side, a heavy layer of asbestos felt, a ½ inch layer of gypsum board, and then a surface of cement stucco plaster.

The spaces between studs could be filled with some inert material, such as rockwool, or treated wood fibers of some character, and it is probable that such a wall might be made to develop somewhere in the neighborhood of a 2-hour resistance. It can readily be seen that a fire-wall of this character employs essentially the materials which might normally be brought on the job to build the building itself. The office portion would probably have a certain amount of gypsum board in any case. The frame of the building would be of timber, as would the partition.

Quite often these buildings are stuccoed on the outside, and a final coat of cement plaster on the fire division would also serve as a hard medium to resist abrasion, particularly with warehouse occupancies. Many of these buildings are now being constructed without any fire division at all, and areas not infrequently in unsprinkled structures of the type exceed 25,000 or 30,000 square feet.

Would it not be much better for all concerned if a reasonable compromise on the part of fire walls required in such a structure could be worked out, so that the fire-walls would actually be put in, than to stick to the older requirement of a full masonry cutoff, which actual practice has demonstrated, will not be put in at all in many cases?

I think the compromise would be advantageous from the standpoint of all concerned, the engineer, the architect, and the insurance interests who may be involved.

In recommending further study on this matter, I would like to make it clear that I am not advocating a general let - down of area requirements in high-value districts. I am only trying to offer a constructive suggestion for remedying a condition which exists most often in the districts outside the high-value area, and yet a condition which can be rather serious if something is not worked out.

Plans to Be Completed Within Three Weeks
Store Building
SANTA ROSA, Calif., Sonoma Co. 7th St. Tract, between A and B Sts.
Owner—Sears, Roebuck & Co., 2650 E. Olympic Blvd., Los Angeles, Calif.
Architect—Clarence Caulkins, Rosenberg Bldg., Santa Rosa, Calif.
Structural Engineer—Jefferson C. Sly, 268 Market St., San Francisco, Calif.
Mechanical Engineer—Keller & Gannon, 369 Pine St., San Francisco, Calif.
Structural steel and frame, one-story with basement and mezzanine, T-shaped, 75,000 sq. ft., parking area.

1/2/47 • 4
Working Drawings in Progress
CPA Approval Granted
Medical-Dental Building Cost $15,000
NAPA, Calif., Napa County. 1752 Jefferson.
Owner—Dr. C. C. Caulkins, c/o architect.
Architect—C. A. Caulkins Jr., Rosenberg Bldg., Santa Rosa, Calif.
Concrete slab on ground, asphalt tile floor, wood frame, plaster exterior, one-story, 2200 sq. ft., composition roofing.

1/2/47 4
Contemplated—Construction Estimated to Require About One Year from Time Work Starts During 1947
Central Office Bldg. (Wing Addition) Approx. Cost, $980,000
RICHMOND, California, Contra Costa County. 2105 Macdonald Ave. at 21st St.
Owner—Pacific Telephone & Telegraph Company, 140 New Montgomery St., San Francisco, California. (L. T. Marshall, district manager, central office building, Richmond, Calif.)
Plans by engineering department of owner.
Addition of wing to present building to contain dial central office apparatus.

1/2/47 4
Building Permit Granted
Contract Awarded
Office Building (Remodel) Cost $750,000
PORTLAND, Oregon.
Owner — Lincoln Building, S. W. Fourth & Fifth Aves., & Oak and Pine Streets.
Lessees—Veterans Administration
Remodeling of 7-story building.
Architects — Whitehouse, Church, Newberry and Roehr, Builders Exchange, Portland, Ore.
Contractors — Reimers & Jolivette Railway Exchange Building, Portland, Ore.

1/2/47 3
Owner Granted Permission to Build by Oakland Port Commission
Warehouse, Office, Etc. Cost, $79,200
OAKLAND, Calif. Alameda County. North side High St. at Estuary.
Owner—Richfield Oil Corp., 555 South Flower St., Los Angeles, Calif.
Includes 1-story office and garage, $13,500; 1-story warehouse, $15,000; 112x210x6-ft. high reinf. conc. retaining wall and tanks, $49,500; and 24x8-ft. steel fabricated loading rack and roof, $1200.

1/2/47 3
Owner Granted Permission to Build by Oakland Port Commission
Warehouse and Office Cost, $30,000
OAKLAND, Calif. Alameda County. West side 5th Ave. 0 bet. Southern Pacific and Western Pacific tracks
Owner—Bay Cities Asbestos Co., 5th Ave. and E 12th St., Oakland, Cal.
Architect — Irwin M. Johnson, 449 MacArthur Blvd. West, Oakland.
Includes office and warehouse bldg (100x80-ft.)

1/2/46 3
Contract Awarded—Work Starts January 1
Warehouse (Insulation and Roofing Material) Cost $4,000
MARYSVILLE, Calif., Yuba County.
Owner—Elliott E. Meyers, 304 G St., Marysville, Calif.
Frame, one-story.
Contractor—Curt A. Otto, 1029 H St., Marysville, Calif.

1/2/47 1
Fire Loss
COLUSA, Calif., Colusa Co.—Fire recently damaged the First Savings Bank Bldg., 5th and Market Sts., Colusa, Calif., with loss estimated at $50,000.

1/2/47 4
Fire Loss
RENO, Nev., Washoe County.—Fire recently damaged the lower floor of the two-story Cladianos Bldg., Reno, Nev., with loss estimated unofficially at $100,000.

SUB - BIDS WANTED

General contractors desiring sub-bids on any job are invited to make known their requirements in this column. There is no charge for this service.

Indus. Plant for Bibu-Castle Corp., Santa Clara; Bids open Jan. 7, 1:30 P. M
Lew Jones Constr. Co., 150 N. 28th St., San Jose (Ballard 6238)
Haas & Rothchild, 328 Merchants Exchange Bldg., S. F. (EXbrook 1205

9-10—EDUCATIONAL BUILDINGS

1/2/47 9
Plans in Progress
School (Expansion) Cost $500,400
BOULDER, Colo. Various locations.
Owner—City of Boulder, Board of Education, c/o superintendent of schools, Municipal Bldg., Boulder, Colo.
Architects — Jones & Hunter, 2049 Broadway, Boulder, Colo.
Includes two new grade school buildings, remodeling junior high school and alterations and additions to three grade schools.

1/2/47 • 9
Starting Working Drawings
School Building
NAPA, Calif., Napa County. Kilburn Ave. Elementary School.
Owner — Napa Elementary School District, Ralph Trower, chairman, Napa, Calif.
Frame, one-story, six classrooms, steel roof truss.

1/2/47 9
Fire Loss
PACIFIC GROVE, Calif., Monterey Co.—Fire recently destroyed the 20 classroom academic building of the Pacific Grove High School, Pacific Grove (Owner—Pacific Grove School District, Geo. Schuyler, president of the board, Pacific Grove) with loss estimated at $250,000.

1/2/47 9
Bond Election in Amount of $100,000 Set for January 16
School
KERN COUNTY, Calif., Panama Union School District.
Owner—Panama Union School District, O. J. Actis, Louise Sandrini, Sing Lum, Amy B. Seibert, Fred L. Thompson, Members of the Governing Board, Kern County, Calif.
Funds to be used for the purchase of school lots, building or purchase of school buildings, alterations and additions to present school buildings

1/2/46 9
Owner Taking Bids—Due Jan. 20, 8 P. M.—Bidders Figuring
High School Building Estimated Cost $475,000
BARSTOW, Calif., San Bernardino County. First and Bigger Sts.
Owner—Barstow Union High School District, Barstow, Calif.
Architects and Engineers—Franklin-Kump & Falk, 251 Kearny St., San Francisco, Calif.
Steel and wood frame, reinforced concrete in walls, wood sidewalls, one-story; includes mechanical ventilation, radiant panel heating, three wings of four classrooms ea.

1/2/47 9
Plans Approved by State Division of Architecture—Owner Will Ask Bids Soon
School Addition Cost, $67,000
REEDLEY, Calif., Fresno Co. Lincoln School.
Owner — Reedley Joint School District of the Counties of Fresno and Tulare, W. O. Hughes, W. J. Cairns (chairman), C. R. Conner, members, Reedley, Calif.
Architects—Swartz & Ryberg, Rowell Bldg., Fresno, Calif.
Frame and stucco, one-story, 22x40 includes 4 classrooms.

1/2/47 • 9
Owner Taking Bids—Due Jan. 22, 8 P. M.
School Estimated Cost $80,000
SAN BRUNO, Calif., San Mateo Co. El Crystal Elementary School.
Owner—San Bruno Elementary School District, W. R. Engvall, superintendent of schools, 875 W. Angus St., San Bruno, Calif.
Architect—Masten & Hurd, 536 Powell St., San Francisco, Calif.
Concrete walls, wood joist and ceiling, five rooms.
Plans and specifications obtainable from the above office of the architect upon deposit of $25.

1/2/47 9
Plans Approved by State Division of Architecture—Owner Will Ask Bids Soon
Classrooms (4)
SAN LORENZO, Calif., Alameda Co.
Owner — San Lorenzo Elementary School District, W. S. Perkins, president, Board of Trustees, San Lorenzo, Calif.
Architect—Dragon, Schmidts & Hardman, 2068 Allston Way, Berkeley, Calif.

1/2/47 9
Plans Approved by State Division of Architecture—Owner Will Take Bids Soon
School Addition Cost $26,000
SAN LORENZO, Calif., Alameda Co. Sunset School.
Owner—San Lorenzo School District, C. E. Larson, superintendent, San Lorenzo, Calif.
Architect—Dragon, Schmidts & Hardman, 2068 Allston Way, Berkeley, Calif.
Two classrooms and toilet additions.

1/2/47 9
Plans Approved by State Division of Architecture—Owner Will Ask Bids Soon
School (Addition) Cost $25,000
TULELAKE, Calif., Siskiyou County.
Owner—Tulelake Joint Elementary School District, William H. Nutto, clerk of Board of Trustees), Tulelake.
Architect—Charles F. Dean, California State Life Bldg., Sacramento, Calif.

1/2/47 9
Plans Approved by State Division of Architecture—Owner Will Ask Bids Soon
Temporary Classrooms Cost $10,000
VISALIA, Calif., Tulare Co. Highland School and Conyer School.
Owner — Visalia Elementary School District, Hilton D. Bell, superintendent of city schools, Visalia, Calif.
Architects—David H. Horn and Marshall D. Mortland, Rowell Bldg., 2100 Tulare St., Fresno, Calif.

1/2/47 9
Plans Approved by State Division of Architecture—Owner Will Ask Bids Soon
School (Addition) Cost $18,000
McARTHUR, Calif., Shasta County.
McArthur Elementary School.
Owner—McArthur Joint Union Elementary School District, Irene Crum, secretary, McArthur, Calif.
Architect—Charles F. Dean, California State Life Bldg., Sacramento, Calif.
Frame and concrete, two rooms.

1/2/47 9
Plans Awaiting Approval
SACRAMENTO, Calif., Sacramento Co.—The State of California, Division of Architecture, School Section, Public Works Bldg., Sacramento, Calif., announced the following applications, December 31 for the approval of plans and specifications for school projects in Southern California:
Temporary buildings (10), Fullerton, Orange County; cost, $112,000; owner, Fullerton Junior College, Orange County; architect, W. H. Harrison, 914 Architects' Bldg., Los Angeles, Calif.
Army buildings at Bakersfield Junior College, cost $10,000; army building at school farm, Bakersfield Junior College, cost $10,000; army buildings at Shafter High School, cost $10,000; owner, Kern County Unified High School District, Kern County; architect, Wright, Metcalf & Parsons, 607 Flower St., Bakersfield, Calif.
Unit No. 4, gymnasium at Senior High School, Montebello, cost $83,626; owner, Montebello Unified School District, Los Angeles County; architects, Kistner, Curtis & Wright, 412 Architects' Bldg., Los Angeles, Calif.
Dressing rooms in Downey Union High School gymnasium, cost $6000; owner, Downey Union High School District, Los Angeles County; architects, Allison & Rible, 650 S. Grand Ave., Los Angeles, Calif.
School addition, Manhattan Heights School, cost $120,000; owner, Manhattan Beach School District, Los Angeles County; architect, Marsh, Smith & Powell, 1934 Milan Ave., Pasadena, Calif.
Classroom wing at Allan Ave. Elementary School, cost $50,000; owner, Burbank School District, Leo C. Froth, business manager, Board of Education, Burbank.
Classroom construction at Walnut Elementary School, Los Angeles County cost $58,000; owner, Walnut School District, Los Angeles County; architect, Kistner, Curtis & Wright, 412 Architects' Bldg., Los Angeles, Calif.
Classroom addition at Marshall Elementary School, cost $44,000; owner, Rosemead School District, Los Angeles County; architect, Marsh, Smith & Powell, 1934 Milan Ave., Pasadena, Calif.
Classroom addition at grammar school, cost $90,000; owner, Newport Beach School District, Orange County; architect, Marsh, Smith & Powell, 1934 Milan Ave., Pasadena, Calif.
Gymnasium building, Compton Junior College, cost $6000; owner, Compton Junior College, Compton; architect, Jerome C. Deiterre, 300 N. Burris St., Compton, Calif.

1/2/47 10
CPA Approval Granted
Greenhouse (Agricultural Education) Cost, $56,000
SAN FRANCISCO, Calif., S. F. Junior College, Ocean and Phelan Avenues.
Owner — City and County of San Francisco, Dept. of Public Works, Room 282, City Hall, San Francisco, Calif.

11— HOSPITALS

1/2/47 11
Contemplated
Hospital (Expansion)
COLORADO SPRINGS, Colo. Woodman of the World Sanitarium near Colorado Springs.
Owner—State of Colorado, c/o State Planning Commission, W. M. Williams, state planning commissioner, State Office Bldg., Denver, Colo.
Architect—Not selected.
Includes proposal to purchase sanitarium for use as a state tuberculosis center. Property includes 1300 acres; buildings provide for 159 rooms and cottages to house 165 patients.

1/2/47 11
Architects Authorized to Prepare Plans
VA Hospital Cost $5,111,416
SALT LAKE CITY, Utah. Southwest corner Fort Douglas Military Reservation.
Owner—U. S. Engineers, District Engineer Office, Wright Bldg., Sacramento, Calif., and Veterans' Administration, Frank H. Dryden, chief of construction, Washington, D. C.
Architects and Engineers—Ashton & Evans, Beneficial Life Bldg., Salt Lake City, and Ware & McClenahan, Utah Savings & Trust Bldg., Salt Lake City, Utah.
Will include 500-bed neuropsychiatric hospital.

1/2/47 11
Building Fund Campaign Under Way
Hospital
FORT MORGAN, Colo.

1947 Outlook

(Continued from Page 1)

for hardwood plywood are not available, but they will probably be substantially higher than in any year before the war.

The improvement in plywood products and new uses developed during the war have generally broadened the market for plywood and allied laminated products manufactured with synthetic resins.

Steel. — Because of the steel strike at the begining of the year and the effects of the disastrous coal strikes in the spring and late fall, the steel industry lost one-fifth of its expected production in 1946. This loss amounted to around 16 million tons of ingots. Naturally, the production programs of all principal users of steel were severely retarded by being deprived of so large a tonage of this basic raw material.

The demand for steel and other products is still great.

Machines. — By the middle of 1947, the efficient machinery that will help to increase productive capacity will begin to appear to help manufacturers, as well as heavy construmen men, in their battle against rising costs.

A continued demand for antifriction bearings substantially above prewar levels has been indicated.

One economist has gone on record with an assertion that labor-saving machinery will assume large importance during the next few years.

"We are now entering one of the most dynamic phases our industrial economy has even seen," he said. "We can anticipate a rapid obsolescence of machinery and methods, as this country's industries install new machinery and adopt new methods of manufacture to capture their markets."

Plumbing, Heating.—That 1947 will set new high levels in the production of plumbing and heating materials is the forecast made by the Plumbing and Heating Industries Bureau.

Already the production of many types of plumbing fixtures is greater than at any time in the history of the industry. Manufacturers will broaden their lines, a greater variety of styles and models will be available, and colored plumbing fixtures will make their appearance.

To enable manufacturers to speed up their production to meet demand, improvements have been made in manufacturing processes, time-saving methods in the firing of pottery have been developed, and foundry processes for making cast iron fixtures, cast iron soil pipe, and boilers have been mechanized.

The installation of conveyor systems to streamline manufacturing processes as well as the application of war-time know-how to peacetime production are also factors in speeding the output on plumbing and heating materials.

While manufacturers will gradually increase the number of models and styles, and introduce new equipment as rapidly as possible, no radical changes in plumbing fixtures are contemplated.

Similarly in the heating industry there will be no revolutionary changes but there will be innovations in equipment in the direction of greater compactness and greater fuel economy. There is nothing in sight that will make all other kinds of heating systems obsolete. The trend is toward the better utilization of the equipment and methods already available.

In San Francisco, the Building Trades Council will meet jointly with the Associated Home Builders Association to discuss expansion of the building trades' apprenticeship training program as well as recruitment procedures. Other labor practices also will be discussed.

PLANS and Speculations

Realignment of State Route 56 between Rob Roy junction and Santa Cruz has necessitated preparation of plans for five bridges by the state division of highways.

oOo

Chico citizens are campaigning again for the construction of a combination fair exhibit building and an armory at the Butte district fair grounds.

oOo

Annexation to the North Orinda area proposed for annexation to the Central Contra Costa sanitary district has been informally protested by residents representing the Minerinda Association. They wish some 150 acres of land excluded from the area to be annexed.

oOo

Surveys are underway for pipelines from Rector Dam near Napa, to state institution in the Napa Valley. Edward Hyatt, state engineer, has disclosed that bids for the pipeline installation work will be asked soon.

oOo

The state division of highways announced that bids will be asked about March 1, for grading of the N. Fourth Street extension from the San Jose city limits to State Route 68 intersection. It will be the Fourth Santa Clara County project to be undertaken with federal aid.

oOo

State officials Friday made a final inspection of Rector Dam near Napa last Friday. Contractors' crews have nearly completed the job and are grading the area between the dam and the Silverado Trail and are cleaning up construction debris.

Petition Lawmakers for Engineers' Exams In Mechanical, Electric, Hydraulic Fields

By PHILIP G. BRADY

The organized engineering societies will petition the State legislature for creation of a self-governing body, similar to the bar association, to license and regulate all types of engineers in California, it has been reliably learned by the Daily Pacific Builder. At present, only civil engineers are required to qualify under state statute. Under proposed law, endorsed by most professional groups, state authority will be extended over mechanical, electrical, hydraulic and chemical engineers for the first time.

All engineers would be licensed with the title of "Professional Engineer". Each would be given an examination in his own specialty but he would not be limited, by law, to his own branch. The "honor system" would be used to confine an engineer to his own specific specialty. The usual grandfather caluse would allow presently practicing engineers to be certified without examinations.

In an exclusive interview, Mark Falk, chairman of the State Board of Registration of Civil Engineers, said he believed civil engineers would neither actively support nor oppose the measure. However, he anticipated strenuous opposition on the part of state officials to the self-governing provision of the proposed law.

"I don't believe the self-governing provision will be passed," asserted Falk. "All the politicians and state officials would oppose it. Yet, if self-regulation works for the legal profession, it could work for another profession."

Falk, who is structural engineering head of the San Francisco firm of Franklin, Kump and Falk, was a bit skeptical about the grandfather clause and the "honor system". He pointed out that after 18 years of the civil engineers registration act, that particular branch is "fairly well cleaned up of incompetents." He continued: "However, the grandfather clause would reopen the ranks to a host of newcomers who can't pass the present specifications. Naturally, the civil engineers wouldn't care for that."

About the honor system of keeping each man to his own skill, Falk asserted: "It's impossible to draw rigid lines in the engineering profession. The fields keep overlapping and would be difficult to break down. Even if it was broken down, it might act to increase cost to the public."

"The Professional Engineers act would have no appreciable beneficial effect for the public for many years," he declared, "until it weeds out the incompetents who will get in under the grandfather clause without having to prove their ability."

Falk indicated he would be in favor of a self-governing body. At present, the Civil Engineers Board is under the jurisdiction of the Department of Professional and Vocational Standards. Greater control over its own affairs would act to the public benefit, he said.

"As it is now, our registrants get very little for their fees and the public gets no enforcement or protection. We know what we want but various state departments tell us what we can have," State officials "are swell to us", said Falk. "But the rules and regulations work a hardship on agencies like ours which are actually outside their province."

As an example of incomplete service, Falk said his Board had only one inspector to police 5500

(Continued on Page 7)

Early Legislation Is Expected on Housing In Eightieth Congress

WASHINGTON.—The United States Chamber of Commerce, in its weekly Business Action publication, predicts that housing will be given a good going over in the 80th Congress which convered here Friday.

The curt BA analysis of legislation in view follows:

"Housing legislation will be up in both the senate and house, with present prospects indicating quick action and early hearings by the house banking and currency committee. The performance record of the national housing administration may come in for careful scrutiny, with the possibility of an investigation.

WET Bill Prospects

"Senator Robert Taft (r., Ohio), head of the senate republican steering committee, has announced that he will reintroduce the Wagner-Ellender - Taft (WET) bill which passed the senate last April only to die in the house as the result of a determined committee filibuster in the closing days of the 79th Congress.

"Mr. Taft has indicated that he may favor a policymaking board, rather than a single administrator as provided in the earlier bill, to head the NHA. Opposition to the WET bill stemmed largely from the fact that as an omnibus measure, it covered too wide a range of subjects and, further, that in terms of ultimate objectives, it was a thinly-disguised public housing measure camouflaged to provide veterans' housing. Business men generally found little in the bill that merited support, and the position of the veterans' organiza-

GROOVER AND I

WE SAID WE WOULDN'T . . . BUT WE WILL

Italian Premier De Gasperi is our top Washington guest today. On Tuesday he presented himself to our Secretary of State. He was received by President Truman, and then Mr. Truman called in and introduced the Secretary of the Treasury.

☆ ☆ ☆

An introduction to the Secretary of the U. S. Treasury is high on the protocol of all visiting top Ministers. But remember Premier De Gasperi is our guest by invitation. We invited the guy here—and for a purpose.

☆ ☆ ☆

When Italian reparations were being dished the participating Allies, with one exception, were very restrained regarding reparations. Russia insited upon a far bigger hunk than seemed polite to grab.

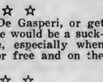
☆ ☆ ☆

At the time it was suggested that some way would be found for the U. S. to give benefits to Italy compensating for the extra pie by Russia.

☆ ☆ ☆

A few weeks ago Premier De Gasperi was invited to Washington for the purpose of discussing advantageous trade concessions or perhaps being persuaded to accept one of our trick loans. Frankly and unblushingly this is for the purpose of sweetening Italy up toward signing a reparations agreement in which Russia is the chief beneficiary.

☆ ☆ ☆



Don't blame De Gasperi, or get mad at Italy. He would be a sucker not to come, especially when everything is for free and on the house.

☆ ☆ ☆

(The real joke is on the Washington boys. They think all the money they loan around belongs to the Government or the Treasury Department. Won't they feel silly when they find out they have been giving away YOUR money?)

☆ ☆ ☆

We said we wouldn't . . . but we will.

Pneumatic Guns to Apply Concrete to Be Demonstrated

Standard Machinery Company announces the arrival of the first shipment of the new CMC Jetecrete guns.

With the new Jetecrete Gun, concrete is pneumatically applied or "shot" in place by compressed air. Graded aggregate and cement are premixed in proper ratio and placed in the gun hopper from which the gun feeding mechanism receives it automatically and continuously, at atmospheric pressure, carrying it into the required pressure by means of a moving air lock.

Through a distributor the material is rapidly fed, in small amounts into the air stream of the material hose and is carried at high velocity, approximately 400 lineal feet per second, to the applying end.

Demonstrations of the Jetecrete Gun will take place Thursday, January 9, and Friday, January 10, and if interested, it is suggested you call Standard Machinery Company, EXbrook 8845, for the definite time and place.

Code Embodies Excessive Requirements; Passage in Present Form Termed Mistake

The "Outlook for '47" and the proposed San Francisco building code came in for extended discussion at a dinner meeting of the Building Industry Conference Board at the Commercial Club, Wednesday. Representatives of all branches of the industry painted a bright picture for the former and a bleak prospect for the latter.

After hearing speaker after speaker assert that passage of the proposed building code would be "work untold harm" and that it was "strictly a one-man show", the Board unanimously voted to have each member group petition individual supervisors, the mayor and various city officials to return the code to committee where controversial items would be given a rehearing.

In addition, the Board authorized a steering committee to take "proper action" in its name. Appointed by Board chairman, F. K. Pinney, the committee includes Albert J. Evers, AIA code chairman; John Blume, chairman of the Structural Engineers code committee; Carl Gellert, Associated Home Builders; Clyde Bentley, chairman Mechanical Engineers code committee; Ed Cathcart (Johns-Manville); John S. Bolles, architect, and William Popert.

Act As Counsel

Reviewing the situation, Evers said that it was now apparent that the board of supervisors might approve a code calling for "excessive requirements" instead of minimum standards. With the board refusing to heed industry suggestions, he asserted the "situation is hopeless" unless the issue is reopened. He termed the board's manner of handling the code "an abuse of legislative powers".

"Industry comments are rejected if they don't suit the originating authority," declared Cahill. "This code, which is being put over in an arbitrary manner will work tremendous hardship on the people." He urged the industry to take some decisive action, adding, "We are under pressure to build low cost homes but if this codes goes thru it is questionable whether a large number of proposed buildings will ever be built."

Representing the mechanical engineers, Bentley said they were concerned with giving the new code a proper hearing. "If they start out overriding industry suggestions, they are apt to continue that way." He urged that a responsible industry committee be named to consider the controversial sections of the code.

Milton W. Morris, secretary for the Associated Home Builders, charged that the "federal maze is now being adopted locally." He refuted the assertion of Harry Vensano, public works director, who Tuesday stated a re-hearing would amount to "starting all over again." Morris declared an industry committee consisting of an architect, engineer, builder and material man could act as an advisory body to the judiciary committee to give full consideration to controversial items, including material specifications.

Prior to the full dress debate on the manner of handling the building code, the more than 50 members and guests present heard speakers tackle the outlook for 1947 in the industry from four viewpoints and arrive at a common answer: Good.

Milo S. Farwell, consulting engineer for the Bethlehem Steel Corp., predicted that food processing plants would lead construction volume. Following closely behind, he said, would be food machinery and household equipment plants and heavy construction equipment factories. Behind those, he ranked commercial buildings, public utilities, garages and warehouses and public works. He mentioned the many large companies which have projects in mind, or underway.

Speaking for the contractors was

(Continued on Page 6)

'Judgment of Experts Needed to Consider City's Building Code'

Milton W. Morris, executive secretary of Associated Home Builders of San Francisco, assailed the statement of Public Works Director Harry Vensano, who said yesterday that it would be "starting all over again" to name a board of experts to decide controversial issues of the proposed building code.

"It is true that Mr. Vensano has taken our suggestions and recommendations," he admitted.

"But when the opinions and complaints were given to the judiciary committee, they then were referred to him. It was his privilege to say 'yes' or 'no'. As it is now, he has the last word. Mr. Vensano is the sole judge and jury.

"Is it right for a supervisor to stand up and say 'I don't know much about this, so I believe I'll go along with the department of public works'? Is this to be a one-man code?

"That is the reason we are asking a technical board. There are many men who are just as capable, or more so, than Director Vensano. I think he is taking the wrong attitude of he wants a good code, and I am sure that he does, just as we do.

"The board would hear only controversial matters. The controversial issues are few, and, I think, could be decided in an afternoon or so."

The city should be concerned not with maximum standards, but with minimum standards, the home builders pointed out. By placing standards higher than necessary, Morris said, "the price of a home will be so out of reach that the veteran will be unable to buy it."

The home builders are urging veterans groups to take a more active interest in the proposed building code, on the assumption that at the present time the primary group interested in home building is the veterans group.

At the same time the Associated Home Builders of San Francisco lashed out at another provision making mandatory the use of lath and plaster in any one or two family dwelling garage space of more than 450 square feet.

"The idea that any one or two family dwelling garage of more than 450 square feet should be lathed and plastered is ridiculous," asserted Milton Morris, AHB executive secretary. "It is an absolutely needless waste of money. All basic wiring and plumbing would be covered and future repairs would treble in cost."

People To Protest

He continued: "If we builders arbitrarily added ten per cent profit to construction costs or if labor tacked an extra ten per cent to its charges, the people of San Francisco would rightfully charge that they were benig held up.

"I don't think that they are going to stand still for this sort of unneeded and unwanted expense."

Supervisor Dewey Mead, interviewed today, said he felt that labor is being falsely accused of increasing the cost of building, and that some provisions of the proposed building code will raise building costs unduly.

"Of course, wages are being increased," he qualified, "but they

Juvenile Home Cost $170,000
NEAR SAN MATEO, Calif., San Mateo County. Site in the vicinity of the relief home, four miles west of San Mateo.
Owner—County of San Mateo, W. H. Augustus, county clerk, Courthouse, Redwood City, Calif.
Architects—San Mateo County Board of Architects, comprised of Architects Hervey P. Clark, Arthur D. Janssen, James H. Mitchell, Leo Sharps and Harry A. Thomsen Jr., 210 Post St., San Francisco, Calif.

1/9/47
Bond Election In Amount of Approximately $500,000 Set for April 1
Public Works Projects Cost $500,000
SAN MATEO, Calif., San Mateo Co.
Owner—City of San Mateo Park and Recreation Commission, Arthur B. Sullivan, city manager, City Hall, San Mateo, Calif.
Projects and tentative estimates are:
Police Department—Municipal Court combined into a hall of justice, requiring alterations at the old city hall, 215 B St., $56,400.
Plans by Architect Wm. H. Toepke, 19 B St., San Mateo, Calif.
Fire Department—Construct branch station on city owned property at 27th Ave. and Edison St. Includes building, hose and drill tower, landscaping, $69,450; shop facilities and hose tower at headquarters, $3350; building improvements and hose t

of Feather River from opposite Rio Bonito Station, upstream 3.5 miles.
Owner—U. S. Engineer Office, Wright Bldg., Sacramento, Calif.
Plans by engineering department of owner.
Unit quantities and prospective bidders were published December 19.

1/9/47 • 34
Owner Taking Bids—Due Jan. 14. 8 P. M.
Water Reservoirs (3)
PORTLAND, Ore.
Owner—Capital Highway Water District, Pumphouse, SW. 40th Ave. and Taylor's Ferry Rd., Portland, Ore.
Consulting Engineer—C. E. Carter, Spalding Bldg., Portland, Ore.
Includes excavation, clearing, laying of 80 cu. yds. concrete, 158,000 lbs. of reinforcing steel, two concrete pumphouses, placing pipe, fittings and valves.
Specifications obtainable from the office of the consulting engineer upon deposit of $25.

1/9/47 34
Bids Rejected—Owner Will Take New Bids Later with the Govt. Furnishing Cement and Certain Other Changes
Savannah River Dam.
AUGUSTA, Ga.—Savannah River, approximately 6 miles northwest of Augusta.
Owner—U. S. District Engineer Office, Savannah, Ga.
Total bids submitted Jan. 6 were: Morrison-Knudsen, Inc., (local office, 111 Sutter St., San Francisco, Calif.); Utah Constr. Co. (local office, 1 Montgomery St., San Francisco, Calif.); Peter Kiewit Sons' Co. (local office, 442 Post Street, San Francisco, Calif.), et al, $24,670,216.
Brown & Root & Associates, Houston, Texas, $26,481,919.25.
Thompson Street & Associates, $27-277,141.
J. A. Jones & Associates, Charlotte, N. C., $27,851,507.82

1/9/47 34
Contract Awarded
Dredging; Proj. No. 7 Cost $126,417
SAN DIEGO, Calif., San Diego Co.
Mission Bay at Dana Basin, Sunset Point and vicinity.
Owner—City of San Diego, Civic Center, San Diego, Calif.
Plans by engineering department of owner.
Approximately 830,000 cu. yds. dredging and filling in.
Contractor—Newport Dredging Co., 631 31st St., Newport Beach, Calif.

1/9/47 34
FWA Planning Funds Allotted in Amount of $1100
Water Reservoir Cost, $31,200
BLANDING, Utah.
Owner—Town of Blanding, Leland W. Redd, Mayor, Blanding, Utah.
Includes 300,000-gal. reinf. concrete reservoir, installation of 6700 ft. of 8-in. cast iron pipe and appurtenant work.

35— DOCKS, PIERS & HARBORS

1/9/47 35
Preliminary Report Completed
Yacht Harbor & Recreation Park Cost $3,787,000
OXNARD, Calif., Ventura Co.
Owner—City of Oxnard, City Hall, Oxnard, Calif.
Consulting Engineers—Leeds, Hill, and Jewett, 601 W. 5th St., Los Angeles, Calif.
The proposed harbor would consist of five stages of work as follows:
(1) an entrance dredged through the beach, midway between the north jetty and entrance to the main bare of the Fort Hueneme Naval Station;
(2) a first of maneuvering basin of about 14½ acres in area;
(3) a channel 400 feet wide (bottom width 280 to 340 feet), extending northerly or parallel to the shoreline for about 2 miles;
(4) a small second yacht basin at about 1 mile from the entrance;
(5) a major or third yacht basin of over 100 acres at the northerly end of the channel, adjoining Oxnard Road.
The breakdown on the cost estimate is as follows: Dredging and Basin No. 1 $193,000; channel from Basin 2 and including Basin 3, $1,-107,000; sheet piling and revetment, $34,000; small craft facilities, $400,-000; navigation aids, $15,000.
Public utilities: Water, $72,000; sewer, $64,000; electricity, $92,000; fuel facilities, $30,000; highway improvements and landscaping, $200,-000; land, $150,000; engineering contingencies, $745,000.

1/9/47 35
2:30 P. M. (Bidders Figuring)
Owner Taking Bds—Due Jan. 29,
Wharf; Spec. 1076
LOS ANGELES HARBOR, Calif., Los Angeles County, San Pedro.
Owner—Board of Los Angeles Harbor Commissioners, Rm. 408 Branch City Hall, San Pedro, Calif.
Reinforced concrete wharf, approximately 882 ft. in length at Berths 73-B, 73C, including access road grading.
Plans and specifications obtainable from the office of the harbor engineer, Branch City Hall, San Pedro. Bids to be accompanied with a certified check or a bid bond in 10% of amount.
The following contractors have taken out plans:
Guy F. Atkinson Co., 22233 S. Santa Fe Ave., P. O. Box 269, Long Beach.
Baruch Corp., 621 S. Flower St., Los Angeles.
E. B. Bishop, P. O. Box 1811, Long Beach.
Ben C. Gerwick, Inc., 112 Market St., San Francisco.
Hull, Smale & Robinson, 1033 N. Avalon Blvd., Wilmington.
Johnson Western Co., 2100 Wilmington-San Pedro Rd., Berth 115, P. O. Box 6, San Pedro.
Macco Corp., 815 N .Paramount Blvd., Clearwater.
L. V. Mulherron, 5300 Sheila St., Los Angeles.
H. B. Nicholson, 1151 S. Broadway, Los Angeles.
O. B. Pierson, 621 Flower St., Bellflower.
Pugh Construction Co., Ltd., 1260 Alameda, Wilmington.
Raymond Concrete Pile Co., 816 W. 5th St., Los Angeles.
Shanahan Bros., 6193 Maywood Ave., Huntington Park.
United Concrete Pipe Corp., Box 1, Station H, Los Angeles.
Warren-Southwest, Inc., 2145 E. 5th St., Los Angeles.
Winston Bros. Co., 411 W. 5th St., Los Angeles.

36— PARKS, AIRPORTS & PLAYGROUNDS

1/9/47 36
FWA Advance Planning Funds Allotted in Amount of $6450
Recreation Facilities Cost $270,500
SAN FRANCISCO, Calif.
Owner—City and County of San Francisco, Department of Public Works, Room 282 City Hall, San Francisco, Calif.
City Architect—Dodge A. Riedy, Rm. 265 City Hall, San Francisco, Calif.
Playground development, including gridirons, baseball diamonds, apparatus section and appurtenances.

1/9/47 36
Contract Awarded
Funston Playground (General Restoration); Serial No. 04-203-47-46 Cost $22,266.90
SAN FRANCISCO, Calif., West side Laguna St. between Chestnut and Bay Sts.
Owner—U. S. Engr. Office, 74 New Montgomery St., San Francisco, Calif.
Plans by engineering department of owner.
Contractor—Peter Sorenson, 927 Arguello St., Redwood City, Calif.

38— ELECTRIC LIGHTING TRANSMISSION LINES

1/9/47 38
Owner Taking Bids—Due Jan. 24, 1:30 P. M.
Transmission Line
STEVENS COUNTY, Wash. From end of Spokane-Colville line extending 25.5 miles to Spirit substation in Stevens County.
Owner—Bonneville Power Administration, P. O. Box 3537, Portland, Ore.
Plans by engineering department of owner.
Spirit-Colville 115-kv. wood-pole line, of wood pole, H-frame structures with spar type crossarms.
Specifications obtainable from the above office upon deposit of $25.

39— SEWERS

1/9/47 39
Contract Awarded
Standard Culverts Cost $12,264
ALAMEDA, Calif., Alameda County.
Owner—City bf Alameda, J. P. Clark, city clerk, City Hall, Alameda, Calif.
City Engineer—Carl Froerer, City Hall, Alameda, Calif.
For fiscal year.
Contractor—Gallagher & Burk, 900 73rd Ave., Oakland, Calif.

40— STREETS AND HIGHWAYS

1/9/47 40
Hearing of Protests Set for Jan. 24, 8 P. M.
Street Improvement
SACRAMENTO, Calif., Sacramento County, 32nd St. from P St. to Stockton Blvd.
Owner—City of Sacramento, George L. Klumpp, mayor; H. G. Denton, city clerk, City Hall, Sacramento, Calif.
City Engineer—Fred Klaus, City Hall, Sacramento, Calif.
Includes grading, concrete curbs, gutters and sidewalks, reconstructing existing manholes, asphaltic concrete 2½-in. in thickness.

1/9/47 40
Owner Taking Bids—Due Jan. 22, 11 A. M.
Grading and Paving
TERMINAL ISLAND, Calif., Los County.
Owner—U. S. Navy, officer in charge of construction, U. S. Naval Base, Terminal Island, Calif.
Plans by engineering department of owner.
Island freeway bridge, consisting of grading, roadways and embankments, importation of subgrade and embankment material, placing of reinforcing steel and concrete in road curbs and structures, placing plant mix asphaltic concrete and bituminous surface treatment, miscellaneous iron and steel work, storm drains and sewers, railroad tracks, fencing and planting.
Plans and specifications are available from the above address upon deposit of $50.

1/9/47 40
Owner Taking Bids—Due Jan. 17, 2 P. M.
Grading, Surfacing
IDAHO.
Owner—Idaho State Dept. of Public Works, Boise, Idaho.
Plans by engineering department of owner.
Include:
Fremont and Madison Counties—
Consisting of constructing roadbed, draining structures and crushed gravel surface on 6.596 miles of Parker to Thornton Rd. Parker-Egin-Henry's Fork section (U. S. 5-56(1)); engineer's estimate, $77,000.
Elmore County—Consisting of constructing roadbed, drainage structures, and bituminous surface treatment on 12.762 miles of SH 22, between Mount Home and Tollgate; FAF F-12(3); engineer's estimate, $331,800.
Latah County—Consisting of constructing roadbed, drainage structures and crushed surface course on 2.990 miles of Kendrick-Troy Road, Brady Gulch section; FAP S-75(1); engineer's estimate, $217,000.
Valley County—Consisting of constructing roadbed, drainage structures and plant-mix bituminous surface on 6.500 miles of SH 15, and roadmix bituminous surface on 1.0 mile of connecting road, between Cascade and Donnelly; Idaho Miscellaneous Project No. 953; engineer's estimate, $916,000.
Specifications obtainable from the above office upon deposit of $5 for each set.

1/9/47 • 40
Low and Only Bidders
Sidewalk and Loam Planting Strips; Spec. 2619 Cost, $5972.20
SAN FRANCISCO, Calif. 36th Ave. (west side) between Noriega and Quintara Streets and 37th Avenue (east side) between Moraga and Noriega Streets.
Owner—City & County of San Francisco, Dept. of Public Works, Room 282 City Hall, San Francisco, Calif.
City Engr.—Ralph Wadsworth, City Hall, San Francisco, Calif.
Work involves:
(1) 14,320 sq. ft. two-course concrete sidewalk;
(2) 542 c.y. loam in place.
Low Bidder—Patrick R. Kelly, 935 Rockdale Dr., San Francisco, Cal., (1) $0.33; (2) $2.30; total $5972.20.
Other bids submitted Jan. 8 were: M. J. Treacy, (1) $0.34; (2) $2.75; total, $6349.30.
E. J. Treacy, (1) $0.335; (2) $3.00; total, $6625.20.
Ernest Donougher, (1) $0.32; (2) $3.65; total, $6560.70.
D. J. Bresnl, (1) $0.36; (2) $3.15; total, $6862.60.
Love & Haun, (1) $0.36; (2) $3.25; total, $6916.70.
Arthur Walgren, (1) $0.376; (2) $3; total, $6996.
Chas. L. Harney, (1) $0.32; (2) $4.80; total, $7184.
E. Miles Thomas, (1) $0.38; (2) $3.63; total, $7409.06.
Adam Arras & Son, (1) $0.38; (2) $4.50; total, $7880.60.
Butte Constr. Co., (1) $0.34; (2) $9; total, $9746.80.

1/9/47 • 40
Low and Only Bidders
Street Improvement; Spec. 20,160 Cost $7,093.50
SAN FRANCISCO, Calif. Lakeview Ave., between Ashton and Jules.
New Montgomery St., San Francisco, Calif.
Plans by engineering department of owner.
The work involves:
(1) 1040 lin. ft. 4-in. pipe coating;
(2) 1000 lin. ft. 4-in. pipe installation;
(3) 40 lin. ft. 8-in. pipe sleeve;
(4) 1 each 4-in. valve installation;
(5) lump sum, concrete anchors.
Specifications obtainable from the above office.

1/9/47 41
Owner Taking Bids—Due January 22, 10 A. M.
Water Feeder Lines; Job No. W-4633
PHOENIX, Ariz.
Owner—City of Phoenix, City Hall, Phoenix, Ariz.
Plans by engineering department of owner.
Installation of 20 in. and 16 in. water feeder lines.
Work involves:

SCHEDULE 1
Alt. "A"—Lead Joints
(1) 7808 lin. ft. 20-in. C I pipe;
(2) 8880 lin. ft. 16-in. C I pipe;
(3) 31,250 lbs. C I fittings;
Total Alt. "A".
Alt. "B"—Cement Joints
(1) 7808 lin. ft. 20-in. C I pipe;
(2) 8880 lin. ft. 16-in. C I pipe;
(3) 31,250 lbs. C I fittings;
Total Alt. "B".
Alt. "C"—Coal-Tar Enamel Protection
(1) 7808 lin. ft. 20-in. steel pipe;
(2) 8880 lin. ft. 16-in. steel pipe;
(3) 2 each 16-in. tee branches;
(4) 5 each 12-in. tee branches;
(5) 6 each 10-in. tee branches;
(6) 10 each 8-in. tee branches;
(7) 27 each 6-in. tee branches;
Total Alt. "C".
Alt. "D"—Coal Tar Enamel Protection Inside, Concrete Coating Outside
(1) 7805 lin. ft. 20-in. steel pipe;
(2) 8880 lin. ft. 16-in. steel pipe;
(3) 2 each 16-in. tee branches;
(4) 5 each 12-in. tee branches;
(5) 6 each 10-in. tee branches;
(6) 10 each 8-in. tee branches;
(7) 27 each 6-in. tee branches;
Total Alt. "D".
Alt. "E"
(1) 7808 lin. ft. 20-in. concrete cylinder pipe;
(2) 8880 lin. ft. 16-in. concrete cylinder pipe;
(3) 2 each 16-in. tee branches;
(4) 5 each 12-in. tee branches;
(5) 6 each 10-in. tee branches;
(6) 10 each 8-in. tee branches;
(7) 27 each 6-in. tee branches;
Total Alt. "E".

SCHEDULE 2
Items Applicable to All Schedules
(1) 20 lin. ft. 12-in. C I pipe, lead joints;
(2) 12 lin. ft. 10 in. C I pipe, lead joints;
(3) 24 lin. ft. 8-in. C I pipe, lead joints;
(4) 120 lin. ft. 6-in. C I pipe, lead joints;
(5) 85 each Detail "JF", 1-in. corporation cock;
(6) 1 each Detail "K", pipe connection;
(7) 1 each Detail "L", pipe connection;
(8) 3 each Detail "M", reducer;
(9) 1 each Detail "N", connection;
(10) 4 each Detail "O", 45 deg. bends;
(11) 2 each, Detail "P", 12½-ft. radius, 90 deg. bends;

41— GAS, WATER AND OIL PIPE LINES

1/9/47 • 41
Owner Taking Bids—Due Jan. 23, 2 P. M.
Gas Main; Serial No. 04-203-47-54
BENICIA, Calif., Solano County. Benicia Arsenal.
Owner—U. S. Engineer Office, 74 New Montgomery St., San Francisco, Calif.
Plans by engineering department of owner.
The work involves:
(1) 1040 lin. ft. 4-in. pipe coating;
(2) 1000 lin. ft. 4-in. pipe installation;
(3) 40 lin. ft. 8-in. pipe sleeve;
(4) 1 each 4-in. valve installation;
(5) lump sum, concrete anchors.
Specifications obtainable from the above office.

1/9/47 41
Owner Taking Bids—Due January 22, 10 A. M.
Water Feeder Lines; Job No. W-4633
PHOENIX, Ariz.
Owner—City of Phoenix, City Hall, Phoenix, Ariz.
Plans by engineering department of owner.
Installation of 20 in. and 16 in. water feeder lines.
Work involves:

SCHEDULE 1
Alt. "A"—Lead Joints
(1) 7808 lin. ft. 20-in. C I pipe;
(2) 8880 lin. ft. 16-in. C I pipe;
(3) 31,250 lbs. C I fittings;
Total Alt. "A".
Alt. "B"—Cement Joints
(1) 7808 lin. ft. 20-in. C I pipe;
(2) 8880 lin. ft. 16-in. C I pipe;
(3) 31,250 lbs. C I fittings;
Total Alt. "B".
Alt. "C"—Coal-Tar Enamel Protection
(1) 7808 lin. ft. 20-in. steel pipe;

RESUMES PRACTICE

John Davis Young has returned from the navy to practice architecture in the offices where his father, Edward E. Young, one of San Francisco's old time architects, was located.
The address is 2002 California, and the phone Jordan 7-2220.
The building started a fad at the time it was built because of its center patio.

registrants and "we can't get any more." He estimated the minimum need to be two additional inspectors, adding, "we could do a bang-up job with five." His Board also urgently needs "an understudy to our executive secretary. He's too valuable a man to be chained to an office handling petty details."
Falk placed the blame for inadequate personnel squarely on the shoulders of the Personnel Board and the Finance Department. He declared that insufficient salaries were barring men from applying for the jobs. "We have plenty of money to do it," he explained, "if we were allowed to handle our own funds. But the Finance Board won't approve additional funds for more men."
"All these Boards largely enforce the law by moral persuasion," the Board chairman disclosed when asked how they functioned without adequate personnel. "The men might be operating on the edge of the law but rather than risk disgrace in the profession and trouble with the Board, they agree to operate ethically."

Dewey Mead Opposes

(Continued from Page 1)

are behind the pace of the cost of living."

DPW 'Too Fearful'

He explained his position. "I feel that some of the things that are contained in the proposed code being insisted upon by the department of public works are "of minor importance as far as the city is concerned, but of major importance as far as the builders are concerned." He said officials of the DPW are "too fearful."
He referred to a provision requiring landings where doorways open to a flight of stairs. He said an amendment offered by Supervisor Edward Mancuso providing that such landings be required only in cases where a door opens out would serve to protect safety.
"The department of public works takes the position that there must be a platform. Anyone could just as well fall off the platform," he said, and added that the necessity of the provision was something of a mystery to him.

Deplore Code Action

(Continued from Page 1)

H. H. Hilp of Barrett & Hilp, who said that while the picture was "good" it is "not as good as the ballyhoo". The President's attitude on labor, he stated, would encourage industry but not until industry found out what congress was going to do. He expected that the "CIO and AFL have learned their lesson and won't be as wild as last year." The current wave of portal - to - portal suits he dismissed as a lure to hold membership.

Pay Suits 'Lure'

"A sharp readjustment in our national economy is necessary before the nation can expect long-range good times," said W. A. Deal, San Francisco district manager of the building materials division of Johns-Manville. He hinged this adjustment to cessation of rising prices. "The peak in prices may have already been reached," he declared, pointing out that real estate and retail sales have reflected consumer resistance. He predicted that building materials will be in ample supply as "material manufacturers all over the country are planning factory expansions at an unprecedented rate."

Johnson Is Speaker

Some materials may be short, Deal conceded, but supply shortages will be come a minor factor as industry gets back to its task of "giving the public more and more for less and less."
William E. Hague, secretary of the BIC, announced that Gardiner Johnson, legislative advisor for many construction trade groups, will be next month's speaker.

Reintroduce WET Bill

(Continued from Page 1)

tions varied from lukewarm to outright opposition to it.

"In the house, the bill of Representative Wolcott (r., Mich.), may provide the framework for new legislation. A new bill may be introduced which would steer clear of the omnibus provisions of the original and may come to grips with the major bottleneck—a realizeable program of homes for veterans, leaving to other measures such matters as slum clearance, public housing research and statistics.

"Whatsover happens to the WET bill in the senate. it appears very likely that the house will consider its own measure."

And here, in more general terms is the Chamber of Commerce point of view on problems facing the new congress and what might be done about them:

"The new republican - controlled congress assembles with labor and fiscal problems pressing for immediate action.

Press Pay Suits

"A year of industrial strife, culminating in the autumn coal tie-up, has stirred public demand for legislative action to correct one-sided labor laws and to improve the collective bargaining process.

"The union rush to file 'portal-to-portal' pay suits brings to the front for congressional attention the need for clarification of the Fair Labor Standards (Wage-Hour) Act.

"The rise in prices and living costs has increased public demand for cuts in federal expenditures and for a balanced federal budget, to remove a primary source of the inflicationary pressure upon prices.

"The 80th Congress has the task of giving legislative expression to the change in popular sentiment registered in the turnover in the November congressional elections.

"Since the November elections, the administration has hastened the end of war-imposed controls and the swing toward freedom for enterprise.

"How much faster, and farther, the new congress will go on this road remains to be seen. Indications are that congress will recognize the majority wish to settle down to uninterrupted work and for an environment favorable to competitive enterprise.

'Distorted Economy'

"The increasing flow of supplies since the ending of OPA controls and industry - crippling strikes is moving to restore better balance with extraordinary demand and to cause a leveling off in the rising price trend.

"This points the way to the most effective cure for the nation's economic ills and the hangover of shortages following wartime distortions of supply and demand."

PLANS and Speculations

Yolo County supervisors will request the state highway department to readvertise for bids on replacement of the Moody slough and Capay bridges, which were destroyed in floods several years ago. No bids were received on first call last September. Funds for the two bridges (both listed as federal aid secondary projects) have been set aside.

oOo

A preliminary survey of the improvement and surfacing of the **Old Mission Road** will be started soon by South San Francisco Engineer Jack Estes, of the department of public works. It would connect El Camino Real and Grand Avenue.

oOo

Oakland has acquired a strip of land owned by Western Pacific Railroad, and plans to buy others necessary for realighment of East 12th Street from 19th to Fruitvale Avenues.

oOo

Removal of all street car tracks recently began in **Sacramento.** Work is being done by the city, and the Oak Park business district is first on the list. Removal of rails on downtown streets is tied in with a $300,000 city project for replacing sidewalks, curbs and gutters, inspecting and replacing retaining walls, and improving street grades.

oOo

New bids will be asked for construction of a new **Bidwell Bar Bridge** by the highway commission. No bids were eligible at the first opening in September.

Plumas Forest Timber Access Road Project Okayed By Creedon

More than 108 million board feet of timber will be hauled this year over about 48 miles of additional access roads, which are to be improved on the west coast with funds allotted under the veterans emergency housing program, Housing Expediter Frank R. Creedon announced today. The 48 miles of new roads to be built under two projects are in addition to 2700 miles of access roads contracted for privately.

A total of $305,000 will be allotted for two projects. One of these, involving an allocation of $275,000 to the public roads administration, will enable that agency to carry out in cooperation with the Oregon state highway department the improvement of 25.3 miles of roads between Estacada and Milwaukie, Ore. The latter town is near Portland and Estacada is near Mount Hood National Forest on the upper waters of the Clackamas River. The stretch of highway will be widened to 25 feet and a 20-foot surfaced strip will make it an all-weather road.

The other allotment, $30,000, also was made to the public roads administration and that agency will work in cooperation with the Plumas County, Calif., highway department in the betterment of a 22.8 mile stretch in the Plumas National Forest. The road starts at Flourney Bridge and extends through Taylorsville then on the easterly and northerly sides of Indian Valley to Greenville. The road will be reshaped and graveled and the drainage will be improved.

About 38 million board feet of timber, 24 million of which is from government-owned land, is expected to move to the mills over this road this year.

GROOVER AND I

WHICH WAY IS NORTH?

Mentioning two young people of my acquaintance: "Junior" is the high school son of a well-to-do middle class family—a family whose security is dependent upon the current prosperity of general business.

☆ ☆ ☆

During the 1945 school vacation Junior worked in a fruit and vegetable packing plant. During the school vacation last year he did not work as conditions had changed and the same job paid only $6-$7 per day.

☆ ☆ ☆

He said: "Last year when I was a kid of 17 I received $10-$12 per day, and I'm certainly not going to work this year for buttons".

☆ ☆ ☆

Marie is a sixteen old high school girl of a family where Security has never been a regular boarder —only an occasional week-end caller. During the last Christmas holiday she was one of the kids employed by the Post Office to help handle the mail rush. She was paid $1.04 per hour.

☆ ☆ ☆

She is no longer interested in her former after school and Saturday job of answering the phone and checking delivery slips for the little corner merchant. With a shrug she says: "Me work for 50c an hour again? That's just kid stuff."

☆ ☆ ☆

Before you try to understand, remember that everyone under 33 years of age has been exposed, since their high school days, to the philosophy that nobody has to work for a living—the Government will take care of everyone.

☆ ☆ ☆

It was over nineteen hundred years ago St. Luke said: "The labourer is worthy of his hire." About the same time it was also written:

☆ ☆ ☆

"By the sweat of your brow shall ye earn your daily bread."

Private Construction Triple Public Works

New construction during December amounted to $909 million and for the year totaled $10,131 million, the construction division, department of commerce, said today in its final report on 1946 building activity.

The December 1946 total was more than double that for December 1945, and the 1946 yearly total was two-and-one-fifth times greater than 1945.

Total private construction for December 1946 was $691 million and public construction amounted to $218 million. Private residential construction, excluding farm, totaled $300 million for December and private nonresidential construction totaled $299 million. In the public category, residential construction during December was valued at $57 million and nonresidential at $23 million. Military and naval construction was valued at $14 million and highway construction at $75 million.

For the entire year $7,868,000,000 was spent in private construction and $2,263,000,000 in public construction, the department of commerce said.

EDITOR'S NOTE: The Daily Pacific Builder goes to press handicapped by the absence of linotype operator and shop foreman Irving Sage, whose wife died Friday after a long illness.

Washington Correspondent Ernest Mickel is seriously ill, and no Washington release will be filed for a week, at least. ....

Supervisors Return Code to Judiciary; Board Of Experts to Iron Out Controversial Issues

The board of supervisors decided that controversial features of the proposed municipal building code shall be ironed out by a board of experts including an architect, an engineer, a home builder, a general contractor and a materials representative Monday afternoon in the face of a confident prediction by Chief Administrative Officer Thomas A. Brooks that "a jury composed of such interests would put the kiss of death on our code."

The united opposition of industry associations included in the Building Industry Conference Board met stiff opposition in the council chambers and a resolution requesting return of the code to the judiciary committee (which would name a board of experts to go over the differences) narrowly missed rejection. Final vote was 6-5, with Supervisors Coleman, Sullivan, Christopher, Mead and McPhee protesting its return to committee.

Among the many construction industry organizations opposing the passage of the code as it stands on second reading, were: Associated Home Builders of San Francisco, the American Society of Engineers, Planning & Housing Association of San Francisco, the San Francisco Hotel Association, San Francisco Chamber of Commerce, the Central Chapter, Associated General Contractors, American Society of Heating & Ventilating Engineers, the Structural Engineers Association, Shrader Iron Works, the American Institute of Architects, and Judson-Pacific, Murphy Corporation.

Industry representatives declared that the building code is one of the most important pieces of legislation to be enacted by the city for a long time, and that any provisions adopted would affect builders in San Francisco for a long time.

A representative of the chamber of commerce, calling for a return to committee, pointed out that minimum standards of construction, and not maximum requirements, should be established; and said, "if the department of works is over zealous, that is because they are charged to be."

Principal support to the code rehearing came from Supervisor Dewey Mead, a member of the Building Trades Council. Supervisor Mead contended that the code is such an important and far-reaching law, that differences of opinion on its provisions should receive every consideration.

Supervisor McPhee, chairman of the judiciary committee which urged the passage of the code as is, said he did not know whether or not speed was required in passage of the code. He said he had been informed that a great many buildings were being held back as the contractors and owners wanted to be sure that their buildings would comply with any provisions that may be enacted.

Supervisor Mead expressed a belief that consideration of controversial features by the soon-to-be appointed board of experts will not prolong the passage of a new code very much.

He declared: "I am firmly convinced that the two factions are not too far apart. That is why I would like to see the controversial issues of this code reconsidered."

Albert J. Everts, representing the American Institute of Architects, asked further consideration of the code. Speaking for a host of industry organizations, Everts said:

"There is a good deal of concern in the building industry, as well as the building owners, that we be not saddled with a law that will not wear well.

He declared that no one man could be a judge of the varied provisions contained in a building code and that experts in many fields are required.

Chief Administrative Officer Brooks reiterated his previous statement that the code should have been passed as it is on grounds that officials have "gone

CPA Restricts Help In Obtaining Supplies, Equipment Sharply

In a sweeping amendment to Priorities Regulation 28, the Civilian Production Administration of the Office of Temporary Controls today sharply restricted the areas in which it will give assistance to business in obtaining materials and equipment, Commissioner John C. Houston, Jr., announced today.

The amendment is in line with the policy of decontrol whenever possible. Under the rewritten regulation, CPA will no longer grant CC priority ratings for production materials; maintenance, repair and operating supplies; capital equipment or construction materials or equipment for the purpose of starting or maintaining any individual plant or business or to alleviate individual hardship. Special rating assistance to small businessmen and veterans was terminated by revocation of Direction 20 of the Regulation.

In making this announcement, CPA made it clear that CC ratings already issued would continue valid, and that it would continue to issue ratings for non-deferable military needs, essential community needs, and to maintain or increase the production of veterans' housing materials or products, determined to be in critically short supply.

Specifically, CC ratings will be issued only in the following limited cases:

1. Where an item is needed to fill a military order which cannot be deferred without serious results to the defense program or to the health and welfare of enlisted personnel.
2. Where an item is needed to provide essential utility services or, in an emergency, to eliminate serious hazard to the life, health or safety of a large number of people.
3. Where material or equipment is required in connection with the Veterans' Emergency Housing Program to maintain or increase the production of a building material or product which has been determined to be critically short supply.

WOULD ESTABLISH STATE COMMERCIAL RENTS LID

SACRAMENTO.—Senator Gerald J. O'Gara, San Francisco, and Jack B. Tenney, Los Angeles, have asked that a $25,000 fund be appropriated for creation of a five-member joint legislative investigating committee on California's housing situation.

A measure introduced by Assemblyman Lester A McMillan, Los Angeles, would provide commercial property rent control based on the average level for 1942.

UNDERGROUND GARAGE SUGGESTED FOR NOB HILL

T. Robert Letts, executive secretary to Mayor Lapham, has proposed construction of a Nob Hill underground garage. Letts asked that consideration be given the proposal in current studies on an overall plan for a solution to the traffic problem, in a letter to Marshall Dill, chairman of the mayor's coordinating council on traffic and transportation.

Construction Industry Presents United Front After Legislative Conference at Sacramento

By PHILIP G. BRADY

Contractors will join forces with engineers and architects to form a new overall agency to regulate, coordinate and administer all branches of the construction industry under a plan unanimously endorsed Saturday by the statewide legislative conference at Sacramento. William C. Tait, San Francisco general contractor, was named to head a commission to study various administrative plans and draw up a bill for presentation to the Legislature.

The decision was reached after delegate spent hours expressing their dissatisfaction with the present set-up which, they claimed, does not adequately encourage or protect either the public or the industry interest. As the state's largest non-agricultural industry, it was felt that all interests would be better served by a consolidation in administration.

Other important agreements were reached at the two-day conference which attracted representatives from all segments of the industry. As a result, it was expected that the industry would present a united front on all common legislative problems. The meet was termed "the most successful yet" by spokesmen who pointed out that final details would be threshed out at a meeting in February after all the bills had been filed.

Three preliminary plans for the new agency were given consideration by the conference. The first was to group the existing license boards (contractors, civil engineers and architects) under a separate division within the Department of Professional and Vocational Standards which now administers them. The new division would be regulated by a commission chosen from the existing boards and would be administered by a full time director with an industry background. The second plan calls for an organization along the lines of the Railroad Commission without the price setting functions of that body.

The third plan, which received strong support, calls for a completely self-governing body such as the bar association. This plan took its cue from strong agitation by the engineers and architects for self-regulation of those professions.

As presented by Tait, the new overall commission would consist of three boards, as at present. Members to these boards would be chosen by the registrants and license holders with approval of the Governor. Over these boards would be a top commission consisting of delegates from the boards and reporting directly to the Governor. Actual administration would be in the hands of a full time director chosen by the boards. Under this plans, Boards would be able to control their budgets and personnel directly.

The committee will give consideration to all suggestions, according to Tait, at a meeting in San Francisco in the near future. Others on the committee include William McGrath, Harold Dixon, Milton W. Morris, Don Shaw, John S. Bolles and Winfield H. Arata. A representative of the engineers will be named shortly.

S. B. 31, modifying the mechanics lien law, was endorsed in principle by the conference. It would allow completion notices to be filed on individual residences in subdivision developments as each was completed. Filing time for subcontractors and material suppliers remains unchanged at 30 days but the time limit for general contrac-

WILL-MIX MORTAR AND PLASTER MIXER
available NOW!

PRECISION BUILT
Detachable hood door with hasp for padlock
5 time-saving reasons why WILL-MIX will make extra money for you!
1. Portable—easy to tow to any job. No whip while towing.
2. Fast and easy to operate.
3. Right height for fast loading.
4. Thorough mix on every batch.
5. Dumps directly into wheelbarrow or box.
COMPARE WILL-MIX'S sturdy construction and outstanding features with those of any other mixer on the market today. Mounted on a 4" channel steel electrically welded chassis, WILL-MIX is built for heavy-duty service. Mixing drum has sides of 3/16" steel plate and 1/4" steel plate ends. Adjustable paddle blades scrape drum clean every revolution—giving quick, smooth, uniform mix every batch. The gears are machine-cut, not cast, for quicker operation. WILL-MIX's double-sealed bearings keep grease in—mortar, sand and dust out. The rugged, 4 H.P. water-cooled engine runs cool in the hottest weather, and is enclosed in an aluminum detachable hood. Mounted on roller bearing steel wheels with finest pneumatic tires, the compactly designed WILL-MIX gives you smooth towing, easy storing and years of trouble-free service.

Industry United

(Continued from Page 1)

tors is cut from 60 to 45 days under provisions of the law. Utility contractors would continue to be protected under the Improvement Act.

The conference went on record "opposing unreasonable increases in the amounts of force accounts," after it learned that school divisions and public works agencies were seeking an increase in the legal limits. Any decrease in the publicity given for public bids was also opposed.

The plight of some school divisions without funds but badly in need of additional buildings and equipment was discussed by the meeting. It was agreed to support State Aid bills, possibly to be introduced at the special session, to afford some relief in such situations.

A bill to make parents responsible for the willful and malicious acts of their children was endorsed. It was hoped that such a measure would cut down the huge amounts of damage done to construction equipment and materials.

The Contractor's State License Law would receive minor revisions under bills approved by the conference. William E. Hague, secretary-manager of the Central chapter, AGC, submitted a proposal to compel the Board to publish a geographically classified directory of licensees. Hague also said he would file a bill halving the contractor's fees and another establishing standard holidays throughout the state.

Clifford W. Dorwin, representing the State Builders Exchange, received approval for several legislative changes. Included among them was a bill to cut from two to one year the filing date of complaints against contractors. This would apply only to disciplinary action by the Board, not to civil rights.

He announced that the state's Exchanges were behind the architects "one hundred per cent" in their move to allow private architects to do public work. Another amendment offered by Dorwin would change the provision for listing of compensation insurance carriers with the State License Board.

"Not one per cent of the contractors comply with the provision," asserted Dorwin, adding that failure to do so is a misdemeanor. He asked that the law be amended to allow csontractors to list their carriers at the time of original application and at each renewal. A simple change in the renewal forms, he said, would accomplish this.

Joseph Burr, Sacramento Builders Exchange manager, was chosen to head a committee to act as liaison and advisory committee to the Contractor's State License Board. Others named to the committee were Floyd Baker, Harold Dixon and Harry Robertson.

Excessive building requirements and the need for a uniform building code more in line with the Housing Act was discussed by John S. Bolles, president of the California Council of Architects.

Code to Committee

(Continued from Page 1)

as far as we can go in conscience." He emphasized that the department is not an opponent of the building interests.

"I feel that it would be just a waste of time to refer the matter back to the judiciary committee," he stated.

Supervisor Colman objected strenuously to appointment by the judiciary committee of a technical board to make the decisions on controversial issues. He said that he believed that such decisions belonged to the board of supervisors. and that industry interests had not been denied the right to an adequate hearing.

"The industry should be given a full hearing," he maintained, "and we should make the decisions. Their opportunity is right here, before this board of supervisors.

He disclosed that a code advanced by the Los Angeles Chamber of Commerce had received preliminary approval of the architects.

The next meeting was set for Sacramento, February 21-22.

Quick ELECTRIC HEAT
HELPS CHECK WINTER COLDS!

Yes, the quicker you change from cold and wet clothing, the better.

Better, too, when you warm chilled wrists, hands, ankles and feet beside an electric heater. And then slip into warm socks and slippers.

Every home should have a dependable electric heater as a winter health protector. It is handy to use whenever quick-acting emergency heat is needed. Your electric dealer now has a supply of portable electric heaters that plug into any wall outlet and operate economically on ordinary house current. Buy yours today—help keep winter colds away.

GOOD—this tall, slim radiant heater.

GOOD—this motor-driven, fan-type heater.

GOOD—this dependable double-action heater.

PLANS and Speculations

A park commission meeting Thursday will seek to determine whether or not private capital is willing to finance construction and operation of garages under St. Mary's Square, Civic Center Plaza and Portsmouth Square. Only bid received for the work was rejected by the commission because it contained an escalator clause.

oOo

A public hearing will be held at Eureka on the proposed creation of a harbor at Trinidad. Army engineers will preside at the 10 o'clock session.

oOo

Congressman Richard Nixon (r., Calif.) pledged opposition today to appropriation of funds to build the disputed $5 million "Whittier Narrows Dam in his district.

oOo

Possible annexation of **Princeton, El Granada and Miramar** to the Half Moon Bay public utilities district in order to unite sufficient assessed valuation for a water system is still in the "talking stage."

oOo

Nevada's state legislature will be asked to provide funds for construction of a state tuberculosis hospital, Dr. Fred Anderson, Reno physician, disclosed.

oOo

San Mateo County probation officers are expected to recommend a site for the proposed new juvenile detention home. Locations near Redwood City and San Mateo are favored.

oOo

Preliminary plans for realignment and widening of Crow Canyon Road near Martinez will be submitted to the state division of highways. It would be a federal aid project.

Popert Assigned to Name Experts' Board; Jan. 29 Is Deadline

The judiciary committee of the board of supervisors Wednesday afternoon took up the proposed building code as a first item of business, and assigned William H. Popert, representative of the Building Industry Conference Board, to name an advisory board of experts to go over controversial issues contained in the legislation.

The judiciary committee stipulated that an architect, an engineer, a home builder and a general contractor be named, and further recommended that representatives of the city fire and building departments be included.

Chairman Chester R. MacPhee gave the board of experts until 3 p. m., Wednesday, January 29, to thresh out the differences between the industry and the authors of the proposed code. At that time, the technical board must bring in their recommendations.

Mr. MacPhee promised an early settlement would come from the January 29th session. "We'll stay here far into the night, if we have to to settle this thing," he declared.

#

'DECONTROL RENTS'

WASHINGTON.—Senator Kenneth Wherry (r., Nebr.) and Senator Moore (r., Okla.) today advocated an end of rent ceilings.

Their announcement followed the announcement that rent ceilings will be lifted from transient hotel rooms and motor court accommodations effective February 15.

OTC Administrator Philip Fleming declared rent controls on other units must be kept to protect thousands of working couples, students, many of them veterans, and other persons of modest means.

GROOVER AND I

WE SAID WE WOULDN'T . . . . . BUT WE DID

☆ ☆ ☆

In this column one week ago Thursday, January 9th, I mentioned the visit of Italian Premier De Gasperi being in this country, at our invitation, to discuss advantageous trade concessions which would compensate Italy for an extra grab of Italian reparations, which one of our allies insisted upon, and got.

☆ ☆ ☆

You may have been expecting to see a Senate debate and discussion on this matter. **You were waching the barn door when you should have been aiming your shotgun at the melon patch.**

☆ ☆ ☆

It is old fashioned to think there would be anything as honest and forthright as a discussion on a loan before the Senate. That is the way the Constitution says it should be—but it isn't the way we planned it.

☆ ☆ ☆

On Tuesday afternoon the 14th the Italian Signor dropped in at the Export-Import Bank where the papers were all ready for him to sign granting Italy a 100 million dollar credit!

☆ ☆ ☆

(The Export-Import Bank is one of the lending agencies we have established where money can be obtained without embarrassment, without delay, no investigation, in strict privacy and all for free.)

☆ ☆ ☆

Here is a remarkable coincidence: The 100 million dollar credit (of YOUR money) is exactly the same amount of extra reparations pie grabbed by our little Volga palskys.

☆ ☆ ☆

We said we wouldn't . . . . . but we did.

#

Rent Control Debate Broadcast Over KGO At 6:45 P.M. Thursday

Herbert U. Nelson, executive vice-president of the National Association of Real Estate Boards, will debate Representative Albert Gore (D., Tenn.), a member of the house committee on appropriations, on the subject, "Should Rent Controls Be Lifted?" on the radio program, "America's Town Meeting," Jan 16, 1947.

Also appearing on the program will be two special interrogators who will question Nelson and Gore. Douglas Whitlock, chairman of the Building Products Institute, will support Nelson's affirmative stand, and R. J. Thomas, CIO vice-president, will back Gore's negative position.

#

BID ON TOOLS

War Assets Administration said today that a 58-million-dollar inventory of war-surplus cutting tools, formerly offered for sale through industry agreements, now will be offered on a competitive bid basis.

The large inventory, expected to be increased by an estimated 25-million-dollars' worth yet to be declared surplus, consists of nearly 198-million pieces in 26,000 sizes. Included are twist drills ranging in diameter from .0135 inches to four inches, reamers ranging from .0 inches to four inches, and milling cutters ranging from .015 inches to 12 inches.

Safety Record of State Worst in Nation, Call Declares; Inadequate Roads Blamed

"California is the worst state in the nation from the standpoint of traffic deaths and accidents—and our highway and county road systems lag so far behind current needs that action must be taken to ameliorate this situation," Asa V. Call, president of the California State Chamber of Commerce declared today, announcing the State Chamber's highway policies for presentation at the special highway session called by Governor Warren to begin today.

"The State Chamber policy is that any reasonable, required increase in the motor vehicle fuel tax and the imposition of any new special highway user taxes will be supported, provided such additional taxes are allocated specifically to a new highway development program, including development of a freeway or express way system, and the correction of critical deficiencies on the highway system and county road system, designed to meet the highway requirements of a great majority of California's motor vehicle operators.

"The State Chamber asks that there be a time limit on the increase of revenues to coincide with the time required to construct the projects contemplated in the program."

The State Chamber and other groups cooperating have been assembling an analyzing facts underlying the highway problem, including close cooperation with the Collier Committee and the state department of public works.

"While current traffic congestion and high accident toll in life and property loss demand immediate improvement or urban and county thoroughfares," Call continued. "However, all funds presently in the state treasury available for highway development will be spent by June 30—and more than $60 million in approved critical projects will remain still to be financed. With other essential construction needed—freeways, bridge and county roads—there will be needed well over a billion dollars for a highway system of reasonable standards."

Other State Chamber highway policies follow:

That the California Legislature effect at the current session an accelerated highway development program adequate to meet the statewide rapidly increasing traffic requirements, and in view of its urgency, such action programmed commence as soon as practicable.

That there be established by legislative action a statewide system of urban-rural highways to be known as the California Expressway System, to consist of urban-rural routes and an additional mileage of urban freeways within metropolitan districts giving due consideration to population, motor vehicle registrations and traffic volume. The design and construction of these highways is to be of modern freeway standards which shall be progressively developed as rapidly as needs indicate and funds become available. Neither the state highway commission nor any other agency of the state shall permit or conduct commercial enterprises or activities within or on the property acquired for or designated as freeways or expressways.

That responsibility for acquisition, construction and maintenance of the California Expressway System be vested in the state highway commission which shall be governed by the following principles:

1 Priority for development of the Expressway System to be given to present and potential motor vehicle transportation needs on the Expressway System.

2 Initial construction of highways on the Expressway System to contemplate their ultimate development to full freeway standards, requiring the acquisition of ample rights-of-way widths and necessary limited access rights to avoid the extraordinary expenses of future acquisition or possible relocation of highways by reason of lateral encroachments.

That concurrently with the development of an Expressway sys-

(Continued on Page 8)

Gas Tax Increase Is Superfluous, Unfair, Oil Dealers Contend

Western Oil and Gas Association took sharp exception today to statements claiming the state needs more money at this time for highway use.

Pointing to the $668 million available to the road builders during the next four years, Don E. Gilman, executive vice president of the oilmen's group, said this sum exceeded the greatest estimate of need over a like period by more than $35 million.

The California Major Highway Development Committee, in its September 25, 1946 report to the Collier committee, Gilman said, forecast $594,914,000 accruing to the state during the next four years. To this has been added *$73,271,000* normally expected from local property taxes. Totalled, this amounts to the $668,-185,000 referred to.

The estimate of need reported by the Collier Committee's technical staff amounts to *$632,725,600.*

"If the proponents of higher taxation will show need of increased taxation, Western Oil and Gas Association will rest content," the executive said, but until then it would be unfair to oil's best customer, the motorist, to remain silent.

Careful to emphasize the figures he quoted were those of the California Major Highway Development Committee, plus local property taxes, he said his industry's interest was confined to need and nothing else.

The Highway Development Committee referred to is composed of 22 statewide organizations, called together by the state Chamber of Commerce to determine probable highway income. The accuracy of their estimates, Gilman said, has never been publicly questioned.

"While not questioning the 'emergency' nature of many of the state's highway problems," he went on, "our association does question the need of highway revenue legislation."

California highway revenue, from all sources will run far in excess of $100 million during 1946 according to latest figures. Just how far will not be known until all agencies report. To back his statement Gilman offered the net $68,989,249 collected from the three cents tax gathered during 1946. A third more than 1945's $49,952,961, the money represents actual collections as reported by the state controller and he said are not to be confused with assessments by the Board of Equalization, he explained.

Referring to a minority report, presented to the legislature January 7, by members of Collier's committee, Gilman said the oil association was in full accord with its findings.

"It is a point of logic and certainly in the public interest these higher tax proponents be required to show need before imposing another tax boost on 'the California taxpayer,'" he said, stating Californians are already paying six tax dollars today for every one of ten years ago. Gilman called the state "money fat" and said our law makers should not be hurried into legislation which cannot possibly result in the construction of an extra foot of needed highway.

With the Legislature

Ten Per Cent of Legislative Bills Submitted Affect Construction Industry; 3500 Expected

By PHILIP G. BRADY

SACRAMENTO—An analysis of the first 200 bills filed with the current Legislature reveals that well over one in ten affects some phase of the construction industry. Political observers freely predict that 3500 proposed laws will be presented for consideration. This means that contractors, architects, engineers and material men may have to keep posted on nearly 500 measures directly affecting them.

To keep the industry informed on the content and progress of these bills, the Daily Pacific Builder inaugurates a review of pending legislation. It must be borne in mind that many bills are filed for bargaining purposes only, with no expectation of passage by the sponsors. Others are presented in skeleton form or by title only. The actual "meat" will be added later by amending them in committee or on the floor of the Assembly or Senate.

The filing session will last until the end of the month when the solons will take a 30-day recess. But with the special session on highways now in progress, many other matters of concern to the construction industry, such as housing and school facilities, may be taken up as "urgency matters".

Following, in numerical order, are some bills pertinent to the industry. Those starred have exceptional interest:

*A.B. 1 sets up air pollution control districts along county lines and provides a "person shall not build, erect, alter or replace any stationary fuel burning equipment" except dwelling heaters and incinerators without obtaining permit from air pollution control officer.

A.B. 24 provides that whenever subdividers are required to install sewers with laterals extending beyond subdivision as a condition of acceptance of streets and highways governing bodies shall pay subdividers for work and exast a charge from users.

A.B. 25 sets up a bureau of licensed locksmiths within department of professional and vocational standards. Does not apply to installation of locks in new construction. "Master locksmiths" are those in the trade four years or more. Grandfather clause lasts only 90 days. Exam fee, $20; annual fee, $25.

*A.B. 38 defines statewide holidays, adds Feb. 12 and Feb. 22 to usual list: Jan. 1, May 30, July 4, Sept. 9, first Monday in Sept., Oct. 12, Nov. 11, Dec. 25, all statewide election days and holidays proclaimed by President or Governor. Affects all public agencies except service departments.

*A.B. 40 forbids government employees to work in excess of five days of eight hours in any week. Also carries same holidays as A.B. 38.

A.B. 78 makes mandatory payment to a veteran of net gain realized after sale of his forfeited

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, E. F. Hallenbeck, regional director, 1355 Market St., has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area:

WAREHOUSE, $2617; Placer County; owner, L M Grasser, 1083 Grant, Vallejo.

ADD TO STORE, $5000; 85 California Dr, Burlingame; owner, William J Bourne, 212 Channing Rd, Burlingame.

STOREROOM (paving machinery storage), $8700; Standish and Chilton, Redwood City; owner, Douglass & Woodhouse, Box 906, Redwood City.

PACKING HOUSE (fruit), $72,800; Kelseyville; owner, Kelseyville Packing Co, Kelseyville.

BUILDING (tire warehouse and service), $10,238; 5th and Cedar Sts, Coalinga; owner, I L Coppel, 289 N 5th St, Coalinga.

PLANT (processing plant for dairy and poultry feed), $11,500; Los Gatos; owner, Chester E Pfefferle, 140 E Main St, Los Gatos.

ALTERATIONS (to cannery), $40,000; Oakland; owner, Butler Packing Co, 9957 Medford Ave, Oakland.

FACTORY (sausage), $100,000; Sacramento; owner, Made Rite Sausage Co, 3353 2nd St, Sacramento.

BUILDING (distribution of feed and grain mill equipment), $15,000; M and Los Angeles Sts, Fresno; owner, W G Hendrie & Co, 405 Towne, Los Angeles.

FORD AGENCY, $130,000; 259 W Santa Clara, San Jose; owner, R M Cuthbert, et al, Box 879, San Jose.

PLANT (manufacture of wood excelsior and containers); $6000; Millbrae; owner, Royal Container Co, Millbrae.

ALTER (radio station), $5000; San Francisco; owner, Chronicle Publishing Co, 901 Mission St, San Francisco.

MILKING BARN, $3500; near Marysville; owner, Ed B Reamy, Route 3, Box 113, Marysville.

MILKING BARN, $1500; near Anderson; owner, George Machado, Route 1, Box 201, Anderson.

PLANT (manufacture of oxygen and acetylene gas), $12,000; North Sacramento; owner, California Oxygen Co, 1409 Central Bank Bldg., Oakland.

SCHOOL (elementary), $63,000; Madera; owner, Rev. V J Mazzucco, 121 N C St, Madera.

TAILOR SHOP, $3500; Fresno; Leon L Emerzian, 1826 S Van Ness Ave, Fresno.

SHOP (auto repair), $7200; 545 W Fremont, Stockton; owner, Wm E Hansen, 520 N Hunter, Stockton.

BUILDING (Blue Cross Hospital Insurance Assn), $2400; 1127 J St, Sacramento; owner Intercoast Hospital Ins Assn, 1127 J St, Sacramento.

ADDITION (classroom), $17,000; near Grass Valley; owner, P J Benkano, Union Hill Schools, Grass Valley.

ENLARGE (union hall for classroom carpentry), $17,000; Salinas; Carpenters' Hall Assn, 422 N Main St, Salinas.

AUTO AGENCY, $42,000; 418 Robertson Blvd, Chowchilla; owner, Pistoresi Chevrolet Co, 411 Robertson, Chowchilla.

ESCALATOR, $105,000; 9th and K Sts, Sacramento; owner, Hale Bros Stores, 36 5th St, San Francisco.

PLANT (manufacture of steel water tanks), $167,100; San Jose; owner, Pittsburgh-Des Moines Co, Neville Island, Pittsburgh, Pa.

BUILDING (auto and truck maintenance and repairs), $28,000; Putnam and 2nd Sts, Porterville; owner, Nick J Joanides, 105 S Main St, Porterville.

PAINT STORE, $21,750; 2969 Broadway, Oakland; owner, R N Nason & Co, 151 Potrero, San Francisco.

BUILDING (service garage for telephone company), $35,000; 90th and Bancroft, Oakland; owner, P A Anderson, Walnut Creek.

REAL ESTATE OFFICE, $4250; 91st and Junipero Serra Blvd, San Mateo County; owner, Michael C Callan, Box 492, Colma.

PUMALITE

BUILDING BLOCKS
8" x 8" x 16 and smaller sizes now available

CHECK PUMALITE ADVANTAGES
1. LIGHTWEIGHT . . . weighs less than one-half of the average masonry block.
2. STRENGTH . . . to meet the requirements of uniform building codes.
3. *Economy* of laying . . . lightweight and convenient sizes cut building costs.
4. LOW UPKEEP and Insurance Cost (about half of frame construction rates).
5. High Insulation and Acoustic value.

NEW *Improved* SCOOPMOBILE *Five NEW* IMPROVEMENTS!

1 **NEW "Shovel Action" BUCKET**
A full load . . . plus! No more ramming into stock pile. Simply ease SCOOPMOBILE into pile and lift bucket with a full load . . . easier on the machine . . . faster, fuller!

2 **HAND LEVER CONTROL**
Two hand levers at operator's fingertips give positive, flexible control of bucket action. No more trip rope and "shock dumping" from unhandy elevations.

3 **DISCHARGE ACTION**
Full loads can now be discharged from very top of rack. (Up to 8 ft.) Partial loads can be discharged by closing bucket at any height while pouring.

4 **NEW COUNTER BALANCE**
The new SCOOPMOBILE keeps its feet on the ground! New counter balance (optional) is easy to attach to rear of Scoopmobile to accommodate heavy loads at top of rack.

5 **CONTROLLED DIGGING ACTION**
Improved double sheaves and mechanical improvements give entirely new control of digging angle. New design of bucket means NO spillage over rough terrain.

Owner Taking Bids—Due Feb. 6, 2 P. M.
Surfacing, Etc.
NEVADA COUNTY, Calif. Nevada City-Downieville, Tahoe National Forest.
Owner—Public Roads Administration, C. C. Morris, division engineer, 720 Phelan Bldg., San Francisco, Calif.
Plans by engineering department of owner.
About 2.596 miles, Project Calif. FH-25-C.
The work involves:
(1) 30 acres clearing and grubbing;
(2) 276,000 cu. yds. unclassified excavation;
(3) 2200 cub yds. unclassified excavation for structures;
(4) 790,000 sta. yds. overhaul;
(5) 6150 M gallons watering;
(6) lump sum, provide and maintain water plant or plants;
(7) 1500 force account obliteration of old roadway;
(8) 17,500 cu. yds. selected borrow base course;
(9) 85 tons medium curing asphalt for prime coat;
(10) 20 tons rapid curing asphalt for seal coat;
(11) 2.596 miles road mix surfacing laid;
(12) 540 tons medium curing cutback asphalt for road mix;
(13) $4000 force account debris deflectors;
(14) 410 cu. yds. concrete;
(15) 43,500 lbs. reinforcing steel;
(16) 3392 lin. ft. corrugated galvanized sheet metal culvert pipe;
(17) 1 culvert pipe elbow;
(18) 408 lin. ft. remove, clean and stockpile or relay salvaged culvert pipe;
(19) 11 each drop inlets;
(20) 11 each steel inlet covers;
(21) 4 each embankment spillway inlet assemblies;
(22) 420 sq. yds. grouted rubble gutter;
(23) 42 each right-of-way monuments
(24) 4 each concrete maintenance marker posts;
(25) 35 each timber culvert markers;
(26) $1500 force account remove and reset fence;
(27) 95 each timber guide posts;
(28) 570 lin. ft. beam type metal plate guide rail.
Plans and specifications obtainable from 723 Phelan Bldg., San Francisco, Calif., upon deposit of $10 and may be examined at 515 Forum Bldg., Sacramento, and at the offices of the Associated General Contractors, 216 Pine St., San Francisco; 707 Architects' Bldg., Los Angeles, and Hotel Golden, Reno, Nev.

WILL-MIX MORTAR AND PLASTER MIXER *available NOW!*
PRECISION BUILT
Detachable hood door with hasp for padlock
5 time-saving reasons why WILL-MIX will make *extra* money for you!
1. Portable—easy to tow to any job. No whip while towing.
2. Fast and easy to operate.
3. Right height for fast loading.
4. Thorough mix on every batch.
5. Dumps directly into wheelbarrow or box.
COMPARE WILL-MIX'S sturdy construction and outstanding features with those of any other mixer on the market today. Mounted on a 4" channel steel electrically welded chassis, WILL-MIX is built for heavy-duty service. Mixing drum has sides of 3/16" steel plate and 1/4" steel plate ends. Adjustable paddle blades scrape drum clean every revolution—giving quick, smooth, uniform mix every batch. The gears are machine-cut, not cast, for quicker operation. WILL-MIX's double-sealed bearings keep grease in—mortar, sand and dust out. The rugged, 4 H.P. water-cooled engine runs cool in the hottest weather, and is enclosed in an aluminum detachable hood. Mounted on roller bearing steel wheels with finest pneumatic tires, the compactly designed WILL-MIX gives you smooth towing, easy storing and years of trouble-free service.

Legislature

(Continued from Page 1)

farm and home contract purchases.

•A.B. extends unil adjournment of 58th (current) Legislature, the right of school districts to grant contracts for materials and supplies without posting notices if unable to obtain estimates from three dealers or contractors.

•A.B. 91 increases lawful school district petty labor account from $1000 to $3000. The bill reads: "In each school district, the governing board may make alterations or additions to school buildings, repair or build apparatus of equipment, make improvements on school grounds and erect new buildings by day's labor whenever the total cost of labor on the job does not exceed $3000.

A.B. 92 raises from $100 to $500 the amount of public works contract before contractor must post bond.

A.B 98 creates $30 million State School building fund to aid impoverished school districts "lacking essential physical properties." This is an urgency measure.

•S.B. 31 lowers time limit for filing liens by general contractors from 60 to 45 days, slightly changes form of lien notice and allows separate completion notices for individual residences within a subdivision.

COMPLETE BUILDING AND ENGINEERING NEWS SERVICE

F.W. DODGE CORPORATION

Daily Pacific Builder

LARGEST CONSTRUCTION DAILY IN THE WEST

Vol. 57—No. 13 SAN FRANCISCO, MONDAY, JANUARY 20, 1947

Copyright 1946 by F. W. Dodge Corporation

PLANS and Speculations

The Board of Fire Underwriters of the Pacific informed **Lemoore's** city council, that the city's water system needs immediate improvement and that new equipment is needed by the fire department. Adoption of a building code patterned from the Code of Suggested Ordinances for Small Municipalities was urged also.

oOo

Hahn-Campbell & Associates, city planning experts of **Burlingame**, have been employed by the City of South San Francisco to make a study of the city's zoning laws and recommendations for future land use.

oOo

Bids are expected to be advertised soon for construction of a $91,000 concrete bridge over Kern River on the Stockdale Road near **Bakersfield**. The road will be relocated for about three-quarters of a mile.

oOo

State Assemblyman Jack F. Thompson has introduced a bill in the legislature asking $500,000 for construction of a state office building in **San Jose**.

oOo

Officials of the veterans administration will inspect possible sites for a 1000-bed neuropsychiatric hospital in **San Francisco** sometime in February, a reliable source revealed.

oOo

The **Woodbridge** fire district has purchased a vacant lot at Augusta and Main Streets as a site for erection of a permanent fire house, capable of housing three engines.

oOo

Extensive remodeling of the **Sonoma-Marin Fourth District Agricultural** Fairgrounds is planned.

oOo

Army engineers have rejected all bids on the proposed VA hospital at **Minot, N. D.**; the lowest was $799,000 too high. Action will await the outcome of negotiations on the similar Grand Junction, Colo., case.

oOo

State civil service exams will be given March 8 for junior architural draftsman ($250-310), and assistant architectural draftsman ($310-$370) on March 8. On March 4, an exam will be given to select a senior sanitary engineer ($435-$535)

oOo

Assemblyman Albert C. Wollenberg (r., San Francisco) announced he would introduce a legislative bill to finance a complete engineering study for a second bridge crossing **San Francisco Bay**.

oOo

The navy department has recommended the **Del Monte** site near Monterey for construction of its $28,650,000 navy postgradnate school.

oOo

Completion of 112 emergency housing units at **San Mateo Point** has been authorized by Langdon W. Post, regional FPHA director.

oOo

A survey of alternate sites to the proposed high-level Monticello Dam on **Putah Creek** will be presented to the California state water resources board by February 1, the rec bureau announced.

oOo

San Mateo County's new juvenile home will be located near the existing Relief Home near **San Mateo**. The decision culminates a controversy of two year's standing.

oOo

Construction of the new state mental institution at **Atascadero** will take at least two years after the plans are drawn, according to Carl E. Applegate, deputy director of the state department of mental hygiene. Estimated cost is $6,133,000.

oOo

Four San Mateo County civil service exams will be held in Redwood City, February 1. Applications close January 24. Positions listed include that of planning assistant, $266-$332.

Few Controls Remain In Effect; F. Creedon Slashes Orders to 27

WASHINGTON. — The office of temporary controls has listed the following orders, schedules and appendices in effect as of January 1 1947. Only those of direct interest to the construction industry are listed.

CPA, of OTC, was operating under 27 of these, excluding directions, on January 1. This compared with 43 orders and 18 schedules and appendices in effect a year ago.

Construction and Field Operations Bureau

VHP-1 Veterans' housing program, general restriction on construction and repairs. Last date modified, Dec. 23, 1946.

VHP-2 General restrictions on hardwood lumber.

VHP-3 Use restrictions on cast iron soil pipe.

VHP-4 Production restrictions on cast iron soil pipe.

Forest Products Division

L-358 Permits builders of conventional type houses to use up to 600 instead of 300 square feet of softwood plywood per house.

L-359 Limits sales of, and establishes setasides for, various types of lumber. Last date modified, December 30, 1946.

Steel Branch

M-21 Controls the production and distribution of iron products, steel forgings and other steel products and steel alloying products; explains identification of purchase orders. Last date modified, Dec. 20, 1946.

Priority Regulations

PR-1 Basic rules on priorities.

PR-3 How preference ratings are eused. Last date modified, December 13, 1946.

PR-5 Reproduction of forms and orders.

PR-7 Standard certification.

PR-7A Transfer of quotas and preference ratings.

PR-28 Policy on CC ratings. Last date modified, December 3, 1946.

PR-32 Inventory controls. Last date modified, Dec. 13, 1946.

PR-33 Priorities assistance in securing building materials for moderate-cost veterans' housing. Last date modified, Dec. 31, 1946.

PR-34 Controls RFC sales of certain strategic metals, minerals and other materials. Last date modified, Dec. 17, 1946.

#

Aluminum Capacity Far Above Postwar

WASHINGTON. — George R. Gibbons, senior vice-president of the Aluminum Company of America, has been quoted as saying the nation's economical capacity for producing new aluminum is four times as great as in the highest prewar year. It now amounts to more than a billion pounds a year, he said.

Surpass Postwar Record

Prefabricated home manufacturers use large quantities of the product while conventional home builders have turned to aluminum to some extent during the past year as a substitute for more critical materials such as tin.

Gibbons pointed out that in 1946 nearly all war-built government-owned aluminum plants capable of peacetime operation were leased or sold to private industry.

The estimated output of 836 million pounds of aluminum during the last year was three times the amount manufactured by the nation in 1938. Yet, it represented only two-thirds of the rated annual capacity that now is approaching full production.

Currently there is a price advantage since basic aluminum prices have been reduced by 25 per cent since World War II began.

GROOVER AND I

MEMO ON HELL

Anyone giving the matter thought is wishing success to Theodore Bilbo's surgeons. Even his most ardent enemies did not wise-crack about "poetic justice", when it was announced that Bilbo required another operation for cancer of the mouth. Cancer and polio are two things you don't joke about.

☆ ☆ ☆

Some days ago Bilbo, in discussing his forthcoming Senatorial seat fight stated that if Fate permitted, "I'm going back and fight until hell freezes over".

☆ ☆ ☆

That frost point would be an interesting problem in thermatics I have often speculated upon the social aspect of Hell—but assumed that the climatic condition was tropic and unvarying.

☆ ☆ ☆

Perhaps I should discuss this with the **Western Asbestos Company** or the **Johns-Manville** boys—who know all the answers regarding Heat and Frost Insulation.

☆ ☆ ☆

According to Boswell it was Dr. Samuel Johnson who reported "Hell is paved with Good Intentions", but he failed to report the name of the successful contractor.

☆ ☆ ☆

(Note by Lorna Stock, Builder reporter: "This paper was not scooped by the Johnson report, as that was published 100 years before the "Builder" was founded.")

☆ ☆ ☆

While mentioning old contracts there was a Heavenly job involving "Pearly Gates and streets paved with gold." Nothing is mentioned regarding CPA priorities on materials.

☆ ☆ ☆

I'm just trying to figure out who had the nerve to bond that job!

#

Pledge Support To Sound Public Works Program In Congress

Winfield H. Arata, disclosed today that he had received numerous replies from congressmen representing the Northern California area, indicating their approval and support of "a sound program of public works construction for necessary and essential projects which have been seriously interrupted and delayed by the war requirements."

The Northern California AGC Chapter manager said that telegrams had been sent congressman on a resolution unanimously passed at the annual Associated General Contractors meeting in early December. The telegrams read, in part:

"We encourage economy in governmental expenditures but fell over-drastic curtailments of federal public works construction would retard national development by depriving the public of essential services and would seriously affect the national economy. Construction, being the second largest industry in the United States will be required to make up for down in other industries."

#

INVESTIGATE PUBLIC SCHOOL SYSTEM—CALL

LOS ANGELES—Asa V. Call, president of the California State Chamber of Commerce today urged a complete re-appraisal of the services and costs of California's public school system, to determine if improvements were apace with expenditures.

He said 1945 expenditures on the public school system were 72.6 per cent above 1934 expenditures. He urged that a legislative committee be appointed and provided with an adequate appropriation to study the system.

Heraty Calls for Sincere Cooperation of Government; Rental Financng Is Needed

The homes builders of the country are ready to build promptly all the housing called for by President Truman in his State of the Union message if the government will sincerely cooperate with private industry, Philip F. Heraty, president of the Associated Home Builders of Alameda County, Inc., declared today.

"Home Builders will welcome proper and orderly aid by the government in financing rental housing for veterans, and in financing other moderate cost housig," he said. "They have been working for real action along these lines for months.

"If materials and labor are available, we can build all the housing the nation needs. That's our job, and we'll do it. We agree with President Truman that 1947 can be the biggest home construction year in history if the materials come through.

"Home builders have the land, the experience, the backing, and the ability to build the houses. We'll do our part."

"Keep Government Out"

As for the public housing called for by President Truman, Heraty said:

"The way to encourage a lot of moderate cost housing and rental housing for veterans is for the government to cooperate with industry and refrain from getting into the business of building, owning and renting housing itself. If we are to build the houses now that we need today, we can't dabble with long-range socialization of housing.

"Private home builders will welcome a genuine effort by the government to cooperate with private industry by providing sound and orderly financing aid."

As evidence of the ability of private builders to produce homes, Heraty pointed to the latest report of the housing expediter which stated that 630,000 new permanent homes and apartments were placed under construction during the first 11 months of 1946—the largest number in any full year since 1928. Nearly 400,000 permanent units were completed by private builders in the 11-month period.

Worked While Hobbled

"We did this job under a tremendous load of disrupting regulations and controls that impeded our work enormously," said Heraty. "Now with the removal of the worst of these disrupting regulations and with the promised elimination of the rest when the materials situation clears up, we can look forward to the greatest building period of all time."

#

HORN BOOK OUT

A new edition of the Horn Construction Data and Handbook has just come off the press.

Its first section gives technical data on all Horn products, such as flooring materials, exterior and interior coatings, roofing materials, waterproofings, dampproofings and admixtures.

The second section of the handbook is a veritible treasury of useful tables, conversion factors estimating tables, weights and strengths of building materials, etc.

A copy will be sent free to executives, engineers and contractors upon written request. Horn Company's local address is 252 Townsend.

#

TRADE-MARK STUDY

The first book on the new trademark act came off the presses in January. It was written by Attorney H. A. Toulmin, Jr., of Dayton, Ohio, a well-known authority on trade-mark law and the author of previous trade-mark treatises.

Because of the wide experience of the author, who is counsel for a large number of corporations on trade-mark matters, the book may be considered authoritative. Publisher is the W. H. Anderson Company of Cincinnati.

Area Meet Tuesday Invites Suggestions To FHA By Industry

Members of the entire Bay Area building industry have been invited to attend a meeting to be conducted by the local Federal Housing Administration, under sponsorship of the mayor's housing committee.

Eliminate Bottlenecks

One of a series of nationwide such meetings—San Francisco's—will be held by the FHA at Larkin Hall in the San Francisco Civic Auditorium at 10 a. m., Tuesday, January 21.

Purpose of the meeting is to determine the requirements and possibilities in stimulating and encouraging construction of rental properties in San Francisco, according to District Director D. C. McGinness.

He pointed out that district offices of the FHA have been given a wider latitude and are not required to observe other than statutory Washington-dictated regulations. Local directors and underwriters may determine what is appropriate and acceptable in a given locality.

The meeting will ask suggestions and full cooperation of all branches of the industry in providing a maximum number of rental units in the Bay Area.

The district officer announced that action is being taken by Washington headquarters to simplify procedures in order to expedite the processing of applications under all phases of FHA financing.

Panel Discussion

"Every effort will be put forth by all personnel of this office to assist individuals who are interested in sponsoring rental housing projects—such projects to be a two-, three-, or four-family dwelling financed under Section 603—or a reconversion job under Title I," he declared.

While it is expected that a large segment of the need for rental housing will be met by the construction of multi-family rental projects, both large and small, under Section 608," he said, "the FHA will lend strong encouragement to the development and construction of a large number of rental units in two-, three-, and four-family structures to be insured under Section 603 of Title IV."

The morning session of Tuesday's meeting will be devoted to a thorough explanation of new regulations and procedures by FHA staff members. The afternoon session will be devoted to an open panel discussion.

Nine Community Meetings

San Francisco's meeting is part of a statewide program to be launched immediately, seeking cooperation of all groups of the industry in each community.

Meetings will be scheduled within the next two or three weeks in nine other cities, the district FHA office disclosed. Cities included are: Chico, Sacramento, Stockton, Modesto, Fresno, Visalia, Santa Rosa, San Jose and Salinas. Possibly other meetings will be announced later.

WATER SHIPMENTS UP

PORTLAND. — December water shipments of lumber from Oregon and Washington seaports to other parts of the nation totaled more than 70,000 tons.

The West Coast Lumbermen's Association office here said that volume was a jump of 130 per cent over November, 1945, and described it as reflecting a return to normal peacetime distribution.

22-26—RESIDENTIAL BUILDINGS

1/20/47 • 23
Owner Taking Bids—Due Feb. 13, 2 P. M.
Apartments (Conversion);
Serial No. 04-209-47-55
CAMP STONEMAN, Calif., Contra Costa County. Section Q, Areas 3 and 4; about one mile south of Pittsburg, Calif.
Owner—U. S. Engineer Office, 74 New Montgomery St., San Francisco, Calif.
Plans by owner.
Conversion of 16 buildings into 64 apartments or family housing.
Bids will be taken as follows:
(1) lump sum, conversion of building No. T-225, T-226, T-227, T-228, T-257, T-258, T-259, T-260, T-261, T-262, T-263, T-293, T-294, T-295, T-296, T-297;
(2) sanitary sewer system, including all new connections, 4-in runouts, 6-in. lines, 6-in. cleanouts to grade and all trenching and backfilling;
(a) 350 lin. ft. 4-in. vitrified clay sewer pipe in place, finished;
(b) 700 lin. ft. 6-in. vitrified clay sewer pipe in place, finished;
(c) 10 each 6-in. cleanouts to grade;
(3) gas supply and distribution system, including connections to supply main, valves and connections to house systems;
(a) 1800 lin. ft. 2½-in. black iron gas pipe, wrapped;
(b) 1300 lin. ft. 1-in. black iron gas pipe, wrapped;
(4) cement sidewalk work;
(a) 24,000 sq. ft. cement sidewalk in place;
(b) 80 lin. ft. 4-in. vitrified clay sewer pipe culverts.
Alternate A: In case the government shall choose to omit or substitute certain features included in item 1:
(1) deduct for omitting refuse containers (4 per building);
(2) deduct for omitting doors on kitchen cabinets;
(3) deduct for omitting electric light switches and substitute chain sockets;
(4) deduct for omitting all interior doors, except entrances and bathrooms;
(5) deduct for finishing one side of partitions only, except around kitchens, bathrooms and fire-retarding partitions;
(6) deduct for using prefabricated metal showers in lieu of bath tubs (existing metal showers are available for this substitution and all bath tubs omitted);
(7) deduct for omitting window shades;
(8) deduct for omitting bathtubs (4 per building).
Alternate B: In case the government shall choose to use a mixture of both tube and showers, taking advantage of the 15 available tubs and 31 available prefabricated metal showers, tubs and/or metal showers will be installed complete as follows:
(9) furnish and install bathtubs, each;
(10) furnish and install prefabricated showers, each;
(11) install bathtub furnished by the government, each;
(12) install prefabricated shower furnished by the government, each.
Specifications obtainable from the above office.

LARGEST CONSTRUCTION DAILY IN THE WEST

Vol. 57—No. 14 SAN FRANCISCO, TUESDAY, JANUARY 21, 1947

Copyrighted 1946 by F. W. Dodge Corporation

PLANS and Speculations

A public hearing recently was held on a petition requesting installation of sewer facilities along portions of 105th Avenue, Knight Street and Bernhardt Drive in Oakland. Cost of the work involved has been estimated at $15,000.

oOo

Future development of Santa Clara valley and its rapidly growing communities depends on construction of a $2 million earth-fill dam which cannot be started until the Santa Cruz-Los Gatos state highway is rerouted. This was the report brought to Governor Earl Warren by a group of Santa Clara civic leaders.

oOo

The South Palo Alto Civic Club has endorsed tentative plans for a 37-acre regreation park west of El Camino Real near Mayfield elementary school.

oOo

Proponents of proposed construction of an exhibit-armory building at the 3rd Agricultural District fairgrounds at Chico soon will have an opportunity to discuss the project with state architecture department heads in Sacramento.

oOo

Sunnyvale city council members renewed efforts to obtain state assistance in improving the intersection at 101 Highway and Murphy Avenue, at the city's entrance.

oOo

State funds will be requested for turnouts on the Yolo-Davis Causeway in an effort to stop highway accidents, Assemblyman Lloyd W. Lowrey (d., Rumsey) disclosed recently.

oOo

Hanford's city planning commission will hold a hearing on the application of the California Water Service Company for erection of a 200,000 gallon tank, on January 20. The proposed location is zoned residential.

FHA-Industry Meet Today May Offer a Stimulus to Rentals

A meeting of all Bay Area contractors, architects and various segments of the home building industry and financiers will open today at 10 a. m., at Larkin Hall.

Sponsor is mayor's housing committee and the San Francisco office of the Federal Housing Administration, which called the meeting to establish greater cooperation between the agency and private enterprise.

Crowd Chambers

Morning sessions will inform members of the industry who attend of procedures followed and new regulations on housing. An open panel session during the afternoon will give representatives of the industry an opportunity to present their problems, criticisms, and suggestions.

The meeting was hailed by State Senator Gerald J. O'Gara (d., San Francisco) as one which might produce some concrete recommendations leading to a solution of the area-wide housing shortage through local action, at a night board of supervisors session on housing last Friday night.

Members of veterans organizations crowded the supervisors chambers for the meeting to air their complaints and make specific recommendations on housing.

Representing a union of all veterans organizations in San Francisco, Julius M. Keller, American Legion committee, said that temporary housing was not the answer, and that the problem will be solved only by privately and publicly financed housing, but he added:

Disabled Vets Needy

"We need housing and we need it by next summer. The immediate problem can only be solved by

Housing No. 1 Problem—So Special Session Is Devoted to Financing Superhighways

By PHILIP G. BRADY

SACRAMENTO.—A shakeup in the method of apportioning funds for construction and maintenance of city and county roads is called for in a bill (A.B. 345) filed by Assemblymen Lloyd W. Lowrey (d.) Rumsey and Ernest R. Geddes (r., Pomona). The bill, which was filed in the regular session, has no relationship to the overall highway program on which the Senate opened hearings Monday night.

The act also would restrict primary county roads to 40 per cent of all county roads and major city streets to 25 per cent of the total maintained mileage within the area. Local governing bodies would be allowed to select the major streets and primary roads on the basis of greatest general importance.

Under the proposed setup, county roads would be placed under a central agency in each county. This agency would be in charge of a registered civil engineer or other qualified person approved by the State Highway Commission. The commission would also have power of approval over all expenditures.

The new method of distributing the Highway Users Tax fund would put two-thirds in the State Highway Fund and split the balance evenly between county and cities (including cities and counties). The plan provides that the county money is apportioned by granting each county a flat $7500, and splitting the balance into halves.

One half is distributed to counties in proportion to auto registrations and the other half is distributed according to the proportion of county primary road mileage.

The city split is limited for use on new construction of major city streets. The apportionment is strictly along population lines except that each person in a city of over 500,000 people is counted three times and each person in a city between 200,000 and 500,000 people is counted twice. All under 200,000 are counted once.

Money for maintenance of roads and streets will amount to the larger sum of two methods of computation. One method allocates a gat $100 per certified mile to each city and county while the second system grants $300 per mile less 30 per cent of the total valuation of taxable property within the city or county. Any unexpended balance may be used for new construction by vote of the city or county governing board.

Other bills affecting the construction industry now before the Legislature for consideration include:

S.B. 19 geared to liberalizes law for real estate, business opportunity, cemetery and mineral, oil and gas brokers. Abolishes examination fee and increases original fee from $5 to $20. (See A.B. 136.)

S.B. 25 called the Uniform Vendor and Purchaser act and provides destruction of property shall be vendor's loss prior to transfer of legal itle of possession (notwithstanding any contract) and the purchaser's loss thereafter.

S.B. 96 exempt landowners of 10 acres or less from real estate subdivision act provided he has owned

GROOVER AND I

"HOT" LEADS

I have just observed boys of the Century Electric Company doing a job of rewiring an old, rambling 3-story residence. I now understand why I would never get rich as a contractor—but I would have lots of fun.

☆ ☆ ☆

Trouble is, I would have too many gadgets. For instance, in tracing out the old wiring I would have two men equipped with walkie-talkies, one of them stationed at the fuse-panel, while the other went around snapping switches and testing outlets. "Roger-Over-Wilco."

Patrick Furlong of the Century Electric Construction Company illustrating the BEST way of NOT testing out a "hot" circuit.

#

Greater Commercial Allowance Gratifying Says AIA President

WASHINGTON.—The action of the Office of Temporary Controls in raising the limitation on the volume of non-housing construction is most encouraging to the architectuarl profession and to the construction industry as a whole, James R. Edmunds, Jr., president of the American Institute of Architects, stated today.

"The increase from $35 million a week a $50 million a week in the amount of commercial, industrial, public, and other construction that will be permitted to get under way will mean at least $780 million more non-housing this year and will permit the building of many additional structures of an essential nature," Edmunds said.

"A record breaking amount of new building of all kinds has reached the blueprint stage and is ready for on-site construction to begin as soon as governmental regulations permit. There will be no difficulty from a design standpoint in reaching the $15 billion of new construction forecast for this year and that total could be surpassed with no difficulty if the supply of materials is sufficient."

#

CIVIC CLUB LEAGUE TO ELECT THURSDAY

Election of officers, delegates-at-large and an advisory board will be the main item of business when the annual meeting of the Civic League of Improvement Clubs and Associations of San Francisco is held next Thursday.

The meeting will be held at the League's offices in the Mills Building, Suite 824, George W. Gerhard, secretary, announced. Other outgoing officers are James L. Halley, president; Dr. Edward E. Johnson, P. J. Kelly, Hugh K. McKevitt, William Mooser, and William B. Poyner, vice-presidents; P. F. Ringole, treasurer; and Alfred C. Tritenbach, auditor.

#

BRAWNER IAC LEADER

Appointment of W. P. Fuller Brawner as chairman of the San Francisco Chamber of Commerce industrial department advisory committee was announced Thursday by Carl J. Eastman, Chamber president.

Brawner is vice president and treasurer of W. P. Fuller and Company

CAA Announces Alaska, Hawaii, Arizona, Utah, Nevada, Oregon, Washington Grants

WASHINGTON—T. P. Wright, administrator of the civil aeronautics administration, announced the allocations of federal aid to airports in Nevada, Oregon, Washington, Alaska and Hawaii this week.

Three grants were made to Alaska air fields. Seward was granted $30,000 federal funds against $10,000 provided locally. The government provided $40,000 to Dillingham on a new airport whose total cost will be about $53,300, and $45,700 of an estimated cost of $66,000 to Seldovia for extensive improvements to the existing port.

Hawaiian airports will be granted nearly $400,000 for field development. The aid funds and estimated totals are as follows: Hana (estimated cost $256,000), federal aid $128,250; Kailua, (cost $196,000) aid $96,000; Kalaupapa (cost $100,000) aid $50,000; Lanai City (cost $100,000), aid $50,000 and Lihue (cost $89,000), $238,000.

Following are the allocations for towns in Nevada, Utah, Arizona, Oregon and Washington:

Overton, federal, $45,110; total, $75,776.

Utah

Price, federal, $112,805; total, $182,020; Nephi, federal, $55,430; total, $86,180; Parowan, federal, $120,060; total, $194,790; Spanish Fork, federal, $47,720; total, $79,160; Tremonton, federal $35,570; total $60,240; Kanab, federal $29,790; total, $53,770; Salina, federal, $24,200; total, $42,810; Green River, federal $42,010; total, $71,570; Goulding Trading Post, federal, $20,045; total, $32,870; Panguitch, federal, $23,380; total, $40,090; Beaver, federal, $67,510; total, $108,810; St. George, federal, $18,250; total, $29,440; Moab, federal, $22,090; total, $35,620; Myton, federal, $20,190; total, $32,490; non-housing this year and will permit Rosevelt, federal, $11,000; total, $87,530; Duchesne, federal, $35,980; total, $60,180; Torrey, federal, $20, 160; total, $32,510.

Oregon

Hood River, federal, $7,000; totl. $18,500; Wasco, federal, $15,500; total, $28,400; Lexington, federal, $7,000; total, $12,500; Joseph, federal, $300; total, $1,100; Nyssa, federal, $4,700; total, $8,400; Hillsboro, federal, $8,100; total, $14,500; Enterprise, federal, $5,600; total, $10,000; Prairie City, federal, $3,500; total, $7,200; Florence, federal, $8,400; total $15,000; John Day, federal, $1,000; total, $4,000; Burns, federal, $8,900; total, $17,500; Bend, federal, $24,100; total, $43,000; Baker, federal $72,826; total, $130,000; La Grande, federal, $15,700; total, $28,000; Ontario, federal, $8,900; total, $15,900; Coquille, federal, $1,600; total, $3,000; Albany, federal, $3,700; total, $14,800; Princeville, federal, $700; total, $1,200; The Dalles, federal, $19,000; total, $34,000;

Washington

Kelso, federal, $39,500; total, $102,000; Lester, federal, $61,800; total, $119,600; South Bend - Raymond, federal, $47,300; total, $91,200; Port Townsend, federal, $82,200; total, $161,100; Chelan, federal, $29,100; total, $56,200; Concrete, federal, $15,800; total, $31,000; Colfax, federal, $21,600; total, $41,600; Oroville, federal, $10,400; total, $20,000; Kirkland, federal, $30,700; total, $65,300; Clarkston, federal, $36,500; total, $71,900; Wenatchee, federal $31,100; total, $60,000; Blaine, federal, $9,300; total, $20,600; Bandera, federal, $54,800; total, $105,700; Long Beach, federal, $23,300; total, $45,000; Prosser, federal, $8,300; total, $16,000.

File for Permission To Build $26,800,000 Feather River Plant

Pacific Gas and Electric Company announced a five-year, $300 million expansion program.

First steps under the program will be taken when PG&E files application for approval of construction of two projects on the Mokelumne River, and two on the Feather River, with the state public utilities commission.

The Feather River hydroelectric projects are Rock Creek Powerhouse, a $26,800,000 plant of 169,000 horsepower capacity near Storrie, Plumas County, and Cresta Powerhouse, a $21,500,000 plant of 101,000 horsepower capacity near Cresta, Butte County.

#

WESTERN ADDITION AREA REDEVELOPMENT FIRST

The San Francisco board of supervisors Monday passed a resolution of intention designating a section of the Western Addition as the initial project to be undertaken under the Urban Redevelopment Act. The action called upon Mayor Lapham to ask further study of the project by planning officials and civic improvement organizations of the area concerned.

Although a resolution of intention is not an official act, the city planning commission urged it as "enabling legislation" that would permit studies so that plans and definite figures might be presented to property owners of the area affected. Progress reports are to be submitted to the board by the planning commission every month.

#

SHORTAGE NATIONWIDE, THREE MAJOR PROBLEMS

Not only the West, but the entire nation is affected by the current heavy demand for steel, F. B. De-Long told a conference of Pacific Intermountain Purchasing Agents meeting at the St. Francis over the weekend.

The Columbia Steel Company vice president explained: "Manufacturers of products of steel are faced with the necessity of trying to supply demands which accumulated during the war years . . . by no means greater than the requirements which manufacturers have placed with the steel industry."

He cited three major production problems: the raw materials shortage; deterioration of equipment from long, hard use during the war; and work stoppages which cost the national economy "about 16 million tons of ingot steel."

REC BUREAU AIDES DEADLINE JAN. 28

BOISE, Idaho.—The deadline for filing applications with the bureau of reclamation for engineering aid positions has been extended to January 28, F. Russell Sparks, executive secrtary of the bureau's regional board of U. S. Civil Service Examiners, announced here today. He said that the extension was granted to permit college students finishing in January, and others, to take advantage of the opportunity.

Full particulars can be obtained from the Regional Board of Civil Service Examiners, Box 937, Boise, Idaho, or any first or second class post office.

FHA Meet Tuesday
(Continued from Page 1)
more temporary housing."
M. C. Herman, state adjutant of the VFW, concurred with his views, and added, "We have come to that point in the road where whining and talking about it has come to an end. People are living in intolerable conditions."
Another speaker point out that disabled veterans were entitled to a special consideration of their needs, and said that men who had lost their legs should get first consideration for first-floor units.
The CIO veterans committee pledged itself to "fight for rehousing rights" as it had for reemployment rights, and recommended that the city finance permanent housing. Freely admitting that it means subsidized housing, the representative called attention to other subsidizing programs and said he belicved the veterans were as important as the shipping interests.
Vets Invited
He urged the supervisors to declare a state of emergency in veterans housing for a five-year minimum.
Mayor Lapham in urging that permanent housing be considered, recommended that interested veterans groups attend Tuesday's meeting of the FHA and the industry.
Actions of the board were:
(1) Approval of a resolution permitting Mayor Lapham and the San Francisco Housing Authority to negotiate a $672,000 contract with state authorities for construction of 261 dwelling units for veterans;
(2) Approval of a recommendation urging Governor Warren to make more money avaliable under the Malcney Act. (The act permits the state to pay 90 per cent of the cost of construction of 2,000 dwelling units. Estimated cost is $7½ million.

Legislation

(Continued from Page 1)

land five years and is selling not more than five acres subdivided into parcels not smaller than 60x100.

S.B. 98 (& A.B. 262) applies to all projects financed from Highway Users Tax Fund costing 1000 or more. Provides for bids but if municipality considers award "not in public interest" may use day's labor and award contracts without publishing bids. Effective June 30, 1948.

S. B. 145 provides that the Attorney General shall represent state agencies in workmen's compensation cases where such agency is defendant employer.

A.B. 19 makes mandatory a written notice, in prescribed form, between landlord and tenant to change terms of original agreement.

A.B. 89 creates the Veterans' Widow Farm and Home Building Fund extending state aid for property purchases to widows of bona fide veterans of World War II.

A.B. 110 allows notices in proceedings under the Improvement Act of 1911 to be posted near, as well as on, council chamber doors. Could be a sleeper.

***A.B. 114** affects all vehicles on state highways more than 96 inches wide by prescribing definite markings: Daytime: red flags, 16 inches square on the left, front and rear; Nighttime: two amber lights forward and two rear red lights.

A.B. 116 amends the Labor Code to provide for a sufficient number of inspectors to enforce the scaffolding regulations.

***A.B. 123** makes parents (and guardians) responsible for "wilful misconduct of their children. Liability is limited to 100 for each tort (act). Expected to reduce sabotage and theft of construction equipment and materials.

Official Proposals

OFFICIAL PROPOSAL

NOTICE TO CONTRACTORS

Sealed bids will be received by the City of Martinez, California, on February 11, 1947, for the construction of a 6 MGD Filter Plant. Principal quantities include the following:
14,800 cubic yards excavation.
3,150 cubic yards reinforced concrete.
14,700 linear feet pipe lines 8- to 24-inch.
A proposal guaranty of $20,000 is required. Plans and specifications can be secured, on deposit of $50.00, from the City Engineer, Martinez, California.

(Daily Pacific Builder)
(Jan. 7-9-13-15-17-21-23-27-29-31/47

It takes a lot of INGENUITY ENGINEERING to help meet Service Demands

We put up more miles of new electric lines in 1946 than in any previous year. We are ditching-in more pipe for new gas customers than we have ever done before. But we are not yet caught up with increased demands for gas and electric service to all customers.

● **Shortage of Equipment**
It requires 24 to 36 months to get delivery of essential transformers for substations and power lines. We are getting only a part of the gas pipe we need.

● **Shortage of Transportation**
Autos and trucks of every type needed to get men and materials on the job are as difficult to get as passenger cars.

● **Shortage of Labor**
The company is operating schools to train repairmen and line construction personnel. We need many more linemen.

It takes a lot of Ingenuity Engineering to maintain a dependable degree of service to our many gas and electric customers. At Eureka, for instance, we have converted half-a-wrecked ship into a steam-electric generating plant. We rebuild, salvage and scour the market for needed material new or used. During this new year of 1947 we hope a lot of needed items will become more plentiful for all of us.

LINEMEN WANTED!
We Train You—See P. G. and E. Now!

PLANS and Speculations

Possible remodeling of the city-owned Zarko garage into a library and city offices is under consideration of Sunnyvale's city council.

A new professional organization has been formed in the Central Valley region. Temporary chairman of the Structural Engineers for the Central Valley of California is D. C. Willett.

oOo

The war department will conduct an investigation soon into feasibility of using part of the San Francisco Presidio for home building purposes.

oOo

The County Supervisors Association of California has endorsed a gasoline tax increase and have urged full study and passage of the road bill at this session of the Legislature.

oOo

Utilities Manager James H. Turner announced that work has begun on a two-year program of rebuilding the Moccasin Creek Municipal Power Station. The plant is located in Tuolumne County.

oOo

At Reno, Nev., the state highway department has asked more than $8 million (a record expenditure) for construction of approximately 387 miles of highways in its tentative budget for 1947.

SLUM ELIMINATION TOPIC OF REALTORS

WASHINGTON—Slum elimination at the local level without federal aid will be considered by the board of directors and executive committee of the National Association of Real Estate Boards meeting here January 28-29.

Abolition of federal controls on rents and building also will be considered.

FHA-Mayor's Meet Draws 500 Bay Area Men; Treat Rentals

Nearly 500 builders, architects, realtors, materials representatives, finance officials and others concerned directly with home building attended a meeting sponsored by the Mayors' Housing Committee at Larkin Hall, Tuesday.

Goal of the three-hour session was ironing out the kinks in financing and construction of rental construction, by determining the needs of the Bay Area builders and investors. Highlighting the program was a detailed explanation of procedures of the Federal Housing Administration by its representatives.

Mayor Lapham—who has often criticized the use of temporary structures in filling out a fraction of the city's housing needs—opened the meeting and pointed out that many San Franciscans are living in "intolerable conditions", and that a "vast amount of rental units are needed now".

Maintaining his position that permanent structures are more practicable, he called upon the industry to make as fine a record for itself now as it had done when it turned its attention to construction of military facilities during the war.

Initial portion of the meeting was the outlining of Federal Housing Administration procedures and regulations. Regulations recently were liberalized, and now allow a more localized interpretation, FHA officials said.

Officials discussed at length the prcvisions of Section 608, which relates to two-, three- or four-family dwellings, and Section 608, which covers an eight - family apartment or larger project.

Emphasis, FHA indicated, will be on the larger projects, but "strong encouragement" will be

Governor's Office Expected to Keep Silent On Housing; 'Vets Have No Concrete Plan'

By PHILIP G. BRADY

SACRAMENTO.—Although the housing shortage is coming in for considerable discussion here, the Governor's office is not expected to advance any plan. Two measures are up for Legislative consideration. One is an act setting up a State Housing Authority (S.B. 109), and the other is a constitutional amendment calling for a $100 million bond issue to expedite low-rental housing (S.c.A. 3). Both measures are sponsored by Senators Gerald J. O'Gara (d., San Francisco), and Jack B. Tenney (r., Los Angeles).

Although Governor Warren scored the housing muddle as the state's "most critical problem" in his inaugural message, observers consider it highly significant that he called a special session, not for housing, but to legislate his highway program. A spokesman for the Governor told this Daily Pacific Builder last week that the state administration is not engaged in preparing any plan for solution of the housing shortage. He added that the Governor had received no concrete program from veterans and other groups clamoring for government aid.

Calling for a state housing authority, Senators O'Gara and Tenney claim "The housing shortage throughout California is causing illness, divorce, juvenile delinquency and demoralization and disintegration of family life in California."

Indicating that they expect private enterprise to shoulder a large share of the burden, the sponsors point out: "Private enterprise and capital in California are ready and willing to supply a major part of the low cost housing required in California but need the assistance of a state housing authority to coordinate a state-wide housing program, formulate a policy and render financial aid."

The state authority would be modelled along the lines of existing municipal bodies and would quested state aid. An appropriation of $200,000 is asked to set up the state agency which is visualized as a research agency and coordinator.

The constitutional amendment, on the other hand, would allow the state to go into low - rental housing on a $100 million scale and authorizes the legislature to approve additional city indebtedness for the same purpose up to two per cent of the total valuation of tax property.

An eminent domain proviso allows the state and cities to seize whatever property is desired, even though not immediately needed. Projects and redevelopments under this constitutional amendment may be granted tax exemption in whole or in part.

Among other bills filed, which directly affect the construction industry, are the following:

A.B. 127 allows money to be spent from State Highway Fund for installation and maintenance of street lighting facilities as well as traffic control devices.

A.B. 131 allows a split commission to be paid on sale of Education Board property when a higher oral bid is accepted over a written one. Fifty percent of the commission on the higher price would be paid each broker.

A.B. 136 increases real estate brokers fees: original $5 up to $10; exam fee $15 to $25; renewal $5

GROOVER AND I

QUIZ PROGRAMS

If there is a Senatorial vote today on continuation of the Mead (formerly Truman) Investigation Committee it will be almost a party-line vote; however, there may be two Republicans in the Democratic corral.

☆ ☆ ☆

There has been so much dirt swept under the edge of the rug during the past 12 years it is hard to predict just which feet of clay the dug-up shoes may fit.

☆ ☆ ☆

☆ ☆ ☆

Only a few of the places and names have been published. Among these are Hawaii, Canol, Latin American Highways, Rohl, Bilbo, 'Andy" May and the Garsson Bros. This is just a headline sampling.

☆ ☆ ☆

The Canol project is now written off. It has been sold to Canada as junk. This "greatest oil discovery a fifty years" did not produce as much oil as was used in its construction—and that was in the days when tanker space was worth more than gold.

☆ ☆ ☆

I have no doubts regarding my absolute honesty where $7.50, or even $250.00 is involved. But were it a matter of 3 million 750 thousand dollars, I would probably stay awake at night trying to figure some way of legally getting my fingers in the cash register.

☆ ☆ ☆

I would probably tell myself that the phrenzling was a just reward for my foresight and business ability. I might even make a noble gesture, giving back the last 50 thousand on renegotiation.

☆ ☆ ☆

Seems like I have said honesty is not absolute but relative — dependent upon the distance from the dollar sign to the decimal point.

#

Guaranteed Market Contract Revision

WASHINGTON — Details of a proposed new guaranteed market contract are being worked out by the Reconstruction Finance Corporation and Housing Expeditor Frank Creedon.

Revisions follow the lines of general decontrol trends. The three major changes contemplated are:

1. Deletion of provisions establishing a maximum selling price for "packaged" homes; but guaranteed market contracts still will be based in part on the principle that such housing will contribute primarily to lower cost housing needs;

2. With elimination of priorities and allocation assistant, obligations to meet production schedules are changed, providing failure to meet them are beyond the producer's control;

3. Prefab houses may be sold to holders of housing permits or to middlemen who agree to resell under conditions insuring ultimate sale to holders of such permits.

The proposed new contract retains provisions that RFC is obligated to purchase unsold units at 90 per cent of the manfacturer's lowest standard delivery price, or his actual cost, whichever is lower.

#

DESIGN VA HOSPITAL

HARRISBURG, Pa.—An architect-engineer contract for designing of the 200-bed proposed general medical and surgeon hospital has been awarded to Lawrie and Greene of Harrisburg, the Veterans Administration announced.

Purcell Flares at Charges of Western Oil & Gas Association on Highway Financing

SACRAMENTO.—Director of Public Works C. H. Purcell, who for fifteen years was state highway engineer of California before assuming his present post, charged today that the Western Gas and Oil Association is deliberately disseminating false statements concerning state highway revenues, which are designed to confuse the Legislature and befuddle the public. Purcell said:

"In his address to the special highway session of the Legislature, Governor Warren pointed out that the present three-cent gasoline tax brings in approximately $75 million a year and that of this amount $25 is distributed to the counties for road work and the equivalent of ½ cent, of $12 million, is used in cities to build and maintain major streets as well as state highways which go through them, leaving $37 million of the gasoline tax to the state.

Campaign Misleads

The Governor called attention to the fact that other revenues, including federal aid funds, motor vehicle fees, and taxes on diesel fuel, annually bring 20 million into the state highway fund; that during the coming fiscal year the highway fund will finance construction and reconstruction to the extent of $27 million, maintenance of our highways $12 million, right of way purchases $6 million, engineering and planning $2,600,000, administration $2.7 million, and other items aggregating $68 million.

"These figures are incontrovertible. The well-financed campaign of the Western Oil and Gas Association, directed by hired publicity agents, to create the impression that California requires no more funds for its state highway system is propaganda intended solely to mislead the public and the Legislature."

Purcell added: "There are statements being circulated and widely publicized through the press that there is no need for additional money for highways in this state over the amounts available from present sources of revenue. These statements are being made by certain oil interests.

"Such statements and publicity are an eleventh hour effort to confuse the people of California. They are an effort to defeat through confusion and misrepresentation of facts the efforts of Governor Earl Warren and the majority of the Collier Interim Committee members to provide the state with an efficient and safe system of highways, roads and streets.

Facts Apparent

"If the trend of thinking set forth in these statements and the procedures suggested in the minority report are accepted and enacted into law by the California Legislature, the metropolitan freeway systems so critically needed, particularly in the Los Angeles area, will not become a reality for many years to come; the Sacramento-San Francisco highway, U. S. 40, and the Los Angeles-Sacramento highway, U. S. 99, will still have many two-lane sections in operation several years from now.

"The same conditions will prevail on the other crowded two-lane highways — some 2500 miles — where most of the traffic accidents occur and where excessive operation costs are piled up. Many areas of the state will have to get along some way with the presently posted and narrow bridges, and many hundreds of miles of less than two-lane highways will be with us for a long, long time.

"Factual data concerning the highway system of the state, its actual physical condition, and the status of finances, have been furnished to the Interim Committee in complete detail by the many interested agencies whose business it is to know and to accurately compile such information. These data have been assembled into usable and comjrehensive reports by the committee staff. There is no longer any reason for confusion or misunderstanding concerning the facts of the highway, road and street problem in the state.

Technicalities Involved

"Material necessary for a high-

(Continued on Page 8)

Fred Early, Jr., Is Decorated by U. S., French Governments

The gratitude of two nations was expressed Tuesday to a San Francisco contractor for his contribution to the liberation of France by conceiving and supervising exceptional engineering projects from the assault beaches to the final break through.

As his family and friends watched, Fred J. Early, Jr., who operates his own firm here and in Los Angeles, was awarded the Legion of Merit from the United States and the Croix de Guerre with Gold Star from France for his meritorious work as construction and public works officer on the staff of the Commander, United States Ports and Bases, France.

These military honors come on top of Early's recent election as national director of the Associated General Contractors.

Andre Rousselet, French vice consul at San Francisco, extolled Early's feats enumerating each major project entirely from memory. He particularly commended Early's work in restoring the wrecked port of Le Havre as immeasurably aiding the Allied cause.

"America, your country, may well be proud of you," the French attache told the commander. "France, my country, has every reason to be thankful to you. Your work was of momentous importance in the liberation of France."

Rear Adm. Donald B. Beary, Twelfth Naval District commandant, presented the Legion of Merit to Early, remarking that it was unusual for a man to receive such high honors simultaneously from two countries. The ceremonies took place in the Commandant's office.

Watching the commander being decorated were his wife, two daughters, Elizabeth and Patricia, his secretary, Esther Pearson, Howard Watkins, C. E. Anderson, Carl Young and William E. Hague, secretary-manager of the Contrail chapter, AGC.

The citation accompanying the Legion of Merit stated, in part: 'For exceptionally meritorious conduct in the performance of outstanding services . . . In charge of the establishment and maintenance of advanced bases, Commander Early directed the construction work on the original assault beaches and the rehabilitation of ports, coordinated the work of all construction battalion personnel in Northwestern France. . . . Designing and constructing the floating piers at Le Havre, he contributed materially to shipping capacity and aided in the rapid establishment of these bases and in their support of the American Forces in the field.

"His professional skill, leadership and devotion to duty were in keeping with the highest traditions of the United States Naval Service."

#

'KEEP RENT CONTROLS'

WASHINGTON.—Senator Robert Taft (r., Ohio) said he favors continuation of rent control beyond the June 30 expiration date "with some adjustments". He also told the United States Conference of Mayors that public housing should be limited to one-tenth of the total housing constructed in the housing and asserted that low income groups would be unable to get proper shelter unless the government subsidized a public housing program.

First units to be built will be the sanctuary, pastor's study, choir room, social hall and kitchen.

20-21—SOCIAL & RECREATIONAL BLDGS.

1/22/47 • 20
Preliminary Plans in Progress
Recreation Project
OAKLAND, Calif., Alameda County, Mosswood Park.
Owner—City of Oakland, John Hassler, city manager, City Hall, Oakland, Calif.
Architects—Malcolm D. Reynolds and Loy Chamberlain, 3833 Piedmont Ave., Oakland, Calif.
Wood and masonry, one-story clubhouse to include clubroom with 150 seating capacity, toilet facilities for park, wardrobe room facilities for city recreation department and concession areas.

22-26—RESIDENTIAL BUILDINGS

1/21/47 • 26
Board of Supervisors Approved Recommendation That Governor Make More Money Available Under the Maloney Bill
Veterans' Dwelling Units (2000)
Estimated Cost $7,500,000
SAN FRANCISCO, Calif.
Owner—City and County of San Francisco, Roger Lapham, mayor, City Hall, San Francisco, Calif.
The Maloney Bill permits the state to finance 90 per cent of the cost.

1/21/47 • 26
Board of Supervisors Approved Resolution to Negotiate $672,000 Contract With the State
Veterans' Dwelling Units (2000)
Cost $672,000
SAN FRANCISCO, Calif.
Owner—City and County of San Francisco, Roger Lapham, mayor, City Hall, and the San Francisco Housing Authority, 525 Market St., San Francisco, Calif.
Frame.

1/22/47 • 24
Working Drawings in Progress
Residence Cost $17,000
OAKLAND, Calif., Alameda County.
Owner—Withheld.
Architect—Thomas & Evans, 1308 E. 38th St. at Park Blvd., Oakland, Calif.
Frame, one-story, six rooms.

1/22/47 • 23
Plans Completed—Project Held in Abeyance Pending More Favorable Building Conditions
Apartment Building Cost $20,000
SAN BRUNO, Calif., San Mateo Co. Lot 12, Block N.
Owner—Robert Clark, c/o Mr. Merryman.
Plans by William B. Merryman, 614 San Mateo Ave., San Bruno, Calif.
Concrete block, two-story, includes four apartments on second floor, one and one-half rooms each, and coffee shop on first floor.

1/22/47 • 24
Low and Only Bidders
Residence
SACRAMENTO, Calif., Sacramento County, Sierra Oaks Tract.
Owner—Lawrence Gold, c/o architect.
Architect—Barovetto & Thomas, 620½ I St., Sacramento, Calif.
Frame and stucco, six rooms.
Low Bidder—Lawrence Construction Co., 3020 V St., Sacramento, Calif., $25,929.
A. L. Miller, Sacramento, Calif., at $26,650, submitted only other bid January 20.

1/22/47 • 24
Owner Taking Bids From Selected List of Contractors
Residence Cost $10,000
SAN BRUNO, Calif., San Mateo Co. Lot 25 and portion of Lot 26, Block M at Huntington Park.
Owners—Mr. and Mrs. Raymond Budke, c/o Mr. Merryman.
Plans by William B. Merryman, 614 San Mateo Ave., San Bruno, Calif.
Frame and stucco, one-story, includes five rooms.

1/22/47 • 26
Contemplated—Mayor's Housing Committee to Submit Proposal to City Council on or About Feb. 3
Temporary Housing Units
Estimated Cost $12,000 Unit
SAN JOSE, Calif., Santa Clara Co. Site not determined.
Sponsors—Gifford E. Sobey, architect, 69 S. 1st St., San Jose, and Cliff Swensen, members of mayor's housing committee.
Temporary units of six apartments each, five units to be grouped about a central laundry and clothes dry-yard. Project to be erected with private capital on city-owned land and liquidated within five years.

1/22/47 • 24
Plans Completed—Work To Be Done By Day Labor
Residence
WARM SPRINGS, Calif., Alameda County.
Owner—Fred Weibel, Warm Springs.
Architect—Chas. E. Butner, 985 The Alameda, San Jose, Calif.
Wood frame and stucco, tile roof, warm air (oil fired) heating. Plans call for an eventual 8 rooms and swimming pool.
Contractor—Day Labor.

1/22/47 • 23
Preliminary Plans in Progress
Apartment Approx. Cost, $96,000
AUBURN, Calif., Placer County.
Owner—J. C. Mackay, Auburn, Cal.
Architect—Chas. E. Butner, 985 The Alameda, San Jose, Calif.
Reinforced concrete exterior walls, two stories, 12 units (48 rooms).

1/22/47 • 24
Working Drawings Nearing Completion—Architect To Ask Bids Soon
Residence Cost, $10,000
SAN FRANCISCO, Calif. On Pacific St. between Powell and Mason Sts.
Owner—Mr. and Mrs. Yep, c/o architect.
Architect — Francis Lai Chinn, 622 Washington Street, San Francisco.
Frame and stucco, 1-story and basement, includes garage.

1/22/47 • 26
Contemplated—Mayor's Housing Committee to Submit Proposal to City Council on or About Feb. 3
Apartment Buildings (76)
Cost $2,500,000
SAN JOSE, Calif., Santa Clara Co. Site not acquired.
Owner—The San Jose War Memorial Foundation (non - profit corporation), c/o Attorney Vincent Bruno, chairman sub-committee for long-range planning on mayor's housing committee, Rooms 205-207, Commercial Bldg., San Jose, Calif.
Architect—Not selected.
Permanent apartment buildings to contain four apartments each; project to be financed by mortgages to be liquidated in 30 years, and land, project and improvements deeded back to the city.

31-32—WATER SUPPLY & SEWAGE DISPOSAL PLANTS

1/22/47 32
Preliminary Plans in Progress—FWA Funds Allotted in Amount of $15,000
Sewage Disposal Plant Cost $302,500
SAN MATEO COUNTY, Calif.
Owners—City of South San Francisco, Mayor Leo Ferko, City Hall, South San Francisco, and City of San Bruno, Mayor Jos. J. Hearne, City Hall, San Bruno, Calif.
Engineer—The Estes Engineering Co., 814 El Camino Real, Lomita Park, Calif.
Sewage treatment plant to serve a population of 50,000.
FWA advance planning funds have been allotted to assist in the preparation of plans, according to an announcement made by Wright L. Feit, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, 630 Sansome St., San Francisco 11, Calif.

1/22/47 32
Engineering Report Submitted to Owner—Three County Officials Appointed to Study Sewage Problem
Sewage Disposal Sys. Cost, $422,500
SACRAMENTO COUNTY, Cal. From Auburn Blvd south to El Camino Ave. and from Del Paso Country Club west to American River.
Owner—County Sanitation Dist. No. 2, c/o E. A. Fairbairn, county engineer; C. W. Deterding, county executive, and Supervisor Clarence Champlin, Court House, Sacramento, Calif.
Consulting Sanitary Engr.—Harry N. Jenks, 345 Madrono Avenue, Palo Alto, Calif.
Construction of main and trunk sewers and sewage pumping plant and force main for discharge of material into Sacramento sewer system.

1/22/47 32
Public Hearing on Proposal to Form Sanitation District Set for Feb. 24, 2 P. M.
Sewage Disposal System
EAST MODESTO, Calif., Stanislaus County. Beard Industrial tract and land north running to Beard Creek (Dry Creek) and extending south to Tuolumne River.
Owner — East Modesto Sanitation District (yet to be formed), c/o Stanislaus County Board of Supervisors, George Macomber, county surveyor; C. E. Eastin, county clerk, Courthouse, Modesto, Calif.

33— BRIDGES

1/21/47 • 33
Owner Taking Bids—Due Feb. 20, 2 P. M. in Los Angeles
Undercrossing
LOS ANGELES, Calif., Los Angeles County, Santa Ana Parkway at Soto St.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Reinforced concrete box girder undercrossing.
Bids will be opened in the State Bldg., Los Angeles, Calif.

1/22/47 33
Owner Taking Bids—Due Feb. 20, 2 P. M.
Undercrossing
LOS ANGELES, Calif., Los Angeles County, Santa Ana Parkway at Soto St.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Reinforced concrete box girder undercrossing.
Bids will be opened in the State Bldg., Los Angeles, Calif.
(1) 20 cu. yds. remove concrete;
(2) 1600 cu. yds. roadway excavation;
(3) 1050 cu. yds. structure excavation;
(4) 600 cu. yds. structure backfill;
(5) 1050 cu. yds. untreated rock base;
(6) 151 tons asphaltic concrete pavement;
(7) 434 cu. yds. class B portland cement concrete pavement and base;
(8) 200 each pave tie bolt assemblies;
(9) 1834 cu. yds. class A portland cement concrete structures;
(10) 170 lin. ft. rubber water-stops;
(11) 4500 lbs. miscellaneous iron and steel;
(12) 6040 lin. ft. furnish steel piling;
(13) 189 each drive piles;
(14) 19 each steel pile splices;
(15) 190 sq. yds. membrane waterproofing;
(16) 97 cu. yds. portland cement concrete sidewalks, curbs and gutters;
(17) 485,200 lbs. furnish bar reinforcing steel;
(18) 485,200 lbs. place bar reinforcing steel;
(19) 308 lin. ft. steel railing;
(20) electrical equipment;
(21) engineer's office.
Specifications obtainable from the office of state highway engineer, Public Works Bldg., Sacramento, Calif.

1/21/47 • 33
Owner Taking Bids—Due Feb. 19, 2 P. M.
Bridge
SACRAMENTO COUNTY, California, across Arcade Creek on Madison Ave., about 10 miles northeast of Sacramento.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Reinforced concrete slab bridge.
The work involves:
(1) remove existing bridge;
(2) 50 cu. yds. structure excavation;
(3) 550 cu. yds. channel excavation;
(4) 225 cu. yds. class A portland cement concrete;
(5) 160 lin. ft. concrete railing;
(6) 730 lin. ft. furnish steel piling;
(7) 24 each driving steel piles;
(8) 3 each steel pile splices;
(9) 38,000 lbs. furnish bar reinforcing steel;
(10) 38,000 lbs. place bar reinforcing steel;
(11) miscellaneous items of work.
Specifications obtainable from the above office.

1/22/47 33
Owner Taking Bids—Due Feb. 3, 2 P. M.
Bridge Superstructure
EMERY and GRAND COUNTIES, Utah. U. S. 50 east of Green River, Utah.
Owner—Utah State Road Commission, Ray H. Leavitt, chairman, State Capitol, Salt Lake City, Utah.
Plans by engineering department of owner.
0.114 mile concrete and steel bridge (superstructure), involving (1) 442 cu. yds. concrete class A (cement furnished by state), (2) 116,800 lbs. reinforcing steel and (3) 604,112 lbs. structural stee l(erection only).
Specifications obtainable from the above office upon deposit of $2, refundable.

1/22/47 33
Owner Taking Bids—Due Feb. 1, 11 A. M.
Bridge Extension
HUMBOLDT COUNTY, Calif. Over Jacoby Creek.
Owner—County of Humboldt, Fred J. Moore Jr., clerk, Courthouse, Eureka, Calif.
County Surveyor—Frank E. Kelly, Courthouse, Eureka, Calif.
New extension to reinforced concrete bridge.
Specifications obtainable from the office of the county surveyor.

1/22/47 • 33
Low and Only Bidders
Bridge Cost $33,335
SISKIYOU COUNTY, Calif. Project Calif. FH-93-B, Salmon River, Klamath National Forest.
Owner—Public Roads Administration, C. C. Morris, division engineer, 720 Phelan Bldg., San Francisco, Calif.
Plans by engineering department of owner.
Approx. 0.074 mile Salmon River and Nordheimer Creek bridges.
Low Bidder—Reed & Tuttle, Redwood Valley, Mendocino Co., Calif., $33,-335.
The work involves:
(1) extra and miscellaneous force account;
(2) lump sum, remove and dispose of existing timber;
(3) 175 cu. yds. unclassified excavation for structures;
(4) 217 cu. yds. concrete, class A;
(5) 11 cu. yds. concrete class YY (lightweight);
(6) 32,500 lbs. reinforcing steel;
(7) lump sum, structural steel erected (government-furnished steel);
(8) lump sum, concrete filled steel grid bridge floors (government-furnished steel);
(9) lump sum, clean and paint existing structural steel.
Total bids submitted January 21 were:
(A) Reed & Tuttle, Redwood Valley, $33,335.
(B) S. C. Giles & Co., Stockton, $51,-700.

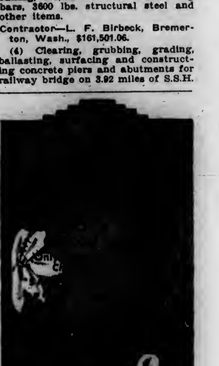
1/21/47 • 34
Low and Only Bidders
Clark Hill Dam; Inv. 47-35 Cost $17,424,016
SAVANNAH RIVER, Georgia and South Carolina. Savannah River Basin.
Owner—U. S. District Engineer Office, Augusta, Ga.
Plans by engineering department of owner.
Dam and appurtenances, excluding the diversion channel and certain parts of the west embankment.
Low Bidder—Morrison-Knudsen, Inc., Utah Construction Co. and Peter Kiewit Sons Co. and Associates, $17,424,016.
Other bids January 17 were:
Pennsalt Construction Co. (J. A. Jones & Associates), Charlotte, N. C., $17,817,633.
Granna Higgins, Thompson & Street Co., Charlotte, N. C., $18,758,-012.
Savannah River Constructors, Inc. (L. E. Dixon and Arundel Corp), $19,-237,989.
Engineer's estimate, $12,835,036.

38— ELECTRIC LIGHTING TRANSMISSION LINES

1/21/47 • 38
Owner Taking Bids—Due Jan. 30, 10 A. M. (Time Extended From Jan. 20)
Transmission Lines; Spec. 1603
COLORADO BIG THOMPSON Proj. Colo. Near Brush and Holyoke, Colo.
Owner—U. S. Bureau of Reclamation, Walker R. Young, Chief Engr., Denver, Colo.
Plans by engineering department of owner.
Brush-Sterling 115-kilovolt and Sterling - Holyoke 69-kilovolt transmission lines.
Work includes:
(a) Brush-Sterling line. — The transmission line to be cnostructed under Schedule No. 1, 2 or 3 of these specifications will be a 115-kilovolt, 3-phase, single-circuit, 60-cycle, wood-pole H-frame-type transmission line approximately 37 miles long. This transmission line will be connected to an existing transmission line at a point approximately 1 mile north of the Brush substation near Brush, Colorado, and will extend to the proposed Sterling substation near Sterling, Colorado. The conductors of this transmission line will be either No. 4/0 Awg. aluminum cable, steel-reinforced; 133,100-circular mil copper expanded conductor; or 2/0 Awg. copper equivalent copperweld-copper conductor. Two overhead ground wires will be installed for approximately one-half mile from the proposed Sterling substation, and all the structures will be constructed so that two overhead ground wires may be installed in the future. One disconnecting switch will be installed in this line near the point where the line is connected to the existing transmission line.
(b) Sterling-Holyoke line. — The transmission line to be constructed under Schedule No. 4, 5, or 6 of these specifications will be a 69-kilovolt, 3-phase, single-circuit, 60-cycle, wood-pole, H-frame-type transmission line approximately 48 miles long. This transmission line will extend from the proposed Sterling substation near Sterling, Colorado, to the proposed Holyoke substation near Holyoke, Colorado. The conductors for this transmission line will be either No. 3/0 Awg. aluminum cable, steel-reinforced; No. 1/0 Awg. stranded-copper conductor; or 1/0 Awg. copper equivalent copperweld-copped conductor, except that for approximately 3.700 feet from the proposed Sterling substation, where the line closely parallels the proposed 115-kv Brush-Sterling transmission line, the conductors will be identical with those of the Brush-Sterling line. Two overhead ground wires will be installed for approximately one-half mile at each end of this transmission line. One disconnecting switch will be installed in the line near Dailey, Colorado.
Both transmission lines are designed for heavy loading conditions of one-half inch of ice and a wind pressure of 8 pounds per square foot at 0° F. Each pole of each structure will be provided with a ground wire. There will be one transposition barrel in each line. Unless otherwise specified, all construction and clearances of the transmission lines to be constructed under these specifications shall conform to the fifth edition of the National Electrical Safety Code issued by the U. S. Bureau of Standards.
Specifications obtainable from the above office; no charge to prospective bidders; to others $2.25 not refundable.

39—SEWERS

1/21/47 • 33
Owner Taking Bids—Due Feb. 19, 2 P. M.
Bridge
GLENN COUNTY, Calif. Across East Branch Razor Slough and across Sacramento River near Butte City.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Bridge and portions of a bridge and about 0.6 mile grading approaches and applying bituminous surface treatment.
The work inovives:
(1) 2,000 cu. yds. remove concrete;
(2) clearing and grubbing;
(3) 950 cu. yds. roadway excavation;
(4) 610 cu. yds. structure excavation;
(5) 25,500 cu. yds. imported borrow;
(6) develop water supply and furnish water equipment;
(7) 620 M gallons apply water;
(8) 31 sta. finish roadway;
(9) 6400 cu. yds. gravel base;
(10) 83 tons screenings seal coat;
(11) 7 tons asphaltic emulsion seal coat;
(12) 8600 sq. yds. prepare, mix and shape surface bituminous surface treatment;
(13) 65 tons liquid asphalt SC-3, SC-4 SC-5 bituminous surface treatment;
(14) 168 M ft. b.m. treated Douglas fir timber;
(15) 2033 cu. yds. class A portland cement concrete structure;
(16) 20,930 lin. ft. furnish treated Douglas fir piling;
(17) 320 each drive timber piles;
(18) 4668 lin. ft. furnish concrete piling;
(19) 116 each drive concrete piles;
(20) 11,818 lin. ft. furnish steel piling;
(21) 160 each drive steel piles;
(22) 80 each steel pile splices;
(23) 328,150 lbs. furnish bar reinforcing steel;
(24) 328,150 lbs. place bar reinforcing steel;
(25) 37,000 lbs. miscellaneous iron and steel;
(26) 100 cu. yds. sacked concrete riprap;
(27) 25 each monuments;
(28) 600 lin. ft. metal plate guard railing;
(29) 4 each culvert markers;
(30) 0.06 mile new property fences;
(31) 87 lin. ft. 18-in. reinforced concrete pipe, standard strength;
(32) 54 lin. ft. 24-in. reinforced concrete pipe, standard strength;
(33) 57 lin. ft. 30-in. reinforced concrete pipe, standard strength;
(34) 18 lin. ft. 8-in. CMP downdrains, 16-gage;
(35) 3 each spillway assemblies;
(36) engineer's office.
Specifications obtainable from the above office.



1/22/47 39
Owner Taking Bids—Due Feb. 1, 11 A. M.
Culvert and Earth Fill
HUMBOLDT COUNTY, Calif. Elk River Rd.
Owner—County of Humboldt, Fred J. Moore Jr., county clerk, Courthouse, Eureka, Calif.
County Surveyor—Frank E. Kelly, Courthouse, Eureka, Calif.
Concrete culvert and earth fill.
Specifications obtainable from the above office of the county surveyor.

Street Improvement
OAKLAND, Calif., Alameda County. Carson St. between Reinhardt and Mountain Blvd.
Owner—City of Oakland, Charles M. Don, city clerk, City Hall, Oakland, Calif.
City Engineer—Walter N. Frickstad, 7th floor, City Hall, Oakland, Calif.
The work involves:
(1) 1334 cu. yds. excavation;
(2) 6318 cu. yds. imported fill;
(3) 473 cu. yds. selected material, top surface;
(4) 95 lin. ft. 42-in. standard strength reinforced concrete pipe conduit;
(5) 131 lin. ft. 15-in. plain concrete pipe conduit;
(6) 38 lin. ft. 12-in. plain concrete pipe conduit;
(7) 72 lin. ft. 10-in. plain concrete pipe conduit with concrete cover
(8) 1 manhole with steel top;
(9) 1 manhole with inlet top, 34-in. opening;
(10) 2 storm water inlets with 34-in. opening;
(11) 1 concrete headwall.
Specifications obtainable from the office of the city engineer upon deposit of $5, returnable.

1/17/47 40
Contracts Awarded
Grading, Surfacing, Bridges
WASHINGTON.
Owner—State of Washington, Clarence B. Shain, director of Highways, Olympia, Wash.
Plans by engineering department of owner.
Projects include:
(1) Clearing, grubbing, grading, ballasting and surfacing on 0.616 mile of P.S.H. No. 6, Jared to Bluestlide at Granite Point in Pend Oreille County, a state project, involving lump sum clearing and grubbing, 8740 cu. yds. of common excavation, 23,240 cu. yds. of solid rock excavation, 2120 cu. yds. of selected roadway borrow, 1760 cu. yds. screened gravel surfacing, 87 lin. ft. of culvert pipe and other items.
Contractor—Carbon Bros., Spokane, Wash., $409,880.46.
(2) Widening existing roadway by clearing, grubbing, grading and surfacing on 5.598 miles of P.S.H. No. 7, Ellensburg to junction S.S.H. No. 7-B in Kittitas County, F.A.P. No. FI-148 (10), involving lump sum clearing and grubbing, about 102,210 cu. yds. unclassified excavation, 6300 cu. yds. crushed stone surfacing, 20,700 cu. yds. ballast, 158 cu. yds. concrete, 17,880 lbs. steel reinforcing bars, 3527 lin. ft. culvert pipe and other items.
Contractor—Harrison Bros. Co., 225 Wakefield Dr., Tacoma, Wash., $146,807.80.
(3) Clearing, grubbing, grading, ballasting, surfacing, constructing light bituminous surface treatment and constructing reinforced concrete bridge on 6.5 miles of P.S.H. No. 9, Kosmiptlye South, in Grays Harbor County, F.A.P. No. F-43 (5), involving about 3 acres clearing, 3 acres grubbing, 7375 cu. yds. unclassified excavation, 37,350 cu. yds. ballast, 19,615 cu. yds. crushed stone surfacing on roadway, 1900 cu. yds. crushed cover stone in stockpiles, 1540 cu. yds. mineral aggregate in stockpiles, 209 tons bituminous cement (MC-2), 79 lin. ft. culvert pipe, 445 cu. yds. concrete, 320 lin. ft. reinforced concrete bridge railing, 102,000 lbs. steel reinforcing bars, 3500 lbs. structural steel and other items.
Contractor—L. F. Birbeck, Bremerton, Wash., $161,501.06.
(4) Clearing, grubbing, grading, ballasting, surfacing and constructing concrete piers and abutments for railway bridge on 3.92 miles of S.S.H.

Street improvement
SACRAMENTO, Calif., Sacramento County, 32nd St. from P St. to Stockton Blvd.
Owner—City of Sacramento, H. G. Denton, city clerk, City Hall, Sacramento, Calif.
City Engineer—Fred Klaus, City Hall,

Rental Stimulus
(Continued from Page 1)

given to development and construction of a large number of the smaller rental buildings, also.
Under Section 603, large projects under single sponsorship may be handled by suitably grouping separate real estate parcels in groups of two or three or four individual mortgagable entities.
Carroll Waite, executive assistant of FHA, said that the provisions of Section 603 will be particularly suited to the financing and construction of rental properties in smaller communities, and by small firms.
He added: "In those instances where present mortage ceilings under Section 603 appear somewhat restrictive in relation to current costs to accommodate such rental projects, the facilities of Section 608 provide an affective complement to the provisions of 603 in financing all types of rental projects.
"If sponsors are primarily interested in the subsequent sale of completed rental projects, suitable release clause provisions may be worked out to accommodate individual circumstances.
A general streamlining of procedure from the planning stage on in was announced under Section 608 procedures by J. Byron Barton, staff chief underwriter. "Minimum Property Requirements for Three or More Living Units" will be used only as a guide and alternate plans and materials may be accepted by staff underwriters.
Existing structures may be reconstructed into additional rental units and financed under a 608 mortgage.
An average rent of $80 per unit is allowed. The initial principal payment has been reduced from 2 per cent to 1½ per cent of the original face amount of the mortgage. Mortgages may be increased.
Regional Expediter Preston Wright said action has been taken to expedite requests by the Department of Labor for prevailing wage determinations. There are provisions for adjustment of mortgage terms where necessary to assure a competitive market position for rental construction.
Other speakers were Joe Montelone, representing the American Legion, and a National Housing Authority representative, who spoke on the status of production of various building materials.
The meeting then was thrown into an open panel discussion, with McGinness presiding.

(Continued from Page 1)

way construction program of any size to a very large extent are produced within the state. California contractors are capable and amply equipped to carry on the work. . . . it nos necessary to look elsewhere for competent personnel. Any contention that California cannot carry out a proper highway construction program with its own forces is short sighted indeed.

"California is confronted with a complicated and perplexing highway problem—a problem that is difficult of solution. The difficulty lies largely in financing a construction program that should have started before the war. The engineering problems are difficult in detail but have been to a major degree solved once the financing program is established, and can quickly be adjusted to any adopted program. The financing problem must be solved by legislative processes, and it is now before the Legislature.

'No Small Plans'

"In setting up the solution of this highway transportation problem in terms of laws and future programs, it is vitally important that no small plans be made. California is a great state. It has all the attributes which will under capable management in time to come make it a greater state. It is expedient at this sage of is progress ha we do not sell it short."

Daily Pacific Builder

LARGEST CONSTRUCTION DAILY IN THE WEST

Vol. 57—No. 16. SAN FRANCISCO, THURSDAY, JANUARY 23, 1947

Copyright 1946 by F. W. Dodge Corporation

PLANS and Speculations

The architects of the central coast counties are forming a group to be separately identified from the Northern California section of the American Institute of Architects. Counties to be included are **Monterey, Santa Clara, San Benito and Santa Cruz.** Second meeting of the group will be held January 28, in San Francisco.

oOo

County officials have assured the City of Hayward that taxes on the $2 million airport there proffered by the government "will be reasonable" and that city has accepted the field "without cash payment." Final WAA approval is pending.

oOo

Supervisor Marvin E. Lewis, who represented the city of San Francisco at the army-navy board hearings on the new bridge site, has been named to represent the city before coming congressional hearings.

oOo

State civil service exams will be given March 11 for a flood control construction superintendent ($365-$445). High school education and five years' experience (three as supervisor) are required.

oOo

Roy L. May, well known Hanford consulting engineer, died recently. Funeral services were held Wednesday at Hanford. Surviving are his widow, Belle; a son, Robert, Hanford; and a daughter, Gladys, Sacramento.

oOo

Sixteen of twenty family units at **Eureka** may be completed, Langdon Post, regional director of the FPHA, announced recently. State funds may be asked for completion of the remaining four units.

oOo

Development of the 14th agricultural district fairgrounds on Hecker Pass highway near **Watsonville** will take approximately 5 or 6 years, it was revealed recently. First improvement (now underway) is erection of a steel fence around livestock exhibits.

Seek FPC Authority For Hydroelectric Feather River Jobs

WASHINGTON. — The federal power commission has received an application from the Pacific Gas and Electric Company of San Francisco, for a license to construct two hydroelectric projects on the North Fork of the Feather River in Butte and Plumas Counties, Calif.

Projects would be known as the Rock Creek and the Cresta Projects and are part of a scheme of development planned to utilize the power potential of the head of the North Fork of the Feather between Lake Almanor and the intake to the Big Bend Plant.

The Rock Creek Project would include a concrete diversion dam across the North Fork, a powerhouse with two 73,500-hp. turbines each connected to a 63,000-KVA generator, a substation, a switchyard, two transmission lines about 500 feet leng, water conduits and appurtenant equipment The dam would be about 115 feet high and 500 feet long. Maximum elevation of the dam will be 2212 feet with normal operating water surface level at elevation 2205 feet. The reservoir formed by the dam would extend upstream about two miles to near the junction of Yellow Creek with the North Fork.

Plans for Cresta Project include a diversion dam on the North Fork below the Rock Creek Dam, water conduits, powerhouse equipped with two 46,500-HP turbines each connected with a 37,500-KVA generator, substation, switchyard and transmission lines. The dam would be about 113 feet high and about 360 feet long. Maximum elevation of the dam will be 1680 feet with normal operating water surface level at elevation 1670 feet.

Construction is proposed to begin in June 1947 on the Cresta Project, and in June 1948 on the Rock Creek Project.

CHAMBER BACKS SIX CENT GAS TAX HIKE

Harry A. Mitchell, first vice president of the State Chamber of Commerce, pledged full support of the State Chamber to Governor Earl Warren's recommendations to the special highway session of the Legislature.

Crittendon Housing Bill Provides State Operation From Materials Thru Selling

By PHILIP G. BRADY

SACRAMENTO.—Senator Bradford S. Crittendon (r., Stockton), Monday introduced a bill into the Legislature to put the State of California into the house-building business.

The project would require a $25 million emergency appropriation. The legislation would authorize Governor Earl Warren to take prompt action to obtain necessary materials and start new construction.

Under this bill, the governor could: (1) Acquire or build sawmills and other plants to make construction materials available at once. Timber would come from state-owned forests; (2) acquire sites and build homes of the same value as permitted by the veterans farm and home purchase act of 1943; (3) sell to veterans and others under terms of the same act; (4) acquire sites and build apartment houses sufficient to meet the housing needs of Californians.

The governor is given vast powers under the act. He is authorized to acquire and maintain offices, real estate, cooperate and contract with public and private agencies for services and facilities and "do such other acts . . . incidental to the discharge of duties imposed" upon him by the act.

*A.B. 265 Full text: "A parent shall be liable for damages to personal property, real property and appurtenances thereto resulting from the negligent, wilful and malicious acts of his child." Another anti-sabotage bill.

A. B. 274 allows any injured employee to institute proceedings for compensation within 245 weeks of date of injury if it has resulted in permanent injury or disability.

*A.B. 290 provides that employers are responsible for all medical, surgical and hospital expenses under workmen's compensation and abolishes employer's right to choose physician.

A.B. 292 establishes 40 - hour work week for state employees and provides for overtime compensation.

*A.B. 295 removes ceilings of $10,000 for homes and $15,000 for farms purchased by veterans under state subsidy but continues to limit state aid to $7500 and $13,500 respectively.

A. B. 300 provides that the low interest rate charged on veterans farm and home purchases shall not pass to assignee. Fixes five per cent interest for latter.

*A.B. 309 allows Industrial Accident Commission to add employee's legal fees to any award granted in compensation cases.

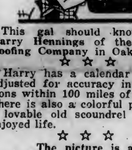
*A.B. 329 appropriates $120,000 to "provide a more adequate access to the Humboldt State Col-

(Continued on Page 8)

GROOVER AND I PICTURES

"Evening", by Maxfield Parrish is the title of a Christmas Memento from F. S. Cook of the Robert W. Hunt Company.

☆ ☆ ☆



The picture holds nostalgic memories for any country boy. It's all there, including the spring house where Aunt Effie kept her milk and butter.

☆ ☆ ☆

Cook: Speaking of pictures, I have a question regarding that Parrish original which many of us have viewed from a 3-point stance (one foot and two elbows). Why was that guy called the Pied Piper? He pulled the most successful mass snatch in history. I'd say he was cold sober!

☆ ☆ ☆

Another picture:

This gal should know about Harry Hennings of the General Roofing Company in Oakland.

☆ ☆ ☆

Harry has a calendar which is adjusted for accuracy in all locations within 100 miles of Oakland. There is also a colorful picture of a lovable old scoundrel who has enjoyed life.

☆ ☆ ☆

The picture is about the size to patch the hole in the roof—unless the gal has a better idea.

#

'Power Increase Is Needed in Pacific Northwest Area'

WASHINGTON. — The power supply of the Pacific Northwest must be augmented if it is not to hamper continuing development and well-being in that region, Administrator Paul J. Raver stated this week in a report to Secretary of the Interior J. A. Krug.

He said: "The general regional power shortage can be met in time only by construction of more dams in the multiple-purpose Columbia River Basin developmental program, and of additional transmission lines.

"Accelerated installation of additional generators," he continued, "at Grand Coulee and wherever else feasible, can help meet the immediate needs."

He pointed out that many projects will eventually be required for the development of Columbia River potentialities and of Pacific Northwest resources, and listed seven developments, all of which he said should be started during the next few years because their power output "is essential to meet the growing Pacific Northwest loads."

All of the projects have been authorized by congress except the Dalles Dam. They are:

McNary Dam at Umatilla Rapids on the Columbia River, Foster Creek Dam below Grand Coulee on the Columbia, Detroit Dam on Santiam River in the Wilamette Valley of Oregon, six dams on the lower Snake River between Idaho and Pasco, Wash., the Dalles Dam on the Columbia, Hungry Horse Dam in Montana, and further generation at Grand Coulee.

$129 Million Allocated to Modernization of Bayshore Highway in Collier Committee List

SACRAMENTO.—**The Collier Committee today announced that its ten-year superhighway program would require $1,458,924,000 to cover "critical deficiences" on state highways only for construction and modernization. No figures have been presented on state aid on county roads and city streets under the 1946-56 program.**

Construction of proposed San Francisco expressways and major city streets improvements would require $68,040,000; and acquisition

Los Angeles' share would be $261,992,000.

Among those who will participate are James C. Downs, Jr., economic consultant to the National Association of Real Estate Boards; Wilson Wright, chairman of the Producers' Council construction and economic committee; and Thos. C. Holden, president of the F. W. Dodge Corporation.

#

COMMUNITY ACTION TO UPHOLD VHP-1

WASHINGTON. — Frank R. Creedon, housing expediter, today said that the importance of community action as a weapon against unauthorized construction has increased under the new veterans emergency housing program.

"The use of a simple permit system instead of the priorities system for future authorizations and relaxing certain other building controls have not affected the most important governmental building regulation (VHP-1), the construction limitation order," he pointed out.

He stated: "The continuation of this order is indispensable to getting a large volume of housing underway this year."

#

1946 WORST YEAR IN RECENT FIRE HISTORY

WASHINGTON. — Major General Philip B. Fleming, general chairman of the President's Conference on Fire Prevention, today named W. E. Reynolds, commissioner of the public buildings administrator, Federal Works Agency to be chairman of the coordinating committee which will draft the agenda.

General Fleming expressed confidence that concerted effort will drastically reduce fire during the last decade which have resulted in an average of 10,000 deaths a year. The conference will be held next spring.

He said that 1946 was the most destructive year in recent history, with a property loss of $561,467,000. December's toll was the heaviest fire loss for any single month in the last 16 years.

#

PACIFIC STATES TAKE 195,241 HH PRIORITIES

WASHINGTON.—The final tabulation of HH priorities on new permanent houses and apartments under the veterans emergency housing program showed that 927,621 units were authorized between January 15 and December 23, 1946.

Of the total authorizations, 23.8 per cent were rental units and 82.5 per cent were sales units, although some were reported both as rentals and sales and therefore appeared in both classifications.

One-third of all rentals, NHA reported, rented under $50; and a third of total sales authorizations was for homes to sell for less than $6,500.

Pacific Coast states led all other regions with a total of 195,241 units.

#

SPLIT PARTNERSHIP

Eric Mendelsohn, John Ekin Dinwiddie and Albert Henry Hill are no longer practicing architecture as partners.

Eric Mendelsohn, A.I.A., has opened offices at 627 Commercial St.

John Ekin Dinwiddie, A.I.A., will continue his practice at 233 Sansome Street.

Albert Henry Hill will be associated with Architect Mendelsohn at 627 Commercial.

Capitol Conference Seeks Better Housing Statistics, Methods

WASHINGTON. — Housing Administrator Raymond M. Foley has called a conference on housing statistics here, January 27-28. Recognized authorities of government and private industry have been invited to participate.

Foley said the conference would seek better compilation of statistics.

"The inadequacy of information now available is recognized by government and private industry alike," the administrator said.

Among those who will participate are James C. Downs, Jr., economic consultant to the National Association of Real Estate Boards; Wilson Wright, chairman of the Producers' Council construction and economic committee; and Thos. C. Holden, president of the F. W. Dodge Corporation.

#

COMMUNITY ACTION TO UPHOLD VHP-1

WASHINGTON. — Frank R. Creedon, housing expediter, today said that the importance of community action as a weapon against unauthorized construction has increased under the new veterans emergency housing program.

"The use of a simple permit system instead of the priorities system for future authorizations and relaxing certain other building controls have not affected the most important governmental building regulation (VHP-1), the construction limitation order," he pointed out.

He stated: "The continuation of this order is indispensable to getting a large volume of housing underway this year."

#

SALVAGES OFFICE RECORDS IN FIRE

Jefferson C. Sly, Jr., structural engineer, now is located at 580 Market Street, Room 608 (Douglas 7653). He was located formerly in the 268 Market Street building which was badly damaged by fire recently.

Sly, who was in Miama, Fla., at the time, praised the work of his son, William T. Sly, ex-pfc with the U. S. Engineers in the Solomons. Knowing the value of instruments and papers in the office, he entered the building with firemen and salvaged much of it. Sly's other son, Jefferson C. Sly, Jr., is on Guam with the navy engineers.

#

DOUGLAS FIR MILLS HAVE RECORD OUTPUT

PORTLAND.—Douglas fir sawmills exceeded six billion foot output in 1946, topping the 1945 total by 169 million feet, and supplying enough lumber suitable for housing to build 300,000 homes.

Lumber rolled from Pacific northwest manufacturing plants during 1946 at the rate of 833 railroad cars a day. Production for the year was 6,133,409,000 board feet. In only two years before the war and since the fabulous 20's—in 1936 and 1937—has lumber production surpassed the 1946 volume.

#

NOMINATE DIRECTORS

A special meeting of members of the Builders' Exchange has been called for Wednesday, Jan. 29, at one o'clock. At that time nominations will be received for directors of the Exchange during 1947, President H. N. Patterson announced.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, E. F. Halloran, regional director, 1355 Market St., has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area:

HEALTH CENTER (for chronic sick), $580,000; Divisadero at Bush, San Francisco; owner, Maimonides Health Center, 1600 Scott St, San Francisco.

SHOP (plumbing), $4000; Selma; owner, Bertha R Laughlin, 1855 Sylvia St, Selma.

MILKING BARN, $9500; near Petaluma; owner, Luigi Terza, Route 4, Box 248, Petaluma.

WAREHOUSE (roofing), $4500; Mission at Acton, San Francisco; owner, Benjamin Sand, 2048 Market St, San Francisco.

LAUNDRY (self-service), $1937; Spring at Redwood, Redwood City; owner, E D Ross, 690 Vine St, San Jose.

WAREHOUSE (glass), $11,000; Fresno; owner, Valley Plate Glass Co, 2220 Inyo St, Fresno.

ADDITION (to exchange building), $106,000; 1639 Market St, (building) owner, Pacific Tel & Tel, 140 New Montgomery St, San Francisco.

LAUNDRETTE, $8000; 7 Hebbron, Salinas; Joseph Cava, 695 E Alisal, Salinas.

BUILDING (hay, feed and grain), $7500; 8170 Castro Blvd, Hayward; owner, C L Gaube, 2437 Shattuck, Berkeley.

SOFT DRINK (distributor), $9600; 1st and Jackson St, Oakland; owner, Fred Coon, 325 22nd St, Richmond.

BUILDING (auto and truck repairs), $22,000; Pennsylvania and Sonoma, Vallejo; owner, Al Young, 425 Sonoma, Vallejo.

BAKERY (to complete), $1200; 6035 Shattuck, Oakland; owner, Frank Shalinsky, 609 61st, Oakland.

SANITARY FACILITIES (to meet state requirements), $4500; Ripon; owner, Meyenberg Milk Products Co, Box P Ripon.

BUILDING (airplane motor overhauling), $60,000; Airport, Oakland; owner, Pacific Airmotive Corp, 6265 San Fernando, Glendale.

GROCERY, $6000; San Bruno; owner, Mrs Mary Dagnall, 441 Kensington, San Bruno.

BUILDING (tire recapping), $3000; Redwood Village, San Mateo; owner, C L Grimmer, et al, Main and Middlefield, Redwood City.

REPAIR and redecorate hat shop, $3500; 1321 Washington St, Oakland; owner, Reed Stores, Inc., 256 Montgomery St., San Francisco.

COLUMBARIUM, $11,000; 695 Arastradero, Santa Clara; owner, Alta Mesa Imp Co., premises.

ADDN. to elementary school, $21,500; Burney; owner, Mt. Burney Union School, Burney.

MFG. Acetylene gas, $47,495; Fresno and Marengo Road, Stockton; owner, Linde Air Products Co., 30 E. 42nd St., New York City.

AUTO repairs, $8500; Harbor and E Santa Fe, Pittsburg; owner, Wm. W. Winsby, etal, 621 E. 14th, Pittsburg.

FROZEN food lockers, $47,444; Millbrae; owner, John Trembley, etal, 325 El Camino Real, Millbrae.

FURNITURE store, $2800; 1225 W. San Carlos, San Jose; owner, John Foglia, 985, Alameda, San Jose.

RECREATION center, $18,500; Modesto; owner, City of Modesto Recreation Commission, Modesto.

BUS LINE office, $39,115; 4th and Perry, San Francisco; owner, The Gray Line, Inc., 955 Post St., San Francisco.

REPAIRS to clothing store, $5986; Hobart at Franklin St., Oakland; owner, Earl R. Lindburg Co., Oakland.

COMPLETE restaurant, $2300; 1106 S. Van Ness Ave., San Francisco; owner, Joe Cardinale, 2289 3rd St., San Francisco.

WAREHOUSE for pipe and fittings, $10,200; 7th and Phelan, San Jose; owner, Thaler Pipe & Supply Co., 8812 Hollis St., Emeryville.

NURSERY, seeds, etc., $9000; Solano and Ramona, Albany; owner, Steve Pleich, 801 Key Route, Albany.

LAMP and novelty mfg., $12,000; Divisadero and Trinity, Fresno; owner, Pheley Art Novelties, Pinedale.

31-32— WATER SUPPLY & SEWAGE DISPOSAL PLANTS

1/23/47 31
Owner Taking Bids—Due Feb. 11, 7:30 P. M. (Bidders Figuring)
Water Filtration Plant Cost $350,000
MARTINEZ, Calif., Contra Costa Co. Pacheco at Veale.
Owner—City of Martinez, Leonard McClintock, city administrator, Frank Sarles, city engineer, Raymond B Johnson, city clerk, City Hall, Martinez, Calif.
Consulting Engineers—A. Kempkey, Balboa Bldg., San Francisco, Calif. and Charles Gilman Hyde, 2693 Buena Vista Way, Berkeley, Calif.
Work includes:
(1) A 30-inch or 24-inch raw water supply pipe line from the Terminal Reservoir of the Contra Costa Canal to the Water Treatment Plant.
(2) A complete water treatment and pumping plant consisting of a spray nozzle aeration system, twin settling basins, three flocculation tanks, four rapid-sand filters having a nominal maximum capacity of six million gallons per 24 hours, a wash water tank, a filtered water basin, and a filter building and pumping station containing pipe gallery, office, coffee room, lavatory, laboratory, chemical dosing room, chemical storage room, corridors and stairways, elevator, chlorinator, room with chlorinators; chlorine cylinder storage room; machine shop, transformer room, together with pumps, air compressor, blower, fans, switchboard and appurtenant electrical mechanical, plumbing, and other piping and equipment installations.
(3) Interior and exterior connecting piping, drains, etc., as commonly associated with water treatment plants of this nature.
(4) A wash water settling pond with restraining levees.
(5) Grading, roads, paths and lawns around the treatment and pumping works.
(6) A force main with Venturi meter and clear water pressure pipe lines to distant connections with the City's distributing pipe system.
In this work there will be involved the following approximate quantities:
8,200 cubic yards of net excavation for the treatment plant and pumping station structures.
8,200 cubic yards of compacted and partially compacted backfill; including 1700 cubic yards of top soil, around the treatment plant and framing station.
6,300 cubic yards of excavation in the wash water settling pond.
6,300 cubic yards of compacted fill in the restraining levees of the wash water settling pond.
3,150 cubic yards of concrete, mostly reinforced.
400,000 pounds of steel reinforcement.
2,090 linear feet of 30-inch or 24-inch raw water supply pipe.
12,600 linear feet of 14-inch and 12-inch and 8-inch clear water pressure pipe lines.
In addition to the above there will be considerable lengths and weights of cast-iron, transite, steel and vitrified clay pipe with fittings, valves and other appurtenances, together with other work of a miscellaneous nature.
Complete items of work were published January 13.
Specifications obtainable from office of the City Engineer upon deposit of $50 refundable.

lege" by widening Plaza Avenue in Arcata.

*A.B. 338 removes experience and examination requirements for civil engineer registration for veterans who have graduated from or are "now attending an accredited college of engineering." Effective for only six months after passage.

*A.B. 342 amends Vehicle Code to make all local ordinances regulating weight limits on bridges and highways subject to Highway Commission approval.

*A.B. 344 abolishes all distinctions between primary and secondary state highways.

....A.B. 359 allows chiropodists to be classed as physicians for medical services in workmen's compensation cases.

*A.B. 376 appropriates $500,000 for the acquisition "of real property for the San Francisco State College to be expended under the provisions of the Property Acquisition Act."

*A.B. 379 authorizes Public Works Department to advertise for bids for highway lighting and safety signals on a stated list of major highways and appropriates $25 million for the purpose.

A.B. 384 increases punitive award in compensation cases where employer of his agent is held to "wilful misconduct" from $2500 to $3500.

A.B. 386 increases from six to 12 months the time limit in which a workman's compensation case may be commenced.

*A.B. 413 allows Boards of Supervisors to enter into "contracts with any person for the erection of dwelling units for aged persons receiving public assistance", and authorizes them to incur bonded indebtedness for the purpose.

*A.B. ..... states any employer will be guilty of a misdemeanor if he discriminates against hiring workers previously injured on job or suffering from any physical infirmity "if such person is able to perform each and every duty" on job.

A.J.R. 10 memorializes the RFC, WAA and President to transfer title of airport in Hayward to City of Hayward and protests its possible sale to private interests.

Official Proposals

OFFICIAL PROPOSAL

NOTICE TO CONTRACTORS

Sealed bids will be received by the City of Martinez, California, on **February 11, 1947,** for the construction of a 6 MGD Filter Plant. Principal quantities include the following:
14,500 cubic yards excavation.
3,150 cubic yards reinforced concrete.
14,700 linear feet pipe lines 8- to 24-inch.

A proposal guaranty of $20,000 is required. Plans and specifications can be secured, on deposit of $50.00, from the City Engineer, Martinez, California.

PLANS and Speculations

Grass Valley (Nevada) civic leaders recently were informed that the community's minimum hospital requirements are a 50-bed institution complete with power plant, laundry, kitchen, laboratory and x-ray rooms. The opinion was delivered by D. P. K. Gilman, chief of the state bureau of hospital surveys, before a meeting of the local Business and Professional Women's Club.

oOo

The city of San Jose recently adopted a master plan for its streets and highways.

oOo

The Napa County fair district has been paid $65,000 as its share of pari mutuel take at state racetracks.

oOo

Marysville officials are shaping up backing for a possible move to acquire the soon to be discarded Camp Beale sewage plant. It is surplus as of March 31. Use of the Beale camp water supply also is contemplated.

oOo

Caruthers, Fowler and Clovis will join the campaign to raise $500,000 to establish an agricultural college in the San Joaquin Valley.

oOo

Extension of sewage facilities to all homes under construction to veterans as a health measure is the subject of a survey being conducted in the Fresno area.

oOo

Assemblyman W. E. James (r., Bakersfield) has proposed construction of a $10 million highway between Morrow Bay near San Luis Obispo and the Nevada state line.

oOo

San Mateo voters will be asked a hearing Tuesday on plans and proposals for new construction at Canyon Sanitarium.

FRED J. EARLY, Jr.

Seven Directors Elected by Central Chapter of AGC

The Central California Chapter of The Associated General Contractors of America, held its annual meeting this week and elected the following general building contractors as directors for 1947:

Fred J. Early, Jr., Fred J. Early, Jr. Co. Inc.; Henry A. Knutzen, Peter Kiewit Sons' Co.; Robert McCarthy, Robert McCarthy Co.; Art B. Smith, Engineers, Ltd.; Harold W. Smith, Dinwiddie Construction Co.; Carl N. Swenson, Carl N. Swenson Co.; and Geo. W. Williams, Williams & Burrows, Inc.

These Directors will serve for 1947 and will convene early next month and elect officers for the ensuing year. All are well known and prominently identified with the building and construction industry in Northern California.

End of First Quarter of Year Will Find Cumulative Balance in Building Materials

By THOMAS S. HOLDEN
President, F. W. Dodge Corporation

Adjustments to peacetime operation in a market characterized by overwhelming accumulated demands and severe material shortages characterized the construction record for 1946. Although adjustments have been completed, there is strong prospect that most of the major ones will be out of the way by the middle of 1947.

Importance of an upward trend of contracts is early stabilization of construction material prices. During the first five weeks after removal of price controls (Nov. 9, 1946 to Dec. 14, 1946) the U. S. Bureau of Labor Statistics index for wholesale prices of building materials jumped seven per cent.

During the same five weeks, the wholesale price index for metals and metal products (which include some finished building products as well as basic structural materials) jumped 16 per cent. Considering that these were the immediate effects of removal of ceilings, these jumps are not alarming.

Sees Cost Reduction

More immediate prospect for reduction in construction costs is in elimination of the abnormalities and inefficiencies inherent in 1946 market conditions. Every project started last year was in some sense an emergency project, one which, in the minds of its principals, could not be advantageously postponed.

Early disappearance of these abnormal costs should enable builders to figure costs more accurately, to give closer bids, in many cases to show lower actual cost in 1947 than those of similar projects in 1946. Builders would do well to acquaint the public with the nature of the abnormal costs that have been in the picture and with any news of their disappearance.

In spite of all the confusions of 1946, the volume of construction work started was considerably larger than that of most recent years. Although less than in 1942, the peak year of war construction, last year's volume compares strikingly with that of 1941, culmination year of the prewar construction revival.

Expenditures Greater

Total construction contracts in dollars were approximately 25 per cent greater in 1946 than in 1941; new building floor space contracted for last year was slightly over the 1941 amount. Last year residential building represented 42 per cent of the dollar total; in 1941, about 33 per cent.

Completion of adjustments and remaining construction industry recovery are expected this year. The rapidity with which adjustments are made will determine the rapidity of construction revival. There is no question of an enormous potential demand, no important difficulty in construction financing, no need for any kind of government stimulation, other than removal of remaining obstacles.

F. W. Dodge Corporation has estimated for 1947 an over-all dollar volume increase in construction contracts over 1946 of 24 per cent. A moderate seven per cent increase is estimated for nonresidential building and a 38 per cent increase for residential building.

GROOVER AND I

YEARS AND MILES

I am sure the Customers will not object to one on the house for the little guy under the big hat who rides around in the air-conditioned jalopy with the patched tires.

☆ ☆ ☆

This issue marks the end of the seventeenth year this column has appeared. During that time much newsprint has run through the presses.

☆ ☆ ☆

This column was here to greet such present-day headliners as Walter Winchell, Westbrook Pegler, and Eleanor Roosevelt.

☆ ☆ ☆

It has also noted with deep regret the passing of two Columnists who was Great in any language. One was known to the cow waddies around Claremore, Oklahoma, as "Uncle Clem's boy", and to presidents and kings of the World as Will Rogers. The other was O. O. McIntyre of Gallipolis, Ohio, a boy who never quite lost his openmouth awe at the Passing Parade.

☆ ☆ ☆

This column has achieved its primary objective—to stand on its own feet without benefit of personal build-up or by-line. Perhaps the reason for this is that you, the readers, have developed a feeling of affection for the little guy with the big hat who frequently drives off on such unpredictable tangents. Edgar Bergen may feel the same toward Charlie McCarthy.

☆ ☆ ☆

Years and circumstances have set up many road-blocks, making the preparation of this copy more difficult—but the joy of doing it has increased with the passing years.

☆ ☆ ☆

The next issue will mark the beginning of the EIGHTEENTH year. There is still gas in the tank and a few miles remaining in the patched tires. We are going to drive a little farther . . .

☆ ☆ ☆

"Groover & I" don't know what will happen — but it will — and we want to be there.

#

FRED EARLY, JR., IS CHOSEN NEW NATIONAL DIRECTOR DISTRICT 2

Fred J. Early, Jr. of the Fred J. Early, Jr., Co., Inc., has been elected a building director for District No. 2 of the Associated General Contractors of America for the three year term representing the States of California, Nevada and Arizona. Prominent and well-known in the building and construction industry Early has erected many large private and public structures.

He is a past president of Central California Chapter of the Associated General Contractors of America, and will take office at the close of the forthcoming National A. G. C. convention to be held at Chicago, January 26-30.

#

LIGHT GAGE STEEL STANDARDS ISSUED

Issuance of the official industry standards for light gauge steel has been announced by the American Iron and Steel Institute.

The standards, designed to make possible broader uses of the material in certain types of building construction, are the result of studies begun in 1939 under the building code committees of the institute.

Nearly 700 structural specimens were used in compiling the standards, "Specifications for the Design of Light Gauge Steel Structural Members."

Warns Cooperation Needed to Supply Sufficient Labor

WASHINGTON—Douglas Whitlock, chairman of the Building Products Institute, today urged concerted cooperative effort by the construction industry, labor organizations, and the federal government to insure an ample supply of trained building trades workers for the heavy volume of construction to be started this year.

"There need be no shortage of workers to build homes and other structures if everyone concerned will work together vigorously to expand apprentice training programs and interest young men in entering the building trades," seaid Whitlock.

"The Apprentice Training Service of the U. S. Department of Labor has been doing outstanding work in this field and their efforts will be made increasingly successful if manufacturers of building products, builders and contractors, and others interested in construction, including national and local labor union officials, will lend their full support to the program.

'47 Labor Demands

"Fully one-third more workers will be needed in 1947 than were available last year if the $19 to $20 billion of construction anticipated this year is to be accomplished. Additional workers needed in every major building trade, both because relatively few young men entered the various trades during the depression and war years and because many of the union members are reaching retirement age.

"The housing expediter estimated that 1,500,000 additional onsite and off-site workers would be required by the middle of 1947, and only a fraction of this number has entered the apprentice training program so far.

"If suitable methods of speeding up the training of new apprentices are adopted generally, none of the new building which is so urgently required need be postponed or delayed because of a shortage of workers.

"In view of the great accumulated need for new homes, factories, stores, schools, roads, and public buildings, the building trades offer more attractive career opportunities and better earning possibilities than ever before for veterans and others who are seeking steady employment."

#

'INSULATION SHOULD BE SEPARATE ITEM OF HOUSING BILL'

Insulation firms today urged that the forthcoming Wagner - Ellender - Taft bill on housing, consider the use of insulation as a separate item.

It was pointed out that since investigation of hotel fires had shown that inadequate, outmoded insulation was one of the contributing factors in the rapid spread of those fires. No efforts should be spared to prevent future disasters the producers contend, not only in hotels, but in all types of dwellings.

"Many types of insulation," the letter emphasized, "will within a comparatively short time deteriorate. They become infested with termites, vermin and moisture seeping in, causing the insulation to pack down and remain practically useless."

Did You Know That . . .

Mario L. Gaidano, architect, has opened offices in the Liebes Building, 177 Post. Before opening his own offices, he was associated with I. W. Goldstine, architect.

During the war, Gaidano served with the Army Transportation Corps and for his outstanding work in the design of port facilities was awarded the Legion of Merit. A native San Franciscan, he was educated at St. Ignatius High School and the California School of Fine Arts.

oOo

Lacey and White, Inc., contractors, have opened offices at 220 Montgomery. The telephone number is GArfield 0510.

EXCAVATORS, INC., LOW

Excavators, Inc., of Pittsburg, Calif., were low bidders on construction of the Feather River west levee (Spec. 1248) when bids were opened Thursday afternoon at Sacramento. Their price was $302,330.30.

Other bidders were as follows: H. Earl Parker, Marysville, $308,187.56; Clyde W. Wood, Inc., North Hollywood, $355,702.95; Fredrickson Bros., Emeryville, $362,850.05;

Morrison & Knudsen, Los Angeles, $397,799.47; Piombo Bros. Constr. Co., San Francisco, $461-600.40; A. Teichert & Son, Inc., Sacramento, $464,956.25;

N. M. Ball Sons, Berkeley, $466,383.05; Fredrickson & Watson Constr. Co., Oakland, $551,494.73; MJB Constr. Co., Stockton, $585,509.00; Bressi and Bevanda Constructors, Inc., Los Angeles, $595,692.50; and Parish Bros., Benicia, $658,270.30.

Vast Increase In Highway Use in '46

WASHINGTON. — "Highway transportation in 1946 will equal, and perhaps exceed, the record year of 1941," James J. Skelly, president of the American Road Builders' Association said today in a statement issued to highway engineers.

"In 1945, highway transportation alone piled up a total of 406 billion passenger-miles. Passenger-miles on buses accounted for 62,895 million ton-miles of freight were hauled over rural roads by truck," he said. "Highway use has increased steadily throughout 1946."

Skelly pointed out that the convenience of highway transportation has been made possible only by a continuous program of highway construction and maintenance. Passenger-miles for private cars in 1945 represent seven times the travel of 1932, when road improvement got under way. Bus travel has increased almost sixteen times since then.

"Our postwar construction program must be stepped up to meet present highway transportation needs," Skelly said. "We now have 80 per cent of the motor vehicles of the world, one for every 4.5 persons in the nation."

Despite the limited production of cars, registrations of privately owned motor vehicles have totaled more this year than last. Automobile registrations show an increase of 5.4 per cent over 1945. Truck registrations show an increase of 12.2 per cent.

Passenger travel in 1946 will approximate the 311 billion passenger-miles of 1941. Ton-miles of rural freight, for this year, according to preliminary reports from 21 states to the Public Roads Administration, show a 12.4 per cent increase over 1945.

"A phenomenal rise in highway traffic will follow increased production of motor vehicles," said Mr. Skelly. "Our roads, inadequate now, must be put in condition to meet the increasing needs of a motorized nation."

#

Final figures on government aid to housing after the first world war showed a net loss of $53,911,000 on an original investments of $66,500,000 — slightly more than half the face figure.

FHA PERMITS GRANTED

SAN FRANCISCO. — The Federal Housing Administration, D. C. McClinsan, District Director, 815 Montgomery St., San Francisco, has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants as noted:

Bridges, Floyd T. and Ben, Chris, 654 Oliver St., Palo Alto, 4 units at Menlo Park.

O'Reilley, Francis, 1127 Hearst Bldg., San Francisco, 2 units at San Francisco.

Williams, G. W. Co., 10 California Drive, Burlingame, 16 units at San Mateo.

Brand, V. L., 902 Spencer Ave., Santa Rosa, 3 units at Santa Rosa.

Sukadorf, A. D., Atwater, 16 units at Atwater.

Apperson, A. G., 2231 33rd Ave., San Francisco, 3 units at San Francisco

Chastain, H. E., 1719 Del Paso Blvd., North Sacramento, 1 unit at Sacramento.

Brunjes & Fallis, Santa Cruz, 2 units at Santa Cruz.

Bigalow, Harlan K., Route 4, Box 124, Sebastopol, 1 unit at Sebastopol.

Cacchettine, John, 598 San Antonio Way, 2 units at Sacramento.

Morris, Herbert F., R.R. 4, Box 2009, Sacramento, 1 unit at Sacramento.

Jweigle, Ben, 105 N 33rd St., San Jose 2 units at San Jose.

Dougherty, Raymond L., 2416 East Vine St., Stockton, 1 unit at Stockton.

Jordan & Read, 2101 Shattuck Ave., Berkeley, 20 units at Concord.

Harrison & Tayler, P. O. Box 163, Felton, 1 unit at Santa Cruz.

Fisher, H. P., 376 17th St., Oakland, 1 unit at Oakland.

Vanderbeck, Geo. T., 310 Morrissey Blvd., Santa Cruz, 5 units at Santa Cruz.

Investment Corp., 409 Oschner Bldg., Sacramento, 2 units at Sacramento

Sherar, John, 367 South "D" Street, Merced, 1 unit at Merced.

Doshier, Rufus J., R-8-189, Fresno, 1 unit at Fresno.

Alameda Homes Co., 6935 "A" Street, Oakland, 1 unit at Oakland.

Domaras, Nickolas, 200 Douglass St., San Francisco, 2 units at San Francisco.

Anderson, Glenn L., P. O. Box 1107, Oakdale, 1 unit at Oakdale.

McKenzie, C., Box 31, Glen Ellen, 1 unit at Glen Ellen.

Wyman, Geo. L., 3919 Foothill Blvd., Oakland, 3 units at Oakland, 1 unit at El Dorado.

Bergstrom & Larvick, 305 Prospect St., San Francisco, 3 units at San Francisco.

Walker, Vaughn, Route 2, Box 230, Campbell, 11 units at Campbell.

Marin Capital Co., Box 12, Mill Valley, 37 units at Mill Valley.

Menlo Heights Homes, Inc., P. O. Box 169, South San Francisco, 1 unit at Sotuh San Francisco.

MacArthur Bldg. Co., 3224 Judah St., San Francisco, 3 units at San Francisco.

Erickson, J. A., 115 Fart Ave., Salinas, 2 units at Salinas.

De Piero, Herman, Box 332-A, Walnut Ave., Concord, 2 units at Concord.

Advance Bldrs. Corp., 2824 San Pablo Ave., San Pablo, 1 unit at Richmond.

TRAXCAVATE for PROFIT

The profitable machine on any job is the machine that keeps busy

The TRAXCAVATOR—front-end loader built by THE TRACKSON CO. and mounted on a "CATERPILLAR" diesel tractor—has been called "the busiest machine on the job" by many builders. It's the perfect machine for jobs that involve digging, loading, leveling, or backfilling, and for the handling and rehandling of materials.

HIGHLY VERSATILE
EASILY MOVED FROM JOB TO JOB

'Abundant Production Will Deflate Prices Of Homes This Year'

Past production records are being equalled or exceeded in substantially all lines of building materials. Tyler S. Rogers, president of the Producers' Council, national organization of building product manufacturers, stated today.

"Unless production is hindered by shortages of raw materials or by strikes, new high records will be achieved in the output of all building materials and equipment during 1947," Rogers said.

"Many manufacturers will need additional plant facilities and record quantities of raw materials to keep pace with the high demands of the future.

Decontrol Helps

"Increases in prices of building products since the removal of price ceilings have been surprisingly moderate, averaging only about 15 percent, and are well below the former black market prices which ranged as high as 100 per cent over official price ceilings. Most increases in materials prices have been the result of upward adjustments in prices of standard lines, production of which was held down by inadequate ceilings which did not recognize higher raw material and wage costs.

"In many cases, these price rises are temporary, having been brought about by interrupted supplies of raw materials and component parts, uncertainty as to wage levels, low productivity of plant workers, and inexperience of new workers.

"As these abnormal conditions disappear, competition between manufacturers of alternate materials and between manufacturers of similar products will force prices down. The rise in building material prices still is less than the average rise in commodity prices.

"The winter slack in on-site construction is giving materials producers their first chance to build up inventories, and unless strikes or raw-materials shortages interfere with production or distribution, dealers should be able to meet an enormous Spring demand for materials in the normal prewar manner.

"Relief from impractical and poorly administered governmental controls, which created black-market prices and contributed to low productivity on the part of labor, will permit lower building costs in 1947 if materials production proceeds without undue interruption.

Economy of Abundance

"The construction industry plans to build a million or more new dwelling units during the year 1947, at costs which are expected to average 15 to 20 per cent below 1946 peaks. This volume of new houses at more normal value levels will undoubtedly deflate abnormally high prices for existing houses."

#

IDEA SAVES LUMBER

Henry Higueret, a 37-year-old rigger at the San Francisco Naval Shipyard, recently was awarded a $200 Beneficial Work Suggestion prize for devising a system for halving and setting up the huge wooden keel blocks under vessels dry-docked at the Hunter's Point shipyard.

A home-owner himself, Higueret's novel idea to aid home builders has resulted in a big decrease in the lumber necessary for keel blocks. The half-sized blocks can be set in drydocks with a saving at the shipyard of 29 man - days work each month, and 22,000 board feet of timber per year — enough lumber to build two single-family homes.

#

SIZE OF FAMILIES IN CALIFORNIA DECREASES

SACRAMENTO. — State reconstruction and reemployment commission has estimated California's present population to be 9,350,000 an increase of nearly two and a million since 1940.

The commission said that the number of families in the state had increased more rapidly during this six-year period than at any decade since 1900.

The average size of families in California has constantly decreased. State statistics reveal that there were 215,000 births and 95,000 deaths.

AGC Opens National Session in Chicago; High Officials Attend

CHICAGO. — Looking ahead to an anticipated record-breaking volume of construction activity in 1947, approximately 800 members will attend the 28th annual convention of the Associated General Contractors of America, to be held in Chicago from January 27-30.

San Francisco AGC members who are attending the Chicago convention are William Hague, executive secretary of the Central chapter; Winfield H. Arata, executive secretary of the Northern California chapter; Harold W. Smith, incoming president of the Central chapter; and Fred J. Early, Jr., newly - elected director of the region comprising Arizona, Nevada, and California.

Key government officials, industry and labor leaders have been scheduled to address the convention meetings. They have been selected to present the members with as wide a coverage as possible of the many diverse problems and prospects now confronting all phases of construction, including building, highways, public works, industrial and commercial construction.

The speakers are: Frank R. Creedon, national housing expediter, Ralph Bradford, general manager, Chamber of Commerce of the United States of America; Ben Moreell, president, Turner Construction Co., New York, N. Y., formerly chief, bureau of yards and docks, U. S. Navy, who will speak on "The Postwar Obligations of the Construction Industry."

John L. Haynes, chief, construction division, office of domestic commerce, U. S. department of commerce, will speak on "Construction Materials Outlook for 1947." Lt. General [illegible] Wheeler, chief of engineers, U. S. Army, will discuss "Rivers of the Greater America."

Other speakers: Rear Admiral [illegible], chief, bureau of ships, U. S. Navy, who will speak on "The Navy's [illegible] gram."

Richard J. Gr[illegible] ing and construction department, American Federation of Labor.

Thomas H. M[illegible] sioner, public roads administration.

Kenneth M[illegible] commissioner, federal housing administration. His subject will be "Summary of the [illegible] grams."

E. M. Hastings, [illegible] Richmond, Fredericksburg and Potomac Railroad, and president, American Society of Civil Engineers.

W. A. Danner, executive [illegible] president, Associated Equipment Distributors.

John C. Hayes, Hayes & Hayes, Attorneys, Washington, D. C., who will speak on "Tax Considerations for Contractors".

Edward P. Palmer, Senior and Palmer, Inc., New York, N. Y., past president of the Associated General Contractors of America.

#

ATKINSON IS ELECTED NEW AGC PRESIDENT

George H. Atkinson was elected president of the Northern California chapter of Associated General Contractors at a board of directors meeting last weekend, Winfield H. Arata, executive secretary, announced today.

The new president is a member of the Guy F. Atkinson firm of San Francisco. Al Biasotti of Louis Biasotti and Son, Stockton, was chosen vice-president.

H. Earl Parker was elected treasurer. He heads the H. E. Parker firm of Marysville.

CONVECTOR PREMIUM PAYMENTS SCRAPPED

WASHINGTON.—Premium payments to the convector industry have been discontinued, effective January 31, the housing expediter's office announced. Members of the industry did not oppose the termination, but did urge government officials to continue to help them obtain steel through the second quarter of 1047.

Concrete Masonry Production Is At All-Time Record

WASHINGTON —The production of concrete building block and brick in the 4-month period of July-October 1946 was at an exceptionally high level, according to preliminary figures just released by the Bureau of the Census. Although quarterly estimates, based partly on deliveries of concrete block-making machinery, had indicated that production was expanding, these are the first data available in over a year from reports of the producers themselves.

Total output of light-and heavy-weight aggregate block reported for the period July through October 1946 was 379 million 8 in. x 8 in. x 16 in. block equivalent. October production of 91 million standard block was only slightly less than the monthly average for the quarter, July through September.

Half New Plants

Approximately 3,500 plants were engaged in producing concrete masonry. About half of the plants were new plants that began production during 1946. The increase in plants reached its peak in the third quarter of 1946. By October 1946 there was a decrease of over 500 plants manufacturing heavy weight block, almost 150 fewer plants producing light - weight block, and over 80 less plants making concrete brick.

Output of heavy-weight block during the third quarter of 1946 was reported as 169 million 8 in. x 8 in. x 16 in. equivalent, and of light-weight block, 119 million. This was almost four times as many block as reported produced two years before in the third quarter of 1944. Although there is no exact basis for comparison with prewar production, the 379 million [illegible] during July-October 1946 [illegible] almost 407 [illegible] other on 1,000 units, PRICE and QUALITY mean nothing. There can be no real competition. It's simply a gambling matter of who has the low quantities. As the [illegible] bidder is most likely to [illegible]ert' quantities, the present [illegible]andicaps efficiency.

[illegible] the quantity survey system [illegible]ing, PRICE and QUAL[illegible]e sole basis of competi[illegible] bidder who offers and [illegible]ds to deliver the best [illegible] of construction at the [illegible]CE gets the business [illegible] bidders are bidding on [illegible]umber of units. That is [illegible]rtition.

[illegible]uantity survey system assures [illegible] successful bidder his unit [illegible]every unit of construction [illegible]ors, and the owner buys [illegible]ding, including changes, at [illegible]west consistent unit price for [illegible] unit of construction he re[illegible]s. Both seller and buyer get a square deal. The seller is assured of the profit his bid warrants and the buyer is assured the kind and quality of building he can expect for the price paid.

Under the present system of unknown quantities and unit prices, lack of this vital information creates suspicion in the mind of the owner, especially as to the true cost of changes he may desire in the original contract. The owner invariably thinks the contractor is taking advantage of his ignorance of quantities and costs involved in the changes and believes the contractor is trying to rob him. When the exact number of units involved are furnished by an impartial quantity surveyor, both owner and contractor can arrive at a fair cost of desired changes.

When, under the present system, the successful bidder gets a contract on 'short' quantities, he usually seeks to avoid personal loss which can be done only at the owner's expense. Everyone loses. The contractor makes less profit if, in fact, he does not suffer a loss. The architect spends a lot of valuable time watching the job. And the owner is certain to get an inferior building.

The proposed guaranteed quantity survey will make the many benefits of the quantity survey readily available to owners, architects, engineers, and contractors. The guarantee will protect the owner, the architect, and the contractor.

In England and other countries where the quantity survey system of competitive bidding has long been the common practice, no guarantee is necessary. The English owner pays for his building in accordance with the actual number of construction units installed, not the number listed in the 'bill of quantities' the quantity surveyor furnishes. This 'bill of quantities' is merely prepared and furnished by the quantity surveyor for the purpose of fair bidding. As the construction progresses, the quantities of work installed are jointly reviewed on the job by the contractor and the quantity surveyor, and the quantities then arrived at are those the owner pays for. The ultimate price may be more or less than the original contract or purchase price.

Until the American owner is educated to buy his building on a unit basis as does the English owner, it is necessary to guarantee the quantity survey so that the contract price will not be affected, changes expected, if errors should occur in the quantity survey.

It would be more practical to guarantee quantity surveys and insure their accuracy than it is to insure a building against fire because errors in quantities are more easily prevented through careful checking than fires or accidents which can occur through the negligence or carelessness of a large group of persons. Errors in quantities are bound to occur but the employment of highly trained quantity surveyors and careful checking will reduce their number to a minimum and practically eliminate the larger ones entirely.

The quantity survey system of bidding will provide three major benefits: (a) Reduce unnecessary estimating costs, (b) Provide fair competition of PRICE and QUALITY only, and (c) remove hazardous gambling on quantities.

The quantities will be taken off accurately and in strict accordance with approved uniform rules of take-off. To do otherwise would defeat its purpose and value: a guaranteed accurate list of quantities for the benefit of owners, architects, engineers, and bidders. The lists will be made in such detail as will provide valuable quantity information during the entire construction of the building for which it was prepared,—especially in ordering materials, and in saving of handling, and use of materials on the job. This should reduce construction costs considerably by more efficient use and handling of materials and in saving of time wasted while waiting for materials that may otherwise be ordered too late.

The cost of the quantity survey and guaranty premium will be rightfully included as part of the overhead on the job as are accident insurance, and bond premiums, and paid for by the owner as he does other legitimate building costs.

In all trade and industry groups except commercial service, failures in September this year outnumbered those occurring in the same month last year. There was

"STRICTLY FIREPROOF"—This novel garage is built of clay flue lining. Erected before the war when such products were plentiful, it contains enough of this now precious building material to line the chimneys of dozens of homes. Since clay flue lining is one of the best guarantees of protection against house fires, one thing the owner of this unusual garage need not fear is that his building will burn down!

For Better Building . . . . . —

THE QUANTITY SURVEY SYSTEM

By ALBERT LE ROY

Contractors are the only business men who sell their commodity before its production. Due to the unusual and heavy construction risks they must assume, they are industry's greatest gamblers. Perhaps that is why the rate of failures and bankruptcies is higher in the building industry than in any other.

Most contractors' failures are due to errors in estimating. Obviously the less competent fail most frequently. Their low bidding depresses the building market, and makes a fair profit difficult for the more efficient bidders.

Each failure does not mean one less incompetent bidder because there are always two or more to replace the one who failed. The obvious remedy lies in better bidding and consequent raising of the construction profits.

The quantity survey system of bidding puts bidding on a fair PRICE and QUALITY basis of competition, as it is in all other industries. In the present system of competitive bidding, when one bidder bids on 900 units and another on 1,000 units, PRICE and QUALITY mean nothing. There can be no real competition. It's simply a gambling matter of who has the low quantities. As the [illegible] bidder is most likely to [illegible]ert' quantities, the present [illegible]andicaps efficiency.

[illegible] the quantity survey system [illegible]ing, PRICE and QUAL[illegible]e sole basis of competi[illegible] bidder who offers and [illegible]ds to deliver the best [illegible] of construction at the [illegible]CE gets the business [illegible] bidders are bidding on [illegible]umber of units. That is [illegible]rtition.

[illegible]uantity survey system assures [illegible] successful bidder his unit [illegible]every unit of construction [illegible]ors, and the owner buys [illegible]ding, including changes, at [illegible]west consistent unit price for [illegible] unit of construction he re[illegible]s. Both seller and buyer get a square deal. The seller is assured of the profit his bid warrants and the buyer is assured the kind and quality of building he can expect for the price paid.

Under the present system of unknown quantities and unit prices, lack of this vital information creates suspicion in the mind of the owner, especially as to the true cost of changes he may desire in the original contract. The owner invariably thinks the contractor is taking advantage of his ignorance of quantities and costs involved in the changes and believes the contractor is trying to rob him. When the exact number of units involved are furnished by an impartial quantity surveyor, both owner and contractor can arrive at a fair cost of desired changes.

When, under the present system, the successful bidder gets a contract on 'short' quantities, he usually seeks to avoid personal loss which can be done only at the owner's expense. Everyone loses. The contractor makes less profit if, in fact, he does not suffer a loss. The architect spends a lot of valuable time watching the job. And the owner is certain to get an inferior building.

The proposed guaranteed quantity survey will make the many benefits of the quantity survey readily available to owners, architects, engineers, and contractors. The guarantee will protect the owner, the architect, and the contractor.

In England and other countries where the quantity survey system of competitive bidding has long been the common practice, no guarantee is necessary. The English owner pays for his building in accordance with the actual number of construction units installed, not the number listed in the 'bill of quantities' the quantity surveyor furnishes. This 'bill of quantities' is merely prepared and furnished by the quantity surveyor for the purpose of fair bidding. As the construction progresses, the quantities of work installed are jointly reviewed on the job by the contractor and the quantity surveyor, and the quantities then arrived at are those the owner pays for. The ultimate price may be more or less than the original contract or purchase price.

Until the American owner is educated to buy his building on a unit basis as does the English owner, it is necessary to guarantee the quantity survey so that the contract price will not be affected, changes expected, if errors should occur in the quantity survey.

It would be more practical to guarantee quantity surveys and insure their accuracy than it is to insure a building against fire because errors in quantities are more easily prevented through careful checking than fires or accidents which can occur through the negligence or carelessness of a large group of persons. Errors in quantities are bound to occur but the employment of highly trained quantity surveyors and careful checking will reduce their number to a minimum and practically eliminate the larger ones entirely.

The quantity survey system of bidding will provide three major benefits: (a) Reduce unnecessary estimating costs, (b) Provide fair competition of PRICE and QUALITY only, and (c) remove hazardous gambling on quantities.

CONVECTOR PREMIUM PAYMENTS SCRAPPED

WASHINGTON.—Premium payments to the convector industry have been discontinued, effective January 31, the housing expediter's office announced. Members of the industry did not oppose the termination, but did urge government officials to continue to help them obtain steel through the second quarter of 1047.

Concrete Masonry Production Is At All-Time Record

WASHINGTON —The production of concrete building block and brick in the 4-month period of July-October 1946 was at an exceptionally high level, according to preliminary figures just released by the Bureau of the Census. Although quarterly estimates, based partly on deliveries of concrete block-making machinery, had indicated that production was expanding, these are the first data available in over a year from reports of the producers themselves.

Total output of light-and heavy-weight aggregate block reported for the period July through October 1946 was 379 million 8 in. x 8 in. x 16 in. block equivalent. October production of 91 million standard block was only slightly less than the monthly average for the quarter, July through September.

Half New Plants

Approximately 3,500 plants were engaged in producing concrete masonry. About half of the plants were new plants that began production during 1946. The increase in plants reached its peak in the third quarter of 1946. By October 1946 there was a decrease of over 300 plants manufacturing heavy weight block, almost 150 fewer plants producing light - weight block, and over 80 less plants making concrete brick.

Output of heavy-weight block during the third quarter of 1946 was reported as 169 million 8 in. x 8 in. x 16 in. equivalent, and of light-weight block, 119 million. This was almost four times as many block as reported produced two years before in the third quarter of 1944. Although there is no exact basis for comparison with prewar production, the 379 million block produced during July through October 1946 was almost as large as the production of 407 million units of concrete block and tile (except roofing tile) reported for the whole year of 1939, and probably was above any previous comparable period.

Growth Rapid

Although production of concrete brick is much less important than of concrete block, the growth in output of concrete brick was relatively more rapid. The total of 57 million standard brick produced in the third quarter of 1946, by 325 plants was over five times the output in the third quarter of 1944. October 1946 production of 18 million standard brick was 5% below the monthly average for the third quarter of 1946.

Since clay flue lining is one of the best guarantees of protection against house fires, one thing the owner of this unusual garage need not fear is that his building will burn down!

For Better Building . . . . . THE QUANTITY SURVEY SYSTEM

By ALBERT LE ROY

Contractors are the only business men who sell their commodity before its production. Due to the unusual and heavy construction risks they must assume, they are industry's greatest gamblers. Perhaps that is why the rate of failures and bankruptcies is higher in the building industry than in any other.

Most contractors' failures are due to errors in estimating. Obviously the less competent fail most frequently. Their low bidding depresses the building market, and makes a fair profit difficult for the more efficient bidders.

Each failure does not mean one less incompetent bidder because there are always two or more to replace the one who failed. The obvious remedy lies in better bidding and consequent raising of the construction profits.

The quantity survey system of bidding puts bidding on a fair PRICE and QUALITY basis of competition, as it is in all other industries. In the present system of competitive bidding, when one bidder bids on 800 units and another on 1,000 units, PRICE and QUALITY mean nothing. There can be no real competition. It's simply a gambling matter of who has the low quantities. As the inefficient bidder is most likely to have 'short' quantities, the present system handicaps efficiency.

Under the quantity survey system of bidding, PRICE and QUALITY are the sole basis of competition. The bidder who offers and promises to deliver the best QUALITY of construction at the lowest PRICE gets the business because all bidders are bidding on the same number of units. That is fair competition.

The quantity survey system assures the successful bidder his unit price for every unit of construction he delivers, and the owner buys his building, including changes, at the lowest consistent unit price for every unit of construction he receives. Both seller and buyer get a square deal. The seller is assured of the profit his bid warrants and the buyer is assured the kind and quality of building he can expect for the price paid.

Under the present system of unknown quantities and unit prices, lack of this vital information creates suspicion in the mind of the owner, especially as to the true cost of changes he may desire in the original contract. The owner invariably thinks the contractor is taking advantage of his ignorance of quantities and costs involved in the changes and believes the contractor is trying to rob him. When the exact number of units involved are furnished by an impartial quantity surveyor, both owner and contractor can arrive at a fair cost of desired changes.

When, under the present system, the successful bidder gets a contract on 'short' quantities, he usually seeks to avoid personal loss which can be done only at the owner's expense. Everyone loses. The contractor makes less profit if, in fact, he does not suffer a loss. The architect spends a lot of valuable time watching the job. And the owner is certain to get an inferior building.

The proposed guaranteed quantity survey will make the many benefits of the quantity survey readily available to owners, architects, engineers, and contractors. The guarantee will protect the owner, the architect, and the contractor.

In England and other countries where the quantity survey system of competitive bidding has long been the common practice, no guarantee is necessary. The English owner pays for his building in accordance with the actual number of construction units installed, not the number listed in the 'bill of quantities' the quantity surveyor furnishes. This 'bill of quantities' is merely prepared and furnished by the quantity surveyor for the purpose of fair bidding. As the construction progresses the quantities of work installed are jointly reviewed on the job by the contractor and the quantity surveyor, and the quantities then arrived at are those the owner pays for. The ultimate price may be more or less than the original contract or purchase price.

Until the American owner is educated to buy his building on a unit basis as does the English owner, it is necessary to guarantee the quantity survey so that the contract price will not be affected, changes expected, if errors should occur in the quantity survey.

It would be more practical to guarantee quantity surveys and insure their accuracy than it is to insure a building against fire because errors in quantities are more easily prevented through careful checking than fires or accidents which can occur through the negligence or carelessness of a large group of persons. Errors in quantities are bound to occur but the employment of highly trained quantity surveyors and careful checking will reduce their number to a minimum and practically eliminate the larger ones entirely.

The quantity survey system of bidding will provide three major benefits: (a) Reduce unnecessary estimating costs, (b) Provide fair competition of PRICE and QUALITY only, and (c) remove hazardous gambling on quantities.

The quantities will be taken off accurately and in strict accordance with approved uniform rules of take-off. To do otherwise would defeat its purpose and value: a guaranteed accurate list of quantities for the benefit of owners, architects, engineers, and bidders. The lists will be made in such detail as will provide valuable quantity information during the entire construction of the building for which it was prepared,—especially in ordering materials, and in checking, handling, and use of materials on the job. This should reduce construction costs considerably by more efficient use and handling of materials and in saving of time wasted while waiting for materials that may otherwise be ordered too late.

The cost of the quantity survey and guaranty premium will be rightfully included as part of the overhead on the job as are accident insurance, and bond premiums, and paid for by the owner as he does other legitimate building costs.

In all trade and industry groups except commercial service, failures in September this year outnumbered those occurring in the same month last year. There was

39—SEWERS

1/24/47 39
Plans in Progress—FWA Funds Allotted
Sewer Facilities
ALTURAS, Calif., Modoc Co.
Owner—City of Alturas, J. Paul McKenney, M. D., Mayor, City Hall, Alturas, Calif.
Consulting Engineer—Fred W. Clayton, Byington Bldg., Reno, Nev.
Includes Unit No. 1 of new sewer system, $25,940; Unit No. 2, $19,400.
FWA funds have been allotted to assist in the preparation of plans, according to an announcement made by Wright L. Felt, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, 630 Sansome St., San Francisco, Calif.

1/24/47 39
Plans in Progres—FWA Funds Allotted in Amount of $1350
Sanitary Sewer System Additions Cost $49,550
KING CITY, Calif., Monterey Co.
Owner—City of King City, James D. Lynn, Acting Mayor, H. F. Cozzens, City Engr., City Hall, King City, Calif
Consulting Engineers — Monterey County Surveyers Inc., 227 Salinas St., Salinas Calif.
FWA advance funds have been allotted to assist in the preparation of plans, according to an announcement made by Wright L. Felt, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, 630 Sansome St., San Francisco, Calif.

40— STREETS AND HIGHWAYS

1/24/47 40
Owner Taking Bids—Due Feb. 4, 9 A. M.
Grading, Bridges
STATE OF OREGON
Owner—Oregon State Highway Commission, Public Service Bldg., Portland, Ore.
Plans by engineering department of owner.
Projects include:
Clackamas County—4.81 miles grading, 5.95 miles surfacing and oiling, and construction of 161-ft. reinforced concrete viaduct with stockpiln gon Eagle Creek-Sandy section of Woodburn-Sandy Secondary Highway.
Clatsop County—.14 mile grading, .48 mile paving and constructing traffic control structures on Astoria section of Columbia River and Oregon Coast highways.
Clatsop County—.99 mile grading and bituminous macadam surfacing and stockpiling on Circle Bridge-Summit section of the Oregon Coast Highway.
Jackson County—1.2 mile grading and paving on Ashland section of the Pacific Highway and curbing, walks, driveways and walks.
Multnomah County—.69 mile grading and paving, five major reinforced concrete structures on Front Ave. section of the Pacific Highway West.
Multnomah County—Widen west end of Rose Island bridge on Front Ave. project in Portland.
Specifications obtainable from the Oregon Highway Commission, State Office Bldg., Salem, Ore., upon payment of $2, refundable.

1/24/47 40
Contract Awarded
Highway Construction Cost $69,816.73
ORMSBY COUNTY, Nev. Between Kings Canyon Creek and Curry St. in Carson City.
Owner—State of Nevada, Department of Highways, Heroes' Memorial Bldg., Carson City, Nev.
State Highway Engineer—Robert A. Allen, Carson City, Nev.
About 2.051 miles (120 working days for completion).
Contractor—Nevada Construction Co., Inc., 646 St. Lawrence St., Reno, Nev.

1/24/47 40
Plans in Progress—FWA Funds Allotted in Amount of $1350
Street Improvements Cost $49,950
KING CITY, Calif., Monterey Co.
Owner—City of King City, James D. Lynn, Acting Mayor; H. F. Cozzens, City Engineer, City Hall, King City, Calif.
Consulting Engineers — Monterey County Surveyors Inc., 227 Salinas St., Salinas Calif.
Includes grading and paving.

SMOOT-HOLMAN
MArket 8474

FWA advance planning funds have been allotted to assist in the preparation of plans, according to an announcement made by Wright L. Felt, division engineer in charge of the Bureau of Community Facilities of the Federal Works Agency, 630 Sansome St., San Francisco, Calif.

1/23/47 40
Owner Taking Bids—Due Feb. 4, 10 A. M.
Grading, Bridges, Etc.
STATE OF WASHINGTON.
Owner—State of Washington Department of Highways, Clarence B. Shain, director of highways, Olympia, Wash.
Plans by engineering department of owner.
Projects include:
(1) Constructing a reinforced concrete pile and flat slab bridge 82 ft. long over Schmidt Creek on the Austin Pass branch of Primary State Highway No. 1 in Whatcom County, a state project, involving lump sum clearing and grubbing, about 430 cu. yds. unclassified excavation, 570 cu. yds. selected roadway borrow, 608 sq. yds. cement concrete pavement, 11,100 lbs. pavement reinforcing, 120 cu. yds. class A concrete, 22,000 lbs. steel reinforcing bars, 900 lin. ft. precast concrete piling, 1.5 M b.m. untreated timber and lumber and other items.
(2) Clearing, grubbing, grading, paving with type I-1 asphaltic concrete and constructing reinforced concrete flat slab bridge on 4.109 miles of P. S. H. No. 5, Muck Creek Hill to junction S. S. H. No. 5-J, in Pierce County, F.A.P. No. F-159 (10), involving about 27 acres clearing, 15 acres grubbing, 60,590 cu. yds. unclassified excavation, 2010 cu. yds. channel excavation, 30,370 cu. yds. selected roadway borrow, 5020 cu. yds. crushed stone surfacing, 13,361 tons asphaltic concrete, 179 cu. yds. concrete, 125 lin. ft. reinforced concrete bridge railing, 42,000 lbs. steel reinforcing bars, 1182 lin. ft. culvert pipe and other items.
(3) Manufacturing and stockpiling ballast, crushed stone surfacing and mineral aggregates on P. S. H. No. 13, Grays Harbor County line to Smith Creek in Grays Harbor and Pacific Counties, a state project, involving about 42,300 cu. yds. ballast in stockpiles, 23,850 cu. yds. crushed stone surfacing in stockpiles and 18,260 cu. yds. crushed mineral aggregates in stockpiles.
(4) Clearing, grubbing, grading, constructing bituminous surface treatment, plant mix type, and constructing reinforced concrete pile and flat slab bridge on 0.36 mile of S. S. H. No. 1-B, Welser Lake bridge and approaches, Whatcom County, F.A.S. No. S-258 (4), involving lump sum clearing and grubbing, 96,930 cu. yds. unclassified excavation, 7100 cu. yds. excavation unsuitable material, 2730 cu. yds. selected roadway borrow, 640 cu. yds. screened gravel surfacing, 670 tons bituminous mixture, 3180 lin. ft. beam guard rail, 77 lin. ft. culvert pipe, 132 cu. yds. concrete, 120 lin. ft. reinforced concrete bridge railing, 27,000 lbs. steel reinforcing bars, 1400 lin. ft. precast concrete piling and other items.
(5) Surfacing with selected roadway borrow, crushed stone surfacing and constructing light bituminous surface treatment on 13.0 miles of S. S. H. No. 4-B, Wilbur South in Lincoln County, F.A.S. 274 (3), involving about 33,670 cu. yds. selected roadway borrow, 12,100 cu. yds. of crushed stone surfacing, 5300 cu. yds. crushed cover stone, 345 tons bituminous cement MC-2 and other items.
(6) Clearing, grubbing, grading, surfacing and constructing light bituminous surface treatment on 0.47 mile of S. S. H. No. 10-D, Chelan River North in Chelan County, F.A.P. No. F-45 (2), involving lump sum clearing and grubbing, about 6,860 cu. yds. common excavation, 26,420 cu. yds. solid rock excavation, 3260 cu. yds. ballast, 1225 cu. yds. crushed stone surfacing, 27 tons bituminous cement MC-2, 105 cu. yds. dry rubble masonry, 1070 cu. yds. structure excavation, 290 cu. yds. concrete, 24,000 lbs. steel reinforcing bars and other items.
(7) Constructing steel girder bridge wit hreinforced concrete deck, 128 ft. long, over Rocky Creek and grading approaches to the bridge on S. S. H. No. 17-A in Skagit County, a state project, involving lump sum clearing and grubbing, 3510 cu. yds. unclassified excavation, 940 cu. yds. selected roadway borrow, 60 cu. yds. special riprap, 248 cu. yds. concrete, 22,000 lbs. steel reinforcing bars, 15,500 lbs. structural steel, 5200 lbs. cast steel, lump sum erecting structural steel and other items.
(8) Constructing a reinforced concrete overcrossing over the Union Pacific Railroad and approaches thereto on Palouse Falls State Park Rd. in Franklin County, a state project, involving about 350 cu. yds. common excavation, 390 cu. yds. solid rock excavation, 250 cu. yds. screened gravel surfacing, 592 lin. ft. beam guard rail, 420 cu. yds. structure excavation, 178 cu. yds. concrete, 187 lin. ft. reinforced concrete bridge railing and 35,600 lbs. steel reinforcing bars and other items.
(9) Grading and surfacing on 3.433 miles of the Bayview-Edison Road, Skagit County Road Project, F. A. S. No. S-113 (1), involving about 2980 cu. yds. common excavation, 26,040 cu. yds. selected roadway borrow, 19,400 cu. yds. crushed stone surfacing, 11 cu. yds. concrete, 607 lin. ft. culvert pipe and other items.
Specifications obtainable from the above office upon payment of $2.

1/15/47 40
Owner Taking Bids—Due Jan. 31, 5 P. M.
Street Improvement
SACRAMENTO, Calif., Sacramento Co., 53rd St. from V St. to 2nd Ave.
Owner — City of Sacramento, H. G. Denton, City Clerk, City Hall, Sacramento, Calif.
City Engineer — Fred Klaus, City Hall, Sacramento, Calif.
Includes concrete curbs and gutters, cast iron gutter drains, and connecting same to sewer system with vitrified ironstone pipe sewer; consisting concrete manhole complete with cast iron curb and cover; grading and constructing an asphaltic concrete pavement 5½ inches in thickness, removing and replacing present asphaltic concrete pavement for sewer; constructing vitrified ironstone pipe sewer.
Unit quantities are:
(1) 1 gutter drain to remove to corpn yard
(2) 2 trees to remove, lump sum
(3) 557 cu. yds. excav. and grading
(4) 1 cu. yd. fill grading
(5) 1 conc. manhole to const.
(6) 165 lin. ft. 8 in. V I sewer pipe to const.
(7) 3 gutter drains cut No. 11 to place
(8) 30 lin. ft. 6 in. V I sewer pipe to const.
(9) 1455 lin. ft. curb and gutter No. 6 to const.
(10) 5500 sq. ft. 5½ in. asph. conc. pavement to place
(11) 20 sq. ft. 5½ in. asphalt conc. pavement to remove and replace.
Specifications obtainable from the above office.

1/10/47 40
Contract Awarded—Highway Reconstruction; Spec. 1510 Cost, $137,173.20
ALTUS PROJECT, Oklahoma. Oklahoma State Highway No. 9, Altus Reservoir, approx. 3 miles east of Granite and 23 miles north Altus.
Owner—U. S. Bureau of Reclamation, Altus, Okla.
Plans by Engrg. Dept of Owner.
Includes earthwork, structures, and surfacing.
Contractor—Stebbins Constr. Co. Tulsa, Okla.

1/22/47 40
Contract Awarded
Street Improvement; Spec. 46-19 Cost $72,790.43
SAN MATEO, Calif., San Mateo Co. Rolling Hills, Juniper Hills and Charles Subdivisions (La Jolla St., 38th Ave., 39th Ave., Leona St., Lola St., Rolling Hills Ave., Hacienda St., 40th Ave., Murray Court).
Owner—City of San Mateo, Wm. J. O'Farrell, city clerk, City Hall, San Mateo, Calif.
Engineer—W. D. Soule, 318 B St., San Mateo, Calif.
Includes grading, paving ,curbs, gutters, sidewalks, storm drain, sanitary sewers, manholes complete with covers, catchbasins, headerboards, street signs and electroller system.
Contractor—L. C. Smith, First and Railroad Aves., San Mateo, Calif.

1/24/47 40
Owner Taking Bids—Due Feb. 6, 2 P. M. (Unit Quantities)
Surfacing, Etc.
NEVADA COUNTY, Calif., Nevada City-Downieville, Tahoe National Forest.
Owner—Public Roads Administration, 4124 No. Marble St., Long Beach, Calif.
Plans by engineering department of owner.
About 2.596 miles. Project Calif. FH-25-C.
Work involves:
(1) extra and misc. force account work
(2) 30 acres clearing and grubbing
(3) 276,000 cu. yds. unclassified excavation
(4) 2290 cu. yds. unclassified excav. for structures
(5) 790,000 sta. yds. overhaul
(6) obliteration of old roadways
(7) 5,500 M. gals. watering of embankment
(8) 650 M. gals. watering of base course
(9) lump sum, provide and maintain water plant or plants
(10) 17,500 cu. yds. selectel borrow base course
(11) 85 tons medium-curing cutback asphalt, Grade MC-1 for prime coat
(12) 20 tons rapid-curing cutback asphalt, Grade RC-2 for seal coat
(13) 2.396 miles (Class C-1 pavement). roadmix surfacing laid
(14) 540 tons medium curing cutback asphalt, Grade MC-3 for Class C-1
(15) debris deflectors
(16) 410 cu. yds. concrete, Class A
(17) 43,500 lbs. reinf. steel
(18) 220 lin. ft. 12 in. corrugated galvanized sheet metal culvert pipe (asphalt dipped)
(19) 464 lin. ft. 18 in. corrugated galvanized sheet metal culvert pipe
(20) 2296 lin. ft. 24 in. do
(21) 58 lin. ft. 30 in. do
(22) 174 lin. ft. 36 in. do
(23) 56 lin. ft. 60 in. 10-gauge corrugated galvanized sheet metal sheet metal culvert pipe
(24) 114 lin. ft. 60 in. 8-gauge do
(25) 1 each 30 in. corrugated galvanized sheet metal culvert pipe elbow
(26) 408 lin. ft. removing, cleaning, and stockpiling or relaying salvaged culvert pipe
(27) 9 each drop inlets, 18 in. size
(28) 2 each drop inlets, 24 in. size
(29) 11 each steel inlet covers
(30) 4 each embankment spillway inlet assemblies (type A, asphalt dipped)
(31) 420 sq. yds. grouted rubble gutter
(32) 42 each right of way monuments, type A
(33) 4 each concrete maintenance marker posts
(34) 35 each timber culvert markers
(35) remove and reset fence
(36) 93 each timber guide posts.
(37) 570 lin. ft. beam type metal plate guardrail.
Plans and specifications obtainable from 723 Phelan Bldg., San Francisco, Calif., upon deposit of $10 and may be examined at 515 Forum Bldg., Sacramento, and at the offices of the Associated General Contractors, 216 Pine St., San Francisco; 707 Architects' Bldg., Los Angeles, and Hotel Golden, Reno, Nev.

1/24/47 40
Contract Awarded
Site Improvements Cost $230,920.65
LONG BEACH, Calif., Los Angeles Co. Between Bellflower and Clark Blvds. and Conant and Wardlow Roads.
Owner—Lakewood Development Co., 4124 No. Marble St., Long Beach, Calif.
Engineers—Adams & Ellis, 207 West Valley Blvd., El Monte, Calif.
Contractor—Hess Constr. Co., 2303 E. Artesia, Long Beach, Calif.

41—GAS, WATER AND OIL PIPE LINES

1/23/47 41
Plans in Progress—Owner Expects To Ask Bids Soon
Water Pipe Line (install)
SHASTA CO., Calif., From Shasta Dam to Toyon.
Owner — Shasta Dam Area Utility District, J. C. Tibbitts, Chairman of board of directors, Stanley Eicock, engineer; Daniel C. Carlton, district engineer, Carter Bldg., Redding, Calif.
Plans by engineering department of owner.

1/23/47 41
Bid Rejected
Water Mains; Spec. 444
SAN FRANCISCO, Calif., Edgehill Way and Kansas Street.
Owner — City and County of San Francisco, Public Utilities Comission, Rm. 287 City Hall, San Francisco, Calif.
Plans by Engrg. Dept. of Owner.
Only bid of $4608 submitted by the San Francisco Water Dept., 425 Mason St., San Francisco, Calif., was rejected.

1/23/47 41
Low and Only Bidders
Water Supply Connection
SAN FRANCISCO, Calif. Golden Gate Park Sewage Treatment Plant.
Owner—Park Commission of City & County of San Francisco, Gerald J Linares, Secretary, McLaren Lodge Golden Gate Park, San Francisco, Calif
Plans by owner.
Bids submitted Jan. 21 as follows: Associated Engineers ,3606 El Camino Real, Palo Alto, Calif., lump sum, $25,000; alt. a, $15,000; alt. b, $7500; alt. c, $19,980; alt. d, $4050.
Arthur Walgren, San Francisco, alt. b, $12,475; d, $8250.
Bids to be held under advisement until Jan. 24

1/23/47 41
Contract Awarded
Steel Pipeline (install Only) Cost $24,550
FAIRFAX, SAN ANSELMO and SAN RAFAEL, Calif., Marin County.
Owner—Marin Municipal Water District, James S. Peters, chief engineer and general manager; B. J. Brusatori, secretary, 874 4th St., San Rafael, Calif.
Plans by engineering department of owner.
Instal lapproximately 12,200 ft. 16-in. steel water main. Pipe, valves and fittings are to be furnished by the owner; 90 days completion time.
Contractor — R. J. Brant, 118 New Montgomery St., San Francisco, Calif.

1/23/47 41
Owner Taking Bids—Due Feb. 13 From Selected List of Contractors
Water Tunnel and Intake
REDONDO BEACH, Calif., Los Angeles County. Redondo steam plant in Santa Monica Bay, approximately 110 ft. north of Redondo breakwater.
Owner—Southern California Edison Co., Purchasing Department, Mr. Henry in charge, 601 W .5th St., Los Angeles, Calif.
Construction Engineer—Stone & Webster Engineering Co., Boston, Mass.
Circulating water tunnel and intake involving two 10-ft. (inside diameter) reinforced concrete intake discharge pipelines spaced at least 25 ft. apart and buried at a minimum depth of 4 ft. below the ocean bottom, extending seaward a distrance of 1360 and 1490 ft., respectively, from mean high tide line.
Plans will be figured by the following selected list of contractors:
American Pipe & Construction Co., 4635 Firestone Blvd., Los Angeles.
Guy F. Atkinson Co., 22233 S. Santa Fe Ave., P. O. Box 259 ,Long Beach.
Ben C. Gerwick, 112 Market St., San Francisco.
Johnson - Western Co., 2100 Wilmington-San Pedro Rd., Berth 115, P. O. Box 6, San Pedro.
Maceo Corp., 815 N. Paramount Blvd., Clearwater.
Pacific Bridge Co., 333 Kearny St., San Francisco.
Raymond Concrete Pile Co., 816 W. 5th St., Los Angeles.
United Concrete Pipe Corp., Box 1, Station H, Los Angeles.
Clyde W. Wood, Inc., 6900 Tujunga Ave., P. O. Box 620, North Hollywood.
Case-Connelly Co., Pier A, Long Beach.

WHO WANTS A POWER-STARVED HOME?

Inadequate wiring makes even a brand-new home a disappointment to its owners.

If one appliance must be disconnected to plug in others, if lights frequently dim, if appliances heat slowly, if fuses burn out, if electricity is wasted —the home is definitely power-starved and the builder may be blamed for having failed to insist on adequate wiring.

The difference between a poor wiring job and an adequate wiring installation in a new home is very small, but means so much to future comfort and satisfaction.

Prevent power-starvation in the homes you build by specifying large enough wire and plenty of outlets and circuits for all present and future needs.

NORTHERN CALIFORNIA ELECTRICAL BUREAU
1355 MARKET STREET
SAN FRANCISCO 3

a sharp rise in wholesale trade and in construction. Failures in the latter group rose from five to seventeen and were more numerous than in any month since November, 1944.

In terms of liabilities, one-half the month's losses were concentrated in manufacturing and one-quarter in construction. They exceeded one million dollars in general building contracting; in only two other individual lines, iron and steel and transportation equipment, did liabilities run above $500,000.

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on February 19, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Butte County, across South Fork Feather River at Bidwell Bar (111-But-1046) a reinforced concrete girder bridge to be constructed.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over 1 cubic yard)	2.25
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oiler power shovels or cranes and less than 8 cubic yards	1.50
Truck driver (4 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Unskilled Labor	
Flagman	1.10
Laborer	1.15

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall not be less than $1.375 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.15 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.15 per hour.

Overtime — one and one-half (1½) times the above rates.

Sundays and holidays — one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineer at Los Angeles and San Francisco, and at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

Plumbers	1.75
Iron Workers, Reinforcing Steel	1.775
Iron Workers, Structural	1.90
Painters	1.50
Sheet Metal Workers	1.75
Any classification omitted herein not less than	1.15
Overtime—One and one-half times the above rates.	

Apprentices may be employed provided they are properly indentured to the Contractor in full compliance with the provisions of Section 1777.5 of the Labor Code.

Contractors who are desirous of securing plans, specifications, and proposal forms for the purpose of preparing and submitting a proposal for this work may do so subject to certain conditions hereinafter stated by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento.

No bid will be considered unless it is made on a blank form furnished by the Division of Architecture, and in whole or in part with Federal Proposals and Conditions set forth under Section 1 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

Highway Improvements—Shasta Co.
STATE OF CALIFORNIA

DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 323, Public Works Building, Sacramento, California, until 2 o'clock p.m. on Thursday, February 13, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the Specifications therefor, to which special reference is made, as follows:

Shasta County; at Redding (11-Sha-20-C), the sub-structure for a bridge across the Sacramento River to be constructed.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate Per Hour
Carpenter	$1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Concrete vibrator operator	1.375
Flagman	1.15
Jackhammer operator	1.375
Laborer	1.15
Oiler, power shovels or cranes	1.50
Operato rof power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.26
Pile driver hoistman or operator	2.10
Pile driver man	1.96
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Any classification omitted herein not less than	1.15
Overtime—One and one-half (1½) times the above rates.	
Sundays and holidays—One and one-half (1½) times the above rates.	

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

3 GOOD REASONS WHY
ERBCO doesn't give a breakdown an even break

A staff of three field servicemen help deliver every major piece of ERBCO major equipment. They field-service the unit for operation, assist and train the operator as well as help make the initial installation.
This Service is FREE

From then on, these ERBCO specialists practice the old, "ounce of prevention is worth a pound of cure" treatment by continually visiting your ERBCO equipment . . . checking its operation and condition . . . seeing that your operator's parts stock is always up to date.

This service, too, is FREE to ERBCO customers.

The advice, suggestions and help of these three ERBCO field servicemen keep old man breakdown away from your job. Chase him off in a hurry if he happens to sneak in.

These ERBCO servicemen are specialists in the maintenance and operation of:

Paving Equipment	Compressed Air Equipment
Excavating & Trenching Equipment	Crushing & Servicing Equipment
Grading Equipment	Diesel and Gas Engines
Concrete Placing Equipment	Pumping Equipment
Road Oil Equipment

GET LION'S SHARE OF 'HALT' ORDERS AGAIN

California again led all states in the number of stop construction notices sent to builders during the month of December for unauthorized construction, James J. Rudden, regional CPA compliance director, said today.

He said the orders affecting 285 projects in California included such structures as a dance hall, a bowling alley, cocktail bars and lounges auto courts, beach homes, and a variety of commercial buildings.

He warned that violators who ignore the "stop" orders face prosecution in federal courts.

Road Program Would Improve 131.94 Miles San Mateo Highways

REDWOOD CITY. — San Mateo County would receive $30,290,000 for 37 road projects, under the 10-year highway construction program being considered by the legislative special session.

Eighteen of the projects are rural surfacing, bridging and divided lane roads; eight are city projects; 11 are freeways and the estimated cost of the last, including rights-of-way, is $14,971,000.

The 10-year program in San Mateo County would take in 131.94 miles. Work, as outlined by the state department of public works, is as follows:

Six-lane divided highway through San Carlos, $130,000;
Six-lane divided highway, Belmont to San Carlos, $54,000;
Six-lane divided highway through Biemont, $210,000;
Six-lane divided highway through San Mateo, $1,040,000;
Six-lane divided highway through Burlingame, $622,000;
Six-lane divided highway, San Bruno to Burlingame, $734,000;
Six-lane divided highway through San Bruno, $441,000;
Six-lane divided highway through South San Francisco, $250,000;
Six-lane divided freeway, from Junipero Serra Boulevard to South San Francisco, $274,000;
Six-lane divided freeway, Colma to intersection of Junipero Serra, extension, $102,000;
Six-lane freeway, Junipero Serra to south city limits of San Francisco, $621,000;
Six-lane freeway, Daly City, $503,000;
Four-lane divided highway, north boundary from Rancho San Mateo to Half Moon Bay Road, $1,015,000;
Four-lane divided highway, south city limits of San Francisco, to 2.5 miles south. $400,000;
Grade and surface Half Moon Bay Road to south county boundary, $1,310,000;
Grade and surface Santa Cruz county line to Finney Creek. $34,000;
Grade and surface Finney Creek to Lake Lucerne, $1,050,000;
Bridge—Cypress Creek, $28,000;
Bridge—Gazos Creek, $33,000;
Bridge—Tunitas Creek, $94,000;
Two- and four-lane highway from one mile south of Lobitas to Montara, $1,438,000;
Four-lane divided highway, Montara to Rockaway Beach, $1,000,000;
Four-lane divided highway, Rockaway to Route 53, $663,000;
Six-lane divided highway through Daly City, $700,000;
Four-lane freeway, Santa Clara County boundary to Redwood City, $1,690,000;
Six-lane freeway through Redwood City, $1,846,000;
Six-lane freeway to San Mateo, $2,134,000;
Six-lane freeway through Belmont $317,000;
Six-lane freeway in San Mateo, $1,483,000;
North city limits of South San Francisco to Colma Creek, six-lane freeway, $759,000;
San Francisco to South San Fran-

GROOVER AND I

A ROSE - - BY ANY OTHER NAME

Eternal vigilance is the price of liberty - - - but we are lulled into slumber by buttery words.

☆ ☆ ☆

A "free and democratic" election was just held in Poland—at the point of bayonets. At the same time the gubernatorial chair of Georgia was stolen by Storm Trooper tactics.

☆ ☆ ☆

We have a good Constitution—but your Constitutional Government has been stolen from you by means more subtle than bayonet and blackjack.

☆ ☆ ☆

"Free trade" and "low tariff" are fighting words in this country. The Congress is supposed to make tariff treaties but one-half of this job has been taken over by the State Department under the title of "reciprocal trade agreements".

☆ ☆ ☆

Congress is supposed to make the agreement when passing out your money in the form of foreign loans. Congress has been raped of that power by setting up a number of Bureaus and then granting these Bureaus five or eight billion dollars of your money with which to "play house". In this way the Import - Export Bank can make loans and call them "granting a line of credit".

☆ ☆ ☆

Mr. Hoover is on his way to Europe to see if we can reduce the 300 million dollars per year it is costing us to feed the Germans.

☆ ☆ ☆

We have just granted Italy 100 million dollars in order to pay Italian reparations to Russia. It is unknown how much we will have to pay for signing other European treaties.

☆ ☆ ☆

We have made a loan of 33 million dollars to Finland — the only European country who has demonstrated that it feels debts should be paid. Finland will want to repay this money but will have nothing left after paying a billion dollars indemnity to her aggressor.

☆ ☆ ☆

This is all very confusing —but so would be a billion dollars—if we had it!

ANNOUNCE INDUSTRY ADVISORY BOARD ON NEW BUILDING CODE

Architect Albert J. Evers, chairman of the committee of representatives from the Building Industry Conference Board, Friday announced selection of the advisory board on the proposed San Francisco building code.

The committee will include: Charles Masten, architect, representing the American Institute of Architects; Frank Kelly, chief, bureau of fire prevention and investigation; Austin W. Earl, representing the American Society of Civil Engineers and the Structural Engineers Association of Northern California; William C. Tait, representing the Associated General Contractors; Paul R. Babcock, of the G. M. Simonson Co., representing the American Society of Heating, Ventilating Engineers; Carl Gellert, of the Associated Home Builders; J. F. Cuputill, engineer, acting as secretary; Wm. H. Popert, chairman of the board.

Formation of a five-man "board of experts" was authorized by the board of supervisors judiciary committee January 15, after members of the idnustry vehemently protested passage of the lengthy ordi- ...ds that some of its provisions were maximum, rather than minimum, requirements.

Warren Asks Legislature to Establish Fund To Obtain Surplus Materials for Veterans

"A Good Step—If It Means Anything," Say Bay Area Home Builders

SACRAMENTO.—Governor Earl Warren asked positive action on veterans housing Friday through a million dollar appropriation by the Legislature.

In a letter to the Assembly, the Governor said the appropriation would be a revolving fund for purchase of building materials by the state for resale to veterans or builders employed by veterans of any federal surplus property which might be used for construction of housing facilities in California.

As an emergency measure, the appropriation may be authorized by the Legislature without waiting for passage of the state budget bill which is due in several months.

The plan's success reportedly is based upon quick sales to veterans or their builders. The state government has a higher priority on surplus war goods than individual veterans, and could handle large overall purchases, whereas veterans generally cannot.

Upon passage, the $1 million would be immediately available for state purchase of building materials.

The governor's proposal did not get the wholehearted support of San Francisco home builders, who described it merely as "a nice gesture, but one that does'nt mean much."

Milton W. Morris, executive secretary of the San Francisco Association of Home Builders, discounted its possible value on two scores.

The legitimate builder of veterans' homes, he said, does not need the financial backing that the legislation provides for obtaining building supplies; and further, builders in his association have complete information on sales of war surplus goods and no difficulty in obtaining materials through the war assets administration.

"You do not really need priorities for much of that stuff right now," he declared. "I believe that state officials will find that the war assets administration are advertising constantly in the newspapers to have people purchase their goods."

He said home builders were buying as much surplus goods as they could use, and it goes right into veterans housing "where it should go."

George H. Sharp, executive vice-president of the Home Builders Association of Alameda County, Inc., concurred in Morris' views, but added that home builders would welcome sincere cooperation of the state and federal governments.

Offering a tentative, personal opinion, he said appropriation of a nominal sum to build emergency, temporary rental housing "until sufficient labor and materials are available to build the permanent houses we need at reduced costs", would be one action the industry would accept enthusiastically.

He stressed a belief that state and federal action is in order in the field of temporary housing, but that participation of either in permanent housing construction is more costly than private building and "is an added burden to the taxpayers".

He asserted that some federal projects had been as much as a third higher in cost than privately financed housing projects under the same conditions, and urged that any trends toward socialized housing in California be checked.

Sharp said that in his opinion, materials should continue to be obtained through the regular channels, rather than "entering into competition with private enterprise."

Such a program in obtaining materials, he said, "may tend to delay the steady flow of materials that is beginning now."

#

CHANGE NAME

Petroleum Equipment Company announced this week that its corporate name has been changed to Bethlehem Supply Company of California.

Multi-Million Dollar Development Planned, Grading Is Underway

Construction of a $25 million high-class residential and retail shopping area in southwest San Francisco will go forward this summer, it was announced last weekend.

The development will be undertaken by the Standard Building Company, 1500 Judah, of which Carl and Fred Gellert are co-partners.

Approximately 1500 homes to house five thousand persons will be built. Homes ranging in cost from $7500-$10,000 will be built in the Parkside area, $10,000-$20,000 in the Pinelake Park area, and $15,000-$50,000 in the Lakeshore Park area.

General location of the entire project is the area bounded and bisected by Sloat Boulevard, Sunset Boulevard and Lake Merced Boulevard. Grading of the site is underway by the owners, and utilities and street work contracts are expected to be let in three or four months.

General construction will be by the owners, but such work as plumbing and electrical installation and plastering will be subcontracted. Preliminary sketches have been prepared by the owner's architectural designers, but final plans will be drawn by outside architects.

Construction of the retail shopping district is expected to cost $1,500,000. One of its most attractive features is a provision for off-street parking areas so worked out that a store containing 1,000 square feet of floor space will have a 1500 square feet parking area.

Included in the shopping district will be a 1000-seat theatre, a super market covering three quarters of an acre, a drug store, bakery, paint stores, shoe repair shop.

#

WOULD TIGHTEN HOTEL, APARTMENT FIRE RULES

SACRAMENTO.—Thousands of dollars of new business for building contractors would be created should a bill introduced in the assembly this week by Assemblyman W. H. Rosenthal (d., Los Angeles) be passed by the 1947 Legislature.

The measure proposes a tightening of state regulations for hotels and apartment houses which would require two safe means of egress, enclosed shafts and stairways, fire doors, automatic sprinkler systems where combustible materials are stored, alarm systems and fire-resistant decorations in public rooms and hallways.

Assemblyman Julian Beck (d., San Fernando) presented a bill which would levy a ten dollar a year tax on large hotels to provide funds for fire-prevention work.

#

HEATING MEN ELECT DAN HAYES, RODONI

Daniel Hayes was elected president of the Heating, Piping and Air Conditioning Contractors Association recently at an annual meeting attended by nearly 300 members.

A. C. Rodoni was elected treasurer. The new secretary is C. N. Gilley. G. A. Sweeney will serve as vice-president during 1947.

Elected to the association board of directors were T. C. Douglass, E. C. Braun, J. B. Nettles, and E. L. Nattkemper.

PLANS and Speculations

On March 15, exams for state positions as assistant structural engineering draftsman ($310-$370) and junior structural engineering draftsman ($250-$310 will be held. Both positions require college graduation with major work in civil engineering, and two years' professional experience.

oOo

Examinations March 18 will be held for an assistant forestry engineer ($295-$355) and a special representative for the state department of public works ($425-$505). The forestry position requires college graduation with a civil engineering major, and two years' professional experience. The DPW job prerequisities are high school graduation and five years' public relations experience.

oOo

Establishment of a hospital in Centerville was discussed Tuesday night at a mass meeting.

oOo

Revisions proposed in the makeup of the city planning commission, if adopted by the San Francisco board of supervisors, would be put to a vote at the next election. Revisions would add to the present five lay member commission the chief administrative officer and the manager of utilities with full voting powers.

oOo

Proposals for a small boat refuge harbor at Trinidad were the subject of an army engineers' hearing in Humboldt county last week. The project is estimated to cost $750,000.

oOo

Oakland men named to the board of directors of the Northern California chapter, AGC, are Talbot D. Bailey, Geo. C. Loorz, and Gordon H. Ball.

oOo

The state highway commission has approved spending $300,000 to expand toll gate facilities on the San Francisco-Oakland Bay Bridge in an attempt to relieve present traffic congestion.

#

WOULD DONATE CITY LAND FOR VET HOMES

Supervisor Marvin E. Lewis has proposed that San Francisco sponsor a non-profit corporation which would build 600 homes, amortize a six and a half million dollar loan, and become self-supporting in 30 to 40 years.

He proposed the project to a committee of the board of supervisors, who agreed to consider it and present a plan to financiers Friday. Under the proposal, approximately ten acres of city-owned land would be donated to the veterans' project and would be tax free for five years. Homes would rent at $50 a month.

#

ARCHITECTS HOLD ANNUAL ELECTION

Albert LeRoy, of the LeRoy Service will discuss the advantages of quantitative surveys for competitive bidding when the Northern California chapter of the American Institute of Architects meets Tuesday evening.

The annual election of officers and directors will be a feature of the 6 o'clock meeting at the St. Julian Cafe, 140 Battery.

Retiring officers and directors are Andrew T. Haas, president; Hervey P. Clark, vice-president; Ernest Born, treasurer; John S. Bolles, secretary, and William C. Ambrose and Norman K. Blanchard, directors. William Knowles is a holdover director, having one more year to serve.

OLSON GETS CONTRACT

The $3,406,000 contract for construction of the 152-bed general medical veterans administration hospital at Grand Junction, Colo., has been awarded to Olson Constr. Co., Inc, 250 East First, South. P. O. Box 366, Salt Lake City.

Award came as a result of lengthy negotiations, following first opening of bids on November 26. Twenty months is allowed for completion of the entire hospital installation consisting of a main building, 11 auxiliary buildings, utilities, roads, walks, parking areas and appurtenant facilities.

Army engineers recently announced that they expect to have 32 Veterans Administration hospitals under contract for construction by June 30, 1947.

Senator Taft Tells Revised Points in Controversial Bill

WASHINGTON, Jan. 21.— Sen. Robert A. Taft's proposed revision of the Wagner - Ellender - Taft bill, calling for construction of 125,000 public housing units per year for the next four years, was under close study by industry circles here today.

Indications were growing that opposition will be forthcoming even more vigorous than that which tabled the original W-E-T bill in the House last year, after the measure had been passed by the Senate.

ure had been passed by the Senate.

Addressing the mayor's conference here, Taft said his revised bill will provide housing—with federal subsidies—for a total of 500,000 families in the "bottom 20 per cent" of the nation's income brackets.

Predicting favorable action from Congress on the measure, the Republican leader voiced the belief, however, that public housing should be limited to one-tenth of all dwelling unit construction.

#

SHIER IS ASSISTANT BUILDING INSPECTOR

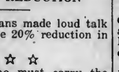
SAN JOSE.—Orville P. Shier has been appointed assistant Santa Clara County building inspector. He is a civil engineer graduate of the University of Washington and spent four years with the U. S. Army engineering department in Hawaii.

GROOVER AND I

20% TAX REDUCTION

The Republicans made loud talk of an immediate 20% reduction in personal taxes.

☆ ☆ ☆



The boys who must carry the water for the GOP elephant are now beginning to take a second look at that brave promise.

☆ ☆ ☆

The late Wendell Wilkie referred to some of his own brash remarks as "campaign oratory." If the GOP reneges on that 20% promise they may cite good Democratic precedent. When first campaigning for the Presidency the late FDR made the firm promise that, if elected, he would reduce Government spending by 25% and would hold Government expenses within income.

☆ ☆ ☆

A depot platform and political platform are much alike—you only use them for getting on the train!

5-Point Fire Safety Plan Is Recommended

A five-point program for effective fire prevention was suggested this week by Fire Commissioner James J. Sullivan at a meeting of the Special Fire and Safety Committee of the San Francisco Chamber of Commerce, it was announced Monday.

The fire comissioner listed five essential points for effective fire prevention:

1. Revision of the Fire Code.
2. Education of the public.
3. Wide publicity of the subject.
4. Installation of fire doors and exits that work.
5. Enclosure of elevator shafts and more extensive use of fireproofing material.

Chief Martin J. Kern expressed the hope that telephone wires by use of thermostats might automatically turn in fire alarms.

Bert W. Levit, of Long Beach, Cunningham & White, has been appointed chairman of the San Francisco Chamber of Comerce special fire safety committee.

Twelve men were appointed to the committee. Among these are J. Francis Ward and Harry Michelsen, architects; John J. Conlon, Wells Fargo Bank; Chas. Dreifus, Industrial Capital Corporation, and Loren Bush, board of Fire Underwriters of the Pacific.

#

ACCOUNTANTS MEET IS TUESDAY NIGHT

Verne Breitenbucher, of Los Angeles, will address the San Francisco chapter of the National Association of Cost Accountants on "Controlling Office Costs", Tuesday evening.

Formerly with General Motors and Lockheed Aircraft, he is now a partner in the firm of Stewart, Breitenbucher, Lowe and Associates, of Los Angeles, which specializes in balanced control methods.

Federal income tax changes made during 1946 will be the subject of a discussion by Alfred Kayser, public accountant.

#

SUBMITS SITE SKETCH

Kenneth F. Jones, planning consultant, has submitted a site sketch for a southerly trans-Bay bridge to the army-navy board.

This span would extend from Army Street and Potrero Avenue to terminals in Oakland and Alameda.

Fleming Denounces Use of Grandfathers' Construction Techniques, Crippling Codes

WASHINGTON.—Construction in 1947 of not less than a million dwelling units should be possible with enough materials left over for a sizable value of non-residential construction, Major General Philip B. Fleming, administrator of the Federal Works Agency and the Office of Temporary Controls, declared today.

Speaking before the 21st Women's Patriotic Conference on National Defense in the Hotel Statler, General Fleming referred to the 650,000 new dwelling units be-gun last year under the veterans' housing program, praised the job done by Wilson Wyatt, former housing expediter, and declared that "650,000 houses are a mere drop in the bucket compared with the actual need."

"It has been estimated," he said, "that at least a million houses a year for 20 years should be built to replace those obsolete and unfit and take care of a growing population if our people are to be housed in reasonable decency and comfort. Only a well-fed, healthy, well-housed nation will be a strong nation."

General Fleming asserted that last year's material shortages were now being rapidly overcome and that the controls in effect in 1946 limiting non - residential construction to 35 millions a week in dollar volume had been relaxed somewhat by the Office of Temporary Controls.

"We shall at all times, however, maintain a safe margin for housing," he said, "and not until we are sure that no more materials can be used for dwelling units will additional commercial construction be permitted.

"But much non-residential construction is important to housing itself. Houses in urban areas cannot be lived in until sewer, water, gas and electrical connections have been made, and new housing developments bring a need for new schools for children, additional hospital facilities and some commercial building to provide necessary shopping and recreational facilities.

'Methods Obsolete'

"How many of the new homes to be built in 1947 will be within the financial reach of war veterans, either to purchase or to rent, remains problematical," Gen. Fleming continued. "Building costs are high, and while we expect some decrease later in the year, home-ownership is likely to remain an unattainable luxury for most of the veterans.

"We may expect some indirect relief for persons of modest means, including the former G I, however, as the well-to-do move into new homes, making their old quarters available on a rental basis to others. This isn't exactly what we have in mind when we talk about solving the veterans' housing problem, but it is probably the best that can be done in the immediate future.

"If we really want to house all of America in decent comfort certain alternatives suggest themselves. We might, for instance, try to bring about a reorganization of the construction industry, still using the techniques of our grandfathers, to reduce the cost of home building, and revise our building codes to remove purely arbitrary restraints at a time when the need for living space is so great."

'Assembly Techniques'

General Fleming referred to the 60,000 dwelling units built early in the war by the Federal Works Agency under the Lanham Act at an average cost of $4,600, and which, he estimated probably would cost now, with higher materials and labor costs, about $6,500.

"Even so," he said, "that would be about half the price of the $12,000 house which seems to be becoming standard. We shaved costs by using modern mass-production techniques. Private industry might also do that.

"Surely it is time to make up our minds whether we are really

(Continued on Page 7)

Interior's Power Output 7% National Total—Goldschmidt

The generating plants from which the department of the interior markets power delivered 15 billion kilowatt hours of saleable energy, or over seven percent of the national total, during the fiscal year ended June 30, 1946, Director Arthur Goldschmidt reported to Secretary of the Interior J. A. Krug in the annual report of the division of power made public today.

At the present time the department operates and markets power from the largest aggregate of hydroelectric capacity in the world, including dams built and operated by the United States Corps of Engineers of the war department. In 1940 the capacity of all hydro-electric plants in the United States was 11,675,300 kilowatts. As of June 30, 1946, the installed capacity of such plants was 14,911,617 kilowatts, of which amount 3,107,-200 kiowatts, or approximately 21% came under the jurisdiction of the department of the interior.

During the year the plants of the three major power agencies of the department, the Bonneville Power Administration, the bureau of reclamation and the Southwestern Power Administration, generated 14,914,034,992 kilowatt hours.

Goldschmidt said that while there was a curtailment during the year in the use of electrical energy due to the closing of the many war plants which used vast quantities in the production of aluminum, magnesium, and other light metals arrangements were under way to put many of these plantsback into operation on a peacetime basis. He also said that instead of there being a surplus of power the indications were that there would be an actual shortage in many areas .

Goldschmidt stated that all power marketed by the department is disposed of in compliance with the federal power policy which is, in effect, that the benefits of this power shall not be monopolized by limited groups, but shall be widely distributed so as to enhance the domestic, agricultural and industrial phases of the national economy.

The text of the division of power's annual report will be issued in complete form, together with the other annual reports of bureaus and offices of the department, in the near future.

#

WOULD SCRAP BIDDING ON VITAL STATE WORK

SACRAMENTO. — Following a meeting of contractors and legislators with Finance Director James S. Dean and State Architect Anson Boyd, state officials have decided to ask the Legislature to abandon competitive bidding because "the postwar construction program is completely stymied by high building costs."

Officials will ask the Legislature to authorize fixed fee or cost plus contracts to proceed with critical state construction projects. Urging that only most necessary projects be undertaken, Architect Boyd said bids on advertised projects had been rejected repeatedly because bids exceeded state estimates.

FHA PERMITS GRANTED

SAN FRANCISCO, Calif.—Federal Housing Administration, D. C. McClennen, district director, 815 Montgomery St., San Francisco, Calif., has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants as noted:

1 UNIT at San Jose, Charles A. LeTarte, Jr., 47 Victory Village, San Jose.
1 UNIT at Napa; W. W. Landegrebe, 2227 York St., Napa.
4 UNITS at Redwood City; Eden W. Tank, 214 Lexington Ave., Redwood City.
1 UNIT at Fresno; W. J. Michael, 3650 Alta Ave., Fresno.
1 UNIT at Redding, H. Clydes Amesbury, 1752 Chestnut St., Redding.
1 UNIT at Sharp Park; John McHugh, Brighton Road, Sharp Park.
1 UNIT at Manteca; G. W. Farley, 114 E. Miner St., Stockton.
9 UNITS at San Anselmo; Earl R. Rands, 690 Market St., San Francisco.
1 UNIT at Sacramento; Merritt L. McCrary, 3915 39th St., Sacramento.
1 UNIT at Menlo Park; Francis J. Foster, 1441 Franks Lane, Menlo Park.
1 UNIT at Visalia; L. O. Nelson, general delivery, Visalia.
8 UNITS at Stockton; T. E. Williamson, 1220 San Juan Ave., Stockton.
6 UNITS at San Francisco; E. W. Perkins & Sons, 425 Taraval Street, San Francisco.
9 UNITS at Monterey; Durbin Sayers, 457 Tyler, Monterey.
9 UNITS at Lomita Park; Hills Development Co., 543 El Camino Real, Lomita Park.
1 UNIT at Palo Alto; John Christianson & Sons, Palo Alto.
1 UNIT at Stratford; Wm. A. Ridev, Stratford.
1 UNIT at Oakland; Richard H. Lincoln, Oakland.
10 UNITS at San Anselmo; Columbus L. Pierce, 350 Sir Francis Drake Blvd., San Anselmo.
9 UNITS at San Jose; P. Fennell, 1527 Hisk Ave., San Jose.
9 UNITS at Sacramento; S. Bacchi, 2904 "S" St., Sacramento.
12 UNITS at Sacramento, John Fernandes, 1716 28th Ave., Sacramento
1 UNIT at Kenwood; Albert Wulff, Box 47, Kenwood.
1 UNIT at El Cerrito; A. T. Wanless, 2725 San Pablo Ave., El Cerrito.
83 UNITS at Fresno; Claude T. Lindsay, Inc., 564 Market Street, San Francisco.
1 UNIT at Oakland; Skovmand Bros. 3927 Brookefield Ave., Oakland.
120 UNITS at Oakland; C. H. McIntyre, 1404 Franklin St., Oakland

Contractor — Olson Construction Co., 250 E. 1st S., P. O. Box 366, Salt Lake City, Utah, $3,406,000

This little guy faces a BIG JOB here in CALIFORNIA

Young 1947 arrived wearing working togs, with his sleeves rolled up. He found a muscle-bulging job ahead of him . . . in construction, increased business and industrial expansion.

He found nearly 9,000,000 residents in California, including more than a million new workers who came West with the wartime growth of industry. They are staying in California because industrial expansion is continuing. P. G. and E. contributed effectively to this continued growth by advertising California's opportunities nationally and setting up a staff of experts to help furnish business and industrial firms the facts about locating in this area.

We are going places in the West, and P. G. and E., looking to the future, again is building ahead of demand. Little Man 1947 is hard at work for us—on a $300,000,000 construction program to serve the growing needs of a greater California.

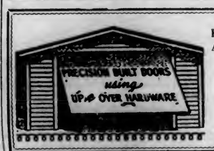
31-32—WATER SUPPLY & SEWAGE DISPOSAL PLANTS

1/28/47 31
Low and Only Bidders
Steel Penstocks; Spec. 1601
Cost $508,500
DAVIS DAM PROJECT, Arizona-Nevada. Davis power plant, approximately 20 miles west of Kingman, Ariz.
Owner—U. S. Bureau of Reclamation, Box 672, Kingman, Ariz.
Plans by engineering department of owner.
Includes five 22-ft. diameter welded plate steel penstocks, including field welding and radiographing of girth joints, complete with supports, piezometer connections, drain connections and appurtenances.
Low Bidder—Western Pipe & Steel Co., 5717 Santa Fe Ave., Los Angeles, Calif., and 200 Bush St., San Francisco, Calif., $508,500.
Other bids were:
Chicago Bridge & Iron Co., Los Angeles, $535,800.
Southwest Welding & Manufacturing Co., Alhambra, Calif., $674,800.

33— BRIDGES

1/28/47 33
Owner Taking Bids—Due Feb. 26, 2 P. M.
Bridges (Widen), Grading and Paving
SANTA BARBARA COUNTY, Calif. Between Sheffield Drive and San Ysidro Road.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 1.3 miles grading and paving with asphaltic concrete on cement treated base and widening of three reinforced concrete bridges.
The work involves:
(1) 2250 cu. yds. remove concrete;
(2) 68 sta. clearing and grubbing;
(3) 26,500 cu. yds. roadway excavation;
(4) 14,000 sq. yds. compact original ground;
(5) 1500 cu. yds. structure excavation;
(6) 1000 cu. yds. ditch and channel excavation;
(7) 27,000 tons imported borrow, type A;
(8) 49,000 tons imported borrow, type B;
(9) 24,000 sq. yds. cultivating planting areas;
(10) develop water supply and furnish water equipment;
(11) 2250 M gallons apply water;
(12) 68 sta. finish roadway;
(13) 11,000 tons minimum aggregate cement-treated base;
(14) 5150 bbls. portland cement, cement-treated base;
(15) 60 tons asphaltic emulsion paint binder, curing seal and seal coats;
(16) 20 tons liquid asphalt SC-2 prime coat and penetration treatment;
(17) 180 tons liquid asphalt SC-5 or SC-6 plant mix surfacing;
(18) 3000 tons minimum aggregate plant mix surfacing;
(19) 25 lin. ft. raised bars;
(20) 3650 tons asphaltic concrete leveling course;
(21) 3000 tons asphaltic concrete type B surfacing;
(22) 90 lin. ft. remove timber bridge railing;
(23) 145 lin. ft. timber bridge railing;
(24) 640 cu. yds. class A portland cement concrete structures;
(25) 600 lbs. cast steel frames and covers;
(26) 70 cu. yds. rubble masonry;
(27) 98,500 lbs. bar reinforcing steel;
(28) 40 each expansion anchor bolts;
(29) 200 lbs. steel angles curb inlets;
(30) 370 cu. yds. class A portland cement concrete curbs;
(31) 26 each red reflectors;
(32) 55 each monuments;
(33) 40 each culvert markers and guide posts;
(34) 690 lin. ft. metal plate guard railing;
(35) 0.5 mile remove and reconstruct existing property fences;
(36) 99 lin. ft. 12-in. CMP, 16-gage;
(37) 220 lin. ft. 18-in. CMP, 16-gage;
(38) 10 lin. ft. 24-in. CMP, 14-gage;
(39) 6 0lin. ft. 18-in. CMP siphon, 16-gage;
(40) 2 each field joints for siphons;
(41) 420 lin. ft. salvage existing pipe culverts;
(42) 220 lin. ft. relay salvaged CMP;
(43) 55,000 each ice plants;
(44) furnish and install flashing light system;
(45) miscellaneous items of work.
Specifications obtainable from the above office.



1/28/47 33
Owner Taking Bids—Due Feb. 26, 2 P. M.—Bridge and Approaches
TULARE COUNTY, Calif. At Yokohl Creek, about 4 miles north of Exeter.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Steel beam span bridge and grading and surfacing of approaches.
Work involves:
(1) 150 c.y. remove concrete;
(2) clear and grubb;
(3) 160 c.y. rdwy. excav.;
(4) 600 c.y. struc. excav.;
(5) 5,800 c.y. import borrow;
(6) develop water supply and furnish water equipment;
(7) 460 M. gals. apply water;
(8) 24 sta. finish rdwy.;
(9) 10,500 s.y. prepare. mix and shape surf., bit. surf. treatment;
(10) 90 tons la. asph. SC-3;
(11) 45 c.y. light stone riprap;
(12) 538 l.f. timber bridge railing;
(13) 436 c.y. Class A portland cement concrete;
(14) 206,000 lbs. furnish struc. steel;
(15) 206,000 lbs. erect do;
(16) 1,800 l.f. furnish steel piling;
(17) 60 each drive steel piles;
(18) 60 each steel pile splices;
(19) 78,000 lbs. furnish bar reinf. steel;
(20) 78,000 lbs. place do;
(21) 0.6 mile remove and reconstruct existing fences;
(22) 4 each monuments;
(23) construct detour;
(24) misc. items of work.
Specifications obtainable from the above office.

1/28/47 33
Owner Taking Bids—Due Feb. 26, 2 P. M.—Bridge and Approaches
TULARE COUNTY, Calif. Across White River 4 miles, about 2 miles north of Earlimart.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Work involves:
(1) 75 c.y. remove concrete;
(2) 75 c.y. struc. excav.;
(3) 320 c.y. ditch and channel excavation;
(4) 1,800 c.y. import borrow;
(5) develop water supply and furnish water equip.;
(6) 155 M. gals. apply water;
(7) 8 sta. finish rdwy.;
(8) 500 tons untreated rock base;
(9) 2 tons asphalt emulsion, paint binder and seal coat;
(10) 500 tons min. agg., plant mix surfacing;
(11) 27 tons pave asph., plant mix surfacing;
(12) 2 tons liq. asph. MC-2, prime coat;
(13) 155 l.f. timebr bridge railing;
(14) 155 c.y. Class A portland cement concrete;
(15) 840 l.f. furnish conc. piling;
(16) 24 each drive piles;
(17) 28,500 lbs. bar reinf. steel;
(18) misc. items of work.
Specifications obtainable from the above office.

1/28/47 33
Owner Taking IBds—Due Feb. 26, 2 P. M.—Bridges, Grading, and Surfacing
NAPA and LAKE COUNTIES, Cal. Between 0.1 mile southerly and 1.5 miles northerly of the Napa-Lake county line.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Includes about 0.8 mile (net length) grading, placing road mix surf. and constructing two bridges.
Unit quantities will be given tomorrow.

1/28/47 33
Owner Taking IBds—Due Feb. 26, 2 P. M.—Underpass, Grading, and Surfacing
PLACER COUNTY, Calif. Bet. Wise Canal and Rock Creek.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 1.9 miles grading and surfacing with crusher run base and plant mix surfacing; constructing an underpass and widening an existing bridge.
Unit quantities will be given tomorrow.

34—DAMS, RESERVOIRS & DREDGING

1/28/47 34
Owner Taking Bids—Due About March 20
Dorena Dam and Spillway Cost $5,740,000
DORENA, Ore., Lane Co. 6 miles southeast of Cottage Grove.
Owner—U. S. Engineer Office, Col. O. E. Walsh, District Engineer, 628 Pittock Block, Portland, Ore.
Plans by owner.
Earthfill type structure with crest length of 4650 ft. and storage capacity of 79,000 acre feet of water; completion time: 1200 calendar days.
Major quantities are:
(1) 473,000 cu. yds. excavation (common, solid rock, channel);
(2) 2,932,500 cu. yds. embankment;
(3) 15,000 M gallons sprinkling;
(4) 180,575 cu. yds. concrete;
(5) 1,375,000 lbs. steel reinforcing;
(6) 4,000,000 cu. yds. borrow excavation;
(7) 214,000 cu. yds. stripping.
Plans and specifications will be available from the above office upon deposit of U. S. money order or certified check, payable to the Treasurer of the United States in the amount of $25.

1/28/47 34
Owner Taking Bids—Due March 3, 10 A. M.—Earthwork, Structures and Surfacing; Spec. 1667
CENTRAL VALLEY PROJECT, Cal. Shasta Dam to Summit City Highway and Shasta Dam left abutment parking area, from 10 to 14 miles north of Redding.
Owner—U. S. Bureau of Reclamation, Redding, Calif.
Completion time 300 calendar days.
Plans by Engrg. Dept. of Owner.
Work involves:
(1) clearing 45 acres of right of way
(2) 500,000 c.y. common excav. for roadway and parking area;
(3) 400,000 c.y. common excav. for do
(4) 4,000,000 sta. c.y. overhaul;
(5) 4,000 M. gals. watering;
(6) 600 roller hours rolling embankments;
(7) 4000 c.y. of common excav. for structures;
(8) 4000 c.y. rock excav. for do;
(9) 200 c.y. excav., all classes, for trail;
(10) 550 c.y. common excav., for pipe trenches;
(11) 1650 c.y. rock excav. for do;
(12) 7400 c.y. backfill;
(13) compacting 5600 c.y. backfill;
(14) 300 s.y. dry-rock paving;
(15) placing 600 c.y. gravel bedding;
(16) laying 90 l.f. 12-in. diam. corru. metal pipe;
(17) laying 520 l.f. 18-inch do;
(18) laying 1920 l.f. 24-inch do;
(19) laying 620 l.f. 30-inch do;
(20) laying 1000 l.f. 36-inch do;
(21) laying 860 l.f. 42-inch do;
(22) laying 480 l.f. 48-inch do;
(23) laying 520 l.f. 4-in. diam. sewer pipe drains with cemented joints
(24) laying 520 l.f. 10-inch do;
(25) laying 800 l.f. 12-inch do;
(26) laying 560 l.f. 15-inch do;
(27) laying 230 l.f. 18-inch do;
(28) laying 140 l.f. 21-inch do;
(29) laying 450 l.f. 24-inch do;
(30) 1140 c.y. concrete in parapets;
(31) 1250 c.y. concrete in sidewalks, curbs and gutters;
(32) 55 c.y. concrete in flagpole shelter footings;
(33) 85 c.y. do, except footings;
(34) 50 c.y. concrete in left abutment drainage structures;
(35) 510 c.y. concrete in highway culverts;
(36) placing 282,000 lbs. reinf. bars;
(37) placing 2200 s.f. joint filler;
(38) installing 37,000 lbs. of lawn sprinkler system;
(39) 300 c.y. rubble masonry walls;
(40) 120 s.y. grouted paving gutters;
(41) furnishing and placing granite flagpole base, lump sum;
(42) furnishing and installing flagpole, lump sum;
(43) installing 9000 lbs. misc. metalwork;
(44) manufacturing and placing 120 highway monuments;
(45) placing 20 highway culvert markers;
(46) placing 350 highway guide posts
(47) erecting 20,000 l.f. of steel plate guardrail;
(48) 26,500 tons of crusher-run base course;
(49) applying 95 tons of liquid asphalt prime coat;
(50) 11,150 tons of oil-treated wearing surface for roads;
(51) 25 tons of do for trail;
(52) applying 95 tons liq. asph. seal coat;
(53) 900 tons stone chips for seal coat
(54) finishing 220 sta. of roadway;
(55) removing 1,500 l.f. of existing guardrail;
(56) installing 500 l.f. electrical metal conduit, 1¼-in. or less in diameter;
(57) installing 12,000 lin. ft. of electrical metal conduit, 1¼-in. or more in diameter;
(58) installing 300 lbs. of electrical ground wires.
No charge to prospective bidders for copies of the specifications and drawings; to others, $2.50 per copy, not returnable.
Copies of the standard forms and of the specifications may be obtained from the following offices of the Bureau of Reclamation: Walker R. Young, Chief Engineer, U. S. Customhouse, Denver 2, Colo.; R. L. Boke, Regional Director, P. O. Box 2511, Sacramento 10, Calif.; I. C. Harris, Acting Construction Engineer, Redding, Calif., and Michael W. Straus, Commissioner, Bureau of Reclamation, Washington 25, D. C.
Prospective bidders desiring to visit the site of the work should communicate with the Acting Construction Engineer.

'Antiquated Methods'

(Continued from Page 1)

serious when we say that every veteran— or any other American, for that matter—is entitled to be houses in decent comfort. And in the process I hope we shall not allow our vision to become clouded by stereotype phrases.

'Need Open Minds'

"Such expressions as "The American way,' "The free-enterprise system,' "No Government competition with private business,' are useful on occasion, but not when they are used as substitutes for thinking. With respect to housing we have a problem to think through and it will not help to strew the path with verbal road blocks. If we are to find a solution to this as to other difficult problems, we shall need open minds and probably a willingness to experiment."

PLANS and Speculations

The Fullerton union high school and junior college district today was advanced $23,550 to finance preparation of drawings and specifications for a high school classroom building at Fullerton, estimated to cost $514,292.

oOo

Hawthorne school district No. 7 of Mineral County, Nev., was advanced $4500 to finance plans for elementary school additions at Hawthorne, estimated to cost $87,000.

oOo

The Oakland Chamber of Commerce will press for construction of a union passenger station there. It is one of 21 points listed for the 1947 year.

oOo

Tentative plans for a yacht harbor in Hroderick to cost about $50,000 were outlined by Harold Penney, Bryte, when he appeared before the county supervisors seeking purcase of a half-block of county-owned property along the levee.

oOo

Supervisor Lewis' plan for building vets homes through a nonprofit corporation on land donated by the city has received the endorsement of veterans organizations, builders and the mayor's emergency housing committee.

oOo

Oakland's city council has rescinded its resolution of intention to build a four-foot center strip to divide traffic lanes between MacArthur Boulevard and Piedmont Avenue, after vehement protests were made by Broadway businessmen.

oOo

A public hearing will be held February 18 on plans for a new bridge across Three Mile Slough near Rio Vista.

oOo

The State of Arizona has gone on record as opposing any change of its existing rights to Boulder Dam power.

#

FOLLIN PREDICTS 30% VOLUME JUMP

CHICAGO. — James W. Follin, assistant administrator of the Federal Works Agency, predicted a total construction value in 1947 of about 13 billion, 300 million dollars, before a convention of the National Crushed Stone Association.

He said that estimates indicate a 30 per cent increase over 1946 construction value, and added that the estimate takes in highway construction, home, commercial, and federal building construction, airport development, dams, reclamation, river and harbor work, railroads, utilities and military projects.

#

MONTEREY SCHOOL BILL INTRODUCED

WASHINGTON. — Representative Jack Z. Anderson (r., Calif.) has introduced legisation to authorize a $27,750,000 naval postgraduate school at Monterey. The legislation was requested by the Navy Department.

An identical bill has been introduced in the senate by Senator Gurney (r., S. D.), chairman of the senate armed services committee. Both the senate and house committees on armed forces must approve the legislation before it comes up for consideration in either chamber.

#

ROBERTS APPOINTED

WASHINGTON—H. Cedric Roberts of Burbank Calif., and James H. March, of Tacoma, Wash., have been appointed to the 1947 nominating committee of the National Association of Home Builders.

Price Spiral to Level Off Soon, Says Meyerhoff

WASHINGTON.—"We are hopeful that the upward spiralling of prices has nearly reached its peak," Joseph Meyerhoff, president of the National Association of Home Builders, said in an interview today.

"With a steady supply of materials flowing to the job, much greater productivity can be obtained from labor; and with an increased supply of manufactured goods combined with a stabilized labor situation, materials should begin to show some reduction in cost to the home builder."

He said such reductions would be reflected first in the stabilization of prices of finished houses and then in a gradual lowering of prices of new housing.

He cited as still critical in the materials supply such items as soil pipe, gypsum products and some plumbing and heating equipment, but added that the supply is steadily improving.

#

BPI Asks Reliable Federal Statistics

WASHINGTON. — The Building Products Institute today called for a thorough study of methods of collecting and analyzing factual information about housing at the January 27-28 Conference on Housing Statistics held here.

"The need for improved statistics has been amply demonstrated by conflicting and often misleading figures on housing which have been issued by officials of various federal agencies and bureaus in the past," declared BPI Chairman Douglas Whitlock.

Questioning reliability of some government statistics, he pointed out that they are collected at considerable expense and serve little useful purpose "unless the building industry and others can receive them with full confidence as to their accuracy and impartiality."

#

$25 MILLION IS NEEDED FOR WATER PROJECTS

Mayor Lapham, in his annual budget message to the board of supervisors this week, said a $25 million bond issue would be required to break two bottlenecks in the city's water department.

The mayor said that a second San Joaquin Valley 47-mile pipeline, estimated to cost $12,750,000, should be constructed as soon as possible to supply water to "our growing city and the expanding residential and industrial areas on the peninsula."

The remaining $12,250,000 bonds, he said, are necessary to build another 22-mile pipeline from a point near Niles around the south end of San Francisco Bay and to the Crystal Springs reservoir on the peninsula.

#

APPRAISAL REDUCTION

SACRAMENTO. — A downward revision in appraisals for the purchase of veterans' farms and homes has been ordered by the State Department of Veterans Affairs this week as declines in the real estate market here confirmed.

Construction costs have dropped ten per cent recently, State Public Works Director C. H. Purcell reported to Governor Warren.

#

OKAY REVOLVING FUND

SACRAMENTO.—That bill setting up a million-dollar revolving fund to enable the state to buy war surplus goods to be sold to veterans or contractors building homes for veterans was passed unanimously in the Assembly Monday.

GROOVER AND I

BOULDER CANYON PROJECT

Ever hear of the Hoover Dam? The present Congress will probably scrape off the overlay of prejudice and reinstate the name "Hoover Dam".

☆ ☆ ☆

This dam was the first major project under the Hoover Administration. All the contracts and the greater part of the work carried the name "Hoover Dam".

☆ ☆ ☆

When the late F. D. Roosevelt took office he appointed a grouchy character named Harold L. Ickes as Secretary of the Interior. When Ickes took over from the former Secretary Ray Lyman Wilbur, he found orders that the structure, when completed, should be dedicated as "Hoover Dam".

☆ ☆ ☆

Harold immediately gave orders that all wording pertaining to "Hoover Dam" should be changed to "Boulder Dam". This was a monumental example of how small Ickes could be when wearing one of his customary "mads".

☆ ☆ ☆

Ickes could not do what you are thinking, although he probably wanted to! There was already a "Roosevelt Dam" in Arizona!

☆ ☆ ☆

At that, the last laugh is on the "Big Itch". Roosevelt Dam was completed in 1911 and dedicated to another Roosevelt — a guy named Theodore.

#

Coulee Dam Power Output More Than 21 Billion K.W.H.

COULEE DAM, Wash. — The world's largest hydro-electric generator in the Left Powerhouse at the Grand Coulee Dam turned out nearly four billion kilowatt-hours of electrical energy for Northwest homes and industries during 1946 to bring the total production since 1941 to more than 21 billion kilowatt-hours, the Bureau of Reclamation announced today.

Although last year's output was below that of 1945., Bureau engineers said the performance "is considered exceptionally good in view of circumstances encountered." They explained that L-1, one of the six 108,000-kilowatt giants in the powerhouse, was out of service several months for overhaul, and that two "borrowed" Shasta Dam generators, rated at 75,000 kilowatts each, were removed during the year for return to the California power plant. The Shasta units were lent the Grand Coulee Dam for war-time service.

During 1947, the power-production picture at the Grand Coulee Dam will become increasingly brighter commented Supervising Engineer A. F. Darland of the Columbia Basin Project's Coulee Dam Division.

"The first of three new 108,000-kilowatt units for the Left Powerhouse is scheduled to begin operating this year, and work will be progressing on the installation of two additional units which are expected to gon on the line in 1948."

In 1949, Darland added, the first three 108,000-kilowatt generators for the now-vacant Right Powerhouse are expected to begin operating, giving the Grand Coulee Dam a total installed capacity of 1,316,000 kilowatts, including 20,000 kilowatts from two station-service units.

Rated at 108,000 kilowatts, the new generators for the Right Powerhouse are to be designed so they can carry 120,000-kilowatt loads continuously under favorable conditions, Darland explained.

State Highway Division Discloses Road Improvement Plans for San Joaquin Area

SACRAMENTO.—The state division of highways has outlined work to be done in modernizing and streamlining the network of roads throughout the San Joaquin Valley counties under the 10-year program now being considered by the special legislative session meeting here.

Among the counties affected are Kern, Kings, Madera, Merced and Tulare. Details of the 10-year program follow:

Kern County: U. S. 99, Los Angeles County line to Fort Tejon, four lane divided freeway, 4.5 miles, $1,150,000; Fort Tejon to McKittrick Road, freeway. $1,200,000; McKittrick Road to Brundage Lane, four lane freeway, 9.8 miles, $1,615,000; in City of Bakersfield, six lane freeway, .9 mile, $1,980,000; Bakersfield to north end of Kern River Bridge, .7 mile, six lane freeway, $1,444,000; north end Famoso to north county boundary, four lane divided, 10.5 miles, $2,635,000; in City of Delano, four lane divided, 2.2 miles, $847,000.

Mojave Road included

Route 23, Mojave to 4.8 miles north, grade and surface, $340,000; Station 4 to Station 90, Upper Red Rock Canyon, 1.6 miles, grade and surface, $152,000; Station 80 to Station 345, Jawbone Canyon, 5.3 miles, grade and surface, $260,000; Station 345 to Station 472, Red Rock Canyon, 2.5 miles, grade and surface, $461,000; Ricardo to Freeman Junction, grade and surface, $600,000; Indian Weile Canyon, 1.1 miles, grade and surface, $91,000.

Route 33, west boundary to Route 4, grade, surface and structures, 58 miles, $1,385,000.

Route 47, Maricopa to Route 4, grade and surface, 5 miles, $476,000; Bakersfield to Route 143, four lane divided, 3.5 miles, $547,000; Route 143 to Cottonwood Creek, 8.3 miles, grade and surface, $388,000; Cottonwood Creek to Route 23, grade, surface and structures, 77.5 miles, $5,933,000.

Project in Bakersfield

Route 58, in Bakersfield, 4 lane divided, 5.7 miles, $860,000; Bakersfield to Edison, 4 lane divided, 7 miles $1,674,000; west boundary to Bakersfield, grade, surface and bridges over Walker Basin Creek and Caliente Creek, 51 miles, $3,374,000; Tehachapi to ½ mile east of Monolith, grade and surface, 5.5 miles, $597,000; half mile east of Monolith to Cache Creek, grade and surface, 2.5 miles, $176,000; 4.2 miles east of Mojave to Muroc, 12.5 miles, grade and surface, $272,000; Muroc Junction to San Bernardino County boundary, grade and surface, 14.2 miles, $578,000.

Route 138, Mariposa to north county boundary, grade, surface and bridges, 62 miles, $1,300,000.

Route 139, Kern River Bridge, $58,000; Goose Lake Slough Bridge, $35,000.

In Taft Area

Route 140, Taft to 3.7 miles northeast, 3.7 miles, grade and surface, $330,000; Buena Vista Creek Bridge, $11,000; Route 4 to Route 58, grade and surface, 23.7 miles, $800,000.

Route 141, Junction of Route 4N to Junction of Route 4N, 5 miles, grade and surface, 2 miles, $250,000.

Route 142, Bakersfield to Route 57, grade and surface, 70 miles, $1,340,000.

Route 143, Route 140 to four miles north, grade and surface, 4 miles, $265,000.

For Kings Highways

Kings County: Route 10, Hanford to west county line, grade and surface, 2 miles, $20,000; through Hanford, 4 lanes, $139,000; Hanford to three miles east, 4 lane divided, three miles, $900,000.

Route 125, south county line to the north county line, grade and surface, 57 miles, $2,740,000.

Route 135, Guernsey to Corcoran grade and surface, 9.8 miles, $595,000.

Route 138, south county line to the north county line, grade and surface 20 miles, $650,000.

River Arcels

Madera County: U. S. 99, San Joaquin River to Arcola School, 4 lane divided, 7 miles, $1,310,000; ½ mile south of Madera to Madera, 4 lane divided, $69,000; through Madera, 4 lane divided, 1.5 miles, $681,000; Madera to 1.5 miles north, 4 lane divided, $537,000; 1.5 miles north of Madera to Califa, 4 lane divided, 10 miles, $1,112,000; Califa to ½ mile north of Ash Slough, 4.7 miles; four lane divided, $1,320,000; Ash Slough Bridge, $185,000.

Route 32, west county line to Rte. 4, grade, surface and bridge, 15.7 miles, $2,200,000.

Route 125, 1.5 miles north of Lanes Bridge to Route 126, grade and surface, 7.8 miles, $664,000.

Route 126, San Joaquin River to Madera, grade, surface and bridge, 6.6 miles, $587,000; Madera to three

(Continued on Page 8)

State Schedules 195-Mile Fresno Program

The state division of highways today announced construction work grading and surfacing on 195.4 miles of Fresno County highways is contemplated in the next decade.

The 10 year program would meet the "critical deficiences" in Fresno County's highway system and is contingent upon legislative approval of additional taxes for road purposes.

Cost Will Be $25,466,000

The estimated 10 year total expenditure is $25,466,000, of which $3,932,000 would be for rights of way.

The projects listed for Fresno County are:

Route 4 (U. S. 99), south county line to Selma, 4.7 miles, 4 lane divided, $550,000.

Route 4, Caiwa Overpass and approaches, $813,000.

Route 2 in City of Fresno, 3.9 miles, 6 lane divided, $5,624,000.

Route 4, Olive Avenue to Clinton Ave., 1.3 miles, 6 lans divided, $108,000.

Route 4, Clinton Ave. to Tehama Ave., 6 lanes divided, 2.9 miles, $1,880,000.

Route 4, Clinton Ave. to San Joaquin River, 4 lane divided, 7.2 miles, $670,000.

Plan Coalinga Jobs

Route 10, west county boundary to Coalinga, grade and srufface, 22 mi., $1,750,000.

Route 10, Coalinga to east county boundary, grade, surface and bridge, 28 miles, $650,000.

Route 41, west county boundary to Fresno, grade and surface, 55 miles, $2,515,000.

Route 41, in City of Fresno, grade and surface, 1.3 miles, $1,016,000.

Route 41, Orange Avenue to Clovis Ave., 4 lane divided, 3.5 miles, $943,000.

Route 41, Byrd Slough to White Road, grade and surface, 17.5 miles, $1,760,000.

Route 76, Route 125 to Clovis, bridges, 5 miles, $315,000.

Manning Avenue Listed

Route 125, south county line to Manning Ave., grade and surface, 15 miles, $991,000.

Route 125, Manning Ave. to Fresno, 4 lane divided, 7.8 miles, $1,642,000.

Route 125, in City of Fresno, four lane divided, 2 miles, $270,000.

Route 125, Olive Ave. to Shields Ave., 4 lane divided, 1.5 miles, $786,000.

Route 126, Skaggs Bridge and approaches, 1.1 miles, $250,000.

Route 138, south county boundary to Coalinga, grade and surface, 15 miles, $1,910,000.

#

APPROVALS NEAR GOAL

WASHINGTON.—During the 19 weeks in which it operated with the objective of holding non-housing construction approvals down to an average of $35 million per week the Civilian Production Administration actually averaged $35,204,985 in approvals weekly, or within six-tenths of one per cent of its goal, CPA announced today.

The $35 million target for non-housing construction authorizations went into effect last August 30 and continued until January 10, when the weekly average objective was raised to $50 million.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, A. J. Grier, regional director, 1355 Market St., has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area:

JANUARY 24, 1947

PAINT Factory, $.16,970; Linden Ave., South San Francisco; owner, E. I. duPont deNemours & Co., 10th and Market Sts., Wilmington, Del.

LEATHER tannery, $45,000; Petaluma; owner, Laemmle Tanning Co., 210 Post St., San Francisco.

FRUIT processing plant, $36,000; Hamilton and Parallel, Fresno; owner, Peters & Garabedian, Clocho, Calif.

CONSTRUCTION camp, $20,000; nr. Monticello; owner, Pacific Gas & Electric Co., 245 Market St., San Francisco.

GROCERY Store, $8200; Forestville; owner, John Betts, Box 157, Forestville.

WAREHOUSE for wholesale electrical company, $2380; 12th and Folsom Sts., San Francisco; owner, California Elec Supply Corp., 1585 Folsom St., San Francisco.

ROCK Wool mfg. plant, $15,250; San Carlos; owner, Fred A. DeMeastri, 116 Bayswater, Burlingame.

CHERRY processing plant, $34,500; 10th and Taylor, San Jose; owner, Tri-Valley Packing Assn., 64 Pine St., San Francisco.

GROCERY & market, $5000; Hughson Ave., Hughson; owner, Wm L. Rogers, Box 165, Hughson.

SERVICE Station, $5000; near Salinas; owner, Sturdy Oil Co., Box 46, Salinas.

DRIVE pilling for office bldg., $25,000; 7th and J Sts., Sacramento; owner, Capital National Bank, 7th and J Sts., Sacramento.

CAFETERIA, $40,000; 1916 Franklin St., Oakland; owner, Edw J. Anderson, 3454 Harlan St., Oakland.

FORESTRY building, $700,000; Berkeley; owner, Regents of U. of C., Berkeley.

FAT rendering plant, $2000; 18h and F Sts., Broderick; owner, Superior Packing Co., Box 290, Broderick.

COMPLETE repairs, termite damage, $2500; 1030 Taraval Street, San Francisco; owner, J. C. Millette Co., 118 Sacramento St., San Francisco.

GROCERY, $7000; 566 Dutton, San Leandro; owner, L. J. Roberts, 82 Chumalia, San Leandro.

RETAIL jewelry store, $7800; 1957 Manpson, Fresno; owner, H. L. Wade, 1162 Fulton St., Fresno.

FINISH auto steam cleaning plant, $4000; Hoffman and Hawthorne, Monterey; owner, Floyd Winters, Route 1, Box 690-C, Monterey.

WALNUT processing plant, $135,000; 770 Clark Ave., Yuba City; owner, Yuba City Walnut Assn., Box 268, Yuba City.

TRACTOR sales and service, $95,000; near Redding; owner, Sierra Tractor & Equipment, Redding.

COMPLETE motel, $1250; near Dos Palos; owner, J. O. Gates, Route 1, Box 1508-B, Dos Palos.

WAREHOUSE for glass furnace refractories, $8500; 601 36th Avenue, Oakland; owner, Owens - Illinois Glass Co., 320 California St., San Francisco.

PAINT and appliance store, $4300; Sacramento; owner, N. F. Trimble, Box 116, Fair Oaks.

POST OFFICE, $11,500; Cupertino; owner, Rosario Cail, et al, c/o Asst. Postmaster, Washington, D. C.

REPAIR fire damage to hotel, $4000; 160 Turk St., San Francisco; owner, O. Monson, et al, 2048 Market St., San Francisco.

ALTER offices of cereal mfg. distributor, $1800; 525 Market St., San Francisco; owner, Crocker Estate Co., 660 Market St., San Francisco.

REPAIR floor and foundation, $32,900; 5401 San Leandro St., Oakland; owner, F. M. Ball Canning Co., premises

FHA PERMITS ISSUED

SAN FRANCISCO. — The Federal Housing Administration, D. C. McGinness, District Director, 315 Montgomery St., San Francisco, has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants as noted:

1 UNIT, at Sacramento; Jas Mayzle, Berry Hotel, Sacramento.
1 UNIT at South San Francisco; H. P. Carrey, 116 Green Avenue, South San Francisco.
2 UNITS at Redwood City; Healy Sons, 634-A Guerrero Street, San Francisco.
1 UNIT at Stockton, Leo R. DeAzuar, 131 W. Fremont, Stockton.
3 UNITS at Sacramento; J. McCray, West Sacramento.
3 UNITS at Santa Rosa; J. C. Blackwell, Jr., 1000 Stewart Street, Santa Rosa.
18 UNITS at Sacramento, Richard Vernon, 909½ 8th St., Sacramento.
4 UNITS at San Francisco; Modern Home Builders, 4103 24th St., San Francisco.
4 UNITS at San Jose; E. T. Komshoeft, 44 N. 1st St., San Jose.
4 UNITS at Saratoga; George Reed, Box 275, Saratoga.
10 UNITS at Fresno; W. E. Burnett, 2906 Ferris, Fresno.
1 UNIT at Ookland; F. A. MacKenzie, 2874 Sunset Ave., Oakland.
2 UNITS at Saratoga; Earl Westcott, Box 275, Saratoga.
1 UNIT at Santa Cruz; A. G. Finn, 51 Pacific Ave., Santa Cruz.
3 UNITS at Livermore; S. Bothwell & Sons, 739 J St., Livermore.
6 UNITS at Cloverdale; M. C. Triplett, Main St., Cloverdale.
5 UNITS at Belmont; Morton Bldrs., 1480 El Camino Real, Belmont.
1 UNIT at Solano; Roy H. Lippert, Box 131, Rio Vista.
5 UNITS at Newark; Lindell Co., 824 Taraval St., San Francisco.
1 UNIT at Sacramento; L. P. Bonner, 2920 F St., Sacramento.
1 UNIT at San Jose; Andrew D. Wiekham, 153 S 14th St., San Jose.
1 UNIT at Fresno; Frank I. Robertson, 6139 Sunset Drive, Fresno.
1 UNIT at Dinuba; Geo. Jacobson, 176 Whittaker Way, Dinuba.
1 UNIT at Redwood City; David Holden, Redwood City.
3 UNITS at Merced; Martinelli Bros. 709 23rd St., Merced.
1 UNIT at San Jose; J. W. and Robt. Corey, 130 Olive Ave., Campbell.
3 UNITS at Salinas; Talcott Lumber Co., 312 E. Alisal St., Salinas.
2 UNITS at Salinas; Chas. T. Burke, 1432 West St., Salinas.
1 UNIT at Salinas; A. and A. Cancelleri, Bcx 450, Watsonville.
2 UNITS in San Francisco; Boyd Dudley, San Francisco.

Preliminary Plans in Progress
Bin Type Building
Approximate Cost $80,000
CALISTOGA, Calif., Napa County.
Owner—North Coast Walnut Association, c/o engineer.
Structural Engineer — Preston M. Jones, 2514 Woolsey St., Berkeley, Calif.
Heavy wood frame, one-story, bin type building.

1/29/47 * 1
Contract Awarded
Office Bldg. (Remodel, Paint, Etc.)
Cost $10,431
SACRAMENTO, Calif., Sacramento County, 924½ J St., Building.
Owner—Federal Works Agency, Public Buildings Administration, office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif.
Plans by owner.
Remodeling, painting, etc., to second floor.
Contractor—Central California Construction Co., Capitol National Bank Bldg., Sacramento, Calif.

1/29/47 4
Plans Completed
CPA Approval Granted
Medical-Dental Building Cost $15,000
NAPA Calif., Napa County. 1752 Jefferson.
Owner—D. C C Caulkins, c/o architect.
Architect—C. A. Caulkins, Jr., Rosenberg Bldg., Santa Rosa, Calif.
Concrete slab on ground, asphalt tile floor, wood frame, plaster exterior, one-story, 2200 sq. ft. composition roofing.

1/29/47 * 2
Low and Only Bidders
Temporary Garage
SACRAMENTO, Calif., Sacramento County, North side of "I" St. between 7th and 8th Sts.
Owner—Board of Supervisors, Sacramento County, C. C. LaRue, county clerk, Wm. H. Dick, deputy clerk, Room 201, Courthouse Bldg., Sacramento, Calif.
Low Bidder—A. L. Miller, 1715 7th St., Sacramento, Calif., $4,050.
Continental Construction Company, Sacramento, Calif., at $6,075 submitted only other bid January 27th.

1/29/47 4
CPA Approval Granted—Separate Contracts Awarded By Owner
Office Cost $4,000
SAN MATEO, Calif., San Mateo Co., Tilton and El Camino
Owner—Stephen L. Vistica, (landscape contractor) 115 Reservoir Road, San Mateo, Calif.
Architect—private plans.
Haydite cement blocks and glass construction.

Contractor—Owner awards separate contracts
Electrical work — Atlas Electric & Engineering Co., 956 Folsom St., San Francisco, Calif.
Plumbing, W. E. Allen, 1229 California Dr., Burlingame, Calif.
Blocks—A. Antoniazzi, 329 N. El Eldorado St., San Mateo, Calif.
Cement—Gustave Adolphson, 706 N. Claremont St., San Mateo, Calif.
Driveway and Parking Areas—San Mateo Feed and Fuel Co., 850 San Mateo Drive, San Mateo, Calif.
Carpenter Work and Glass on time and material basis; painting not let.

1/29/47 4
Plans in Progress
Medical Building (Converted)
Cost $350,000
OAKLAND, Calif., Alameda County. Hobart and Webster Sts., former Builders' Exchange Building to be renamed Medical Arts Building.
Owners — Abraham and Harry N. Penn (fure), owners, 2384 Telegraph Ave., Oakilnd, Calif.
Architect—not announced.
Remodel interior and exterior of steel frame anud brick, 4-story, 90 room structure to provide 40 modern suites for medical offices, installation of second elevator, ninp ground floor stores to be available for retailing operations connected with medleine, including drugs and surgical appliances; a restaurant will be retained.

1/29/47 8
Building Permit Granted Contract Awarded
Alter Building Cost $4500
SAN FRANCISCO. Calif., 2525 Jones St.
Owner — Royal Motor Sales, 2525 Jones St., San Francisco, Calif.

OFFICIAL PROPOSAL

NOTICE TO CONTRACTORS

Sealed bids will be received by the City of Martinez, California, on February 11, 1947, for the construction of a 6 MGD Filter Plant. Principal quantities include the following:

14,500 cubic yards excavation.
3,150 cubic yards reinforced concrete.
14,700 linear feet pipe lines 8- to 24-inch.

A proposal guaranty of $20,000 is required. Plans and specifications can be secured, on deposit of $50.00, from the City Engineer, Martinez, California.

LARGEST CONSTRUCTION DAILY IN THE WEST

Vol. 57—No. 21 SAN FRANCISCO, THURSDAY, JANUARY 30, 1947

Copyright 1946 by F. W. Dodge Corporation

Westinghouse Alters 310 Bush Building, Consolidates Offices

SAN FRANCISCO —The Westinghouse Electric Corporation has acquired a long term lease on a three-story building at 310 Bush St., here, and alterations to provide modern, centrally located quarters for district and local headquarters offices of the company and many of its major divisions is under way.

The Westinghouse Electric Appliance Division will continue to occupy expanded offices and display rooms in the Western Merchandise Mart, 1355 Market St. The Westinghouse Electric Supply Company will continue at its present location, 260 Fifth St.

Building Completed Redesigned

The Bush street building, formerly a parking garage, has been completely redesigned by Albert F. Roller, San Francisco architect. The interior will be modernized from basement to roof, providing spacious, light, well ventilated offices and general work areas, basement storage space for company cars, and a roof lunch and sun deck. The entrance lobby has been attractively conceived in the use of color, hardwoods and shadowboxes for the display of the company's smaller products. The exterior will be executed in ceramic veneers and cement plaster. General contractors are Barrett & Hilp, San Francisco.

AED Convention Has Well-Known Speakers

WASHINGTON —The first annual meeting of the Associated Equipment Distributors in what is predicted to be the greatest construction era in our nation's history, will be held February 13 through 15 at the Edgewater Beach Hotel, Chicago, Ill.

Now that the demands of wartime activities are at an end and reconversion has progressed far enough so that the construction machinery industry is beginning to "move under its own power" again, the AED 28th annual convention will dig into the practical problems which will arise from new financial and economic trends just beginning.

Leaders to Speak

Prominent leaders who are authorities in their respective fields have been secured as speakers. Among them are H. E. Foreman, managing director, Associated General Contractors of America, Inc.; the Rev. Dr. Preston Bradley, pastor, The Peoples Church, Chicago; Charles M. Upham, engineer - director, American Road Builders Association. Washington, D. C.; Kenneth R. Wells, assistant vice-president, American National Bank and Trust Company of Chicago; Horace H. Hull, president, Hull-Dobbs Company, Memphis, Tenn.; and Elmer Wheeler, president of the Tested Selling Institute of New York City.

CALIFORNIA LEADS NAREB MEMBERSHIP

WASHINGTON. — California leads membership in the National Association of Real Estate Boards, with 6,629 members. Membership gain of the state during 1946 was 1,878 new members. Six new chapters were formed during the year.

REFRIG EXPOSITIONS

PITTSBURGH. — A policy of holding one all-industry show every two years beginning in January, 1948, was announced today by the Refrigeration Equipment Manufacturers Association.

Hervey P. Clarke New President of Architects Group

Hervey Parke Clarke is the new president of the Northern California chapter of the American Institute of Architects. Lester Hurd will serve as vice-president through 1947.

Ralph Wollack was elected secretary, and William C. Ambrose treasurer. New directors are Wilber Peugh and A. L. Koue.

Three delegates were chosen to represent the Bay Area architects on the California Council of Architects, which is to hold its quarterly meeting in Santa Barbara, February 14-15. Delegates are Norman Blanchard, John Bolles, and Andrew Hass.

Architects who will represent the Southern California chapter are Adrian Wilson, Vincent Palmer, George Gable, Paul Hunter, and Al Martin, Jr. No changes in representation have been reported by the Central Valley, San Diego, or Santa Barbara chapters.

#

Fred Lyon Services Thursday at Alameda

Funeral services for Fred Lyon will be held at Smiley & Gallagher's chapel in Alameda at 10 a. m., Thursday.

Lyon died Monday after suffering a stroke. He was known as one of the "oldtimers" of the construction industry, to which he had devoted most of his life.

He was employed by the Bay Development Company in 1906, and had charge of its marine fleet of sand dredges, barges, and tugs operating on the Sacramento River.

In 1929 the Bay Development Company was taken over by Pacific Coast Aggregates through a merger. Lyon remained as manager of the marine fleet until it was sold in August, 1942.

He had been in various operating departments of Pacific Coast Aggregates since, and at the time of his death was a sales representative.

Surviving are his widow, Nellie; and a daughter, Mrs. R. E. Tomlin, of San Francisco.

#

Construction Ranks Sixth in Steel Use

Construction now ranks sixth in allotments received by the consuming industries of steel, it was reported yesterday by the American Iron and Steel Institute. Although stymied by shortages of scrap and other raw material, steel reached a peacetime record output of 6,-970,000 tons of ingots and steel products for 1946, the organization said.

Percentage distribution of steel by consuming industries shows that construction received 9.3 per cent of the total allotment.

Shipments of cold rolled steel in 1946 were the greatest on record with the exception of the war years of 1941 through 1945. Construction received 13 per cent of the output due to the high priority of defense plants, cantonments and kindred installations that were being erected at that time. The 1-820,756 tons shipped through September of 1946 was 42 per cent larger than shipments in the corresponding part of 1945 and 459,-000 tons greater in the corresponding part of 1941.

The Institute said indications are that increasing production in the steel industry, if unhampered by internal strikes and disputes affecting its allied trades, will prove 1947 a banner output year, and all consuming industries will receive an ample share of that output.

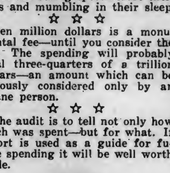
The AISI stated that if production carries on uninterrupted for a year, it would result in approximately 60,000,000 tons of finished steel.

GROOVER AND I

IS THERE A CPA IN THE HOUSE?

Government to appropriate 10 million dollars for CPA audit of Federal spending from March 4, 1933 to December 31, 1946—or how much did the New Deal spend—and for what?

☆ ☆ ☆

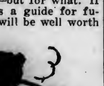


Such people as Price Waterhouse, Haskins and Sells, Lester Herrick and Herrick or Ernst and Ernst are seeing spots before their eyes and mumbling in their sleep.

☆ ☆ ☆

Ten million dollars is a monumental fee—until you consider the job. The spending will probably total three-quarters of a trillion dollars—an amount which can be seriously considered only by an insane person.

☆ ☆ ☆



The audit is to tell not only how much was spent—but for what. If report is used as a guide for future spending it will be well worth while.

If audit is merely for washing political dirty linen it means the taxpayers are paying for 1948 propaganda material.

☆ ☆ ☆

The Republicans must remember they haven't a copyright on purity—how about the Harding administration?

#

Shasta Powerhouse Operation Expected Ahead of Schedule

SACRAMENTO—Regional Power Manager Ben W. Crein, in a progress report made public this week, announced that the Bureau of Reclamation has expedited installation of three remaining generating units in the powerhouse of Shasta Dam. The first unit was scheduled for operation in August, but "now will be operating at least a month earlier".

Concrete was poured last week 20 days ahead of schedule. The speed-up is credited largely to Construction Engineer Irving C. Harris, who has salvaged material and installed a war surplus sawmill at the damsite. Logs cleared from the upper reaches of Shasta Lake were floated to the dam where the sawmill cut them into lumber for forms, timbers and scaffolding.

Including fabrication of the third remaining unit, eleven contracts totalling $4,188,460 are in force for power features at Shasta and Keswick.

#

REALTORS INSTALL

New officers of the Real Estate Association of San Francisco will be installed at ceremonies at the Palace Hotel Thursday night.

Walter Gordon will succeed Cleland O. Whitton as president. Others to be installed include Max F. Robinson, first vice president; Alan F. Mori, second vice president; Anthony Maggio, third vice president; Desmond G. Kelly, secretary ;and David F. Supple, treasurer.

Record Production of Building Materials Key to 1947 Housing Program—F. Creedon

CHICAGO.—The key to the housing program for 1947 is a continued record level by the production of building materials, Frank R. Creedon, national housing expediter, told delegates attending the national convention of Associated General Contractors at the Stevens Hotel.

"Until we can turn production into effective supply at the builder's level," the expediter declared, "we have not overcome the materials problem," and added:

"Under the present materials situation, the limitation of non-residential construction, as provided under the veterans' housing program order No. 1, is absolutely essential.

Non-residential Quota

"As I see it, however, this new $50 million weekly quota is the most that can be justified for some time to come."

Creedon asked full understanding from the AGC that the country's greatest need is rental housing and pointed out that greatest emphasis should be placed on small and large-scale developments.

The housing expediter pointed out that he does not believe in or like controls, and added that the present restrictions will be maintained only as long as they contribute substantially to more material and more home building.

These controls will be relaxed whenever they become obstacles rather than aids, he added.

Premiums to Continue

"We will continue to use production aids, such as premium payments, to the extent that they are effective in getting more materials produced under current circumstances. Likewise, we will continue the allocation of raw materials to producers of critical building materials until such time as industry can and will assume responsibility for the necessary volume of such needed items."

The government's emphasis in housing during 1947 will be to encourage construction by the industry of units for rent, he said.

"This is a substantial market for general contractors. Other essential construction must be ahead as needed," he added.

Speaking on "Reclamation and the Contractor", Kenneth Markwell, assistant commissioner of reclamation, department of the interior, said that if the congress approves the President's request for funds for the Bureau," we can expect to expend about $200 million on construction in the calendar year of 1947. Some of this work is now under contract but additional contracts amounting to more than $150 million must be awarded," he said.

New Legislation

In another address, Commodore Charles T. Dickeman, superintending civil engineer for Area 5, U. S. Navy, stated that legislation is soon to be offered congress which will replace with peacetime procedure the extraordinary contractual power granted the navy by the War Powers Act during the emergency.

Speaking for Rear Admiral J. J. Manning, chief, bureau of yards and docks, Navy Department, Washington, Dickeman said that this legislation—if it is approved—will, with few exceptions, place the letting of construction contracts on a competitive basis.

Adequate advertising in such places as post offices, and federal buildings, in trade journals, and other media will give all contractors sufficient notice of the jobs, he stated.

Specifications, as in the past, he added, can be obtained from the public works officers of the naval activities within whose jurisdiction the work is to be done.

Also incorporated in the pending legislation, Dickeman commented, is a provision for spreading the work as widely as possible among contractors. Unless the parceling out of the contract manifestly is to the disadvantage of the government, he added, the work will be divided to give the navy's business to as many contractors as possible.

Okay Many Planning Loans for Far West

WASHINGTON. — Advances were made today by Major General Philip B. Fleming, Federal Works Administrator, to finance the preparation of plans and specifications for local public works in Arizona, California, Hawaii, Idaho, Montana, Oregon, Washington and Alaska.

Arizona: Tucson, incineration plant, estimated cost $224,000, federal advance, $9000; Mesa high school district of Maricopa County, lunchroom and shop building, also alterations to present shop, at Mesa, $127,500 and $4800.

California: San Gabriel (three advances): storm sewer system for area north of Las Tunas Dr., estimated cost $105,212, federal advance, $4950; storm sewer system for area between Mission and Las Tunas Drives, $261,877 and $12,350; storm sewer system for area south of Mission Drive and east of Del Mar Ave., $407,675 and $19,200.

Hawaii: City and County of Honolulu, Wahiawa high school additions at Honolulu, including administration building, library, vocational units, gymnasium and auditorium, estimated cost $540,000, federal advance $20,000.

Idaho: Drainage District No. 4, Franklin County, construction of drainage ditch and laying of drain tile near Preston, estimated cost $56,880, federal advance $1600.

Montana: Conrad, sewage treatment plant and pump lift station, estimated cost, $39,800, federal advance, $1760.

Oregon: Willamina, sanitary sewer system and treatment plant, estimated cost $131,400, federal advance $6000; West Union school district No. 1, Washington County, elementary school at West Union, $88,616 and $2900; School District No. 17-c, Benton County, grade school at Philomath, $46,000 and $1900.

Washington: Public Utility District No. 1 of Jefferson County, waterworks system, including supply wells, at Quilcene, estimated cost $105,000, federal advance $5,-500.

Alaska: Ketchikan, street paving and sidewalks, estimated cost $252,000, federal advance $5000.

#

Concrete Floors Poured From Top

NEW YORK.—From top floor to ground is a new Mexican way of concreting floors in multiple-story steel frame structures.

In addition to benefits gained by working under the cover of previously poured floors, this novel method cuts slab construction time to one-third the usual, and has effected savings in slab costs up to 20 per cent. Floors of several Mexican buildings have been built in this way at a rate of one floor every two days.

This top-to-bottom system incorporates descending slab forms suspended by steel rods.

Easy erection and stripping give the one-piece slab forms an unusually long life, which has run as high as 30 re - uses. Forms are stripped and re-erected by slacking off the suspending rods and lowering the panel one story, a procedure so simple that for 10,000 square feet of floor slab only six to eight hours elapse between the start of the stripping operation and the completion of the next pour.

Other bidders January 29 were:
James I. Barnes Construction Co., San Francisco, Calif., $85,000; (1) $1400; (2) $400.
L. E. MacClosky Co., San Francisco, Calif., $85,500; (1) $1000; (2) $950.
Midstate Construction Co., San Francisco, Calif., $86,703; (1) $1500; (2) $650.
Stolte, Inc., Oakland, Calif., $91,576; (1) $1732; (2) $758.
Henry Arian Construction Co., San Francisco, Calif., $91,693.33; (1) $2675; (2) $780.
Clinton Construction Co., San Francisco, Calif., $94,000; (1) $600; (2) $600.
Haas & Rothschild, San Francisco, Calif., $95,531; (1) $1300; (2) $900.

18-19—RELIGIOUS BLDGS.

1/30/47 19
Contemplated—First Unit To Be Built This Year
Church
AUBURN, Calif., Placer Co.
Owner—Bethlehem Lutheran Church, Rev. Alfred M. Karistad, pastor, c/o Veterans Memorial Hall, Auburn, Calif.

20-21—SOCIAL & RECREATIONAL BLDGS.

1/30/47 20
Preliminary Plans in Progress—Cost Estimates Under Study
Boys Club
PITTSBURG, Calif., Contra Costa Co. West Eighth St.
Owner—Pittsburg Boys Club Board of Directors, c/o Vincent Caruso, building chairman, 127 Avon St., Pittsburg, Calif.
Architect—Philip D. Tomasello, 606 Washington St., San Francisco, Calif.

1/30/47 20
Working Drawings in Progress—Contract Awarded
Locker Room Building Cost, $20,000
OAKLAND, Calif., Alameda County 14th and Poplar Streets.
Owner—Carnation Co., 14th and Poplar Streets, Oakland, Calif.
Structural Engineer—H. M. O'Nell & Co., 610 16th St., Oakland, Calif.
Wood frame, two-story, 30x50; 1500 sq. ft., stud and plaster.
Contractor—Marvin E. Collins, 825 Galvan Drive, El Cerrito, Calif.

22-26—RESIDENTIAL BUILDINGS

1/30/47 22
Plans in Progress—Construction Expected To Begin About March 1
Hotel Cost $700,000
NEAR RENO, Nevada, Washoe Co., 15-acre site on Skyline Boulevard southwest of Reno, on south boundary of the Elgin ranch bet. Skyline Blvd. and Rancho Manor subdivision.
Owners—Group of California men including, H. E. DeArmond, Harry Voss, and Vern P. Huck, 3021 Rowena Ave., Los Angeles, Calif.
Plans by owners.
Includes large main building 100x300 with lobby, casino, dining room, bar, etc., and back of that arranged in an arc, will be 16 smaller buildings, each containing six or eight hotel units. Present plans call for 100 such units now and an additional 100 later. Swimming pool.
Contractor—Owner will build.

1/30/47 22
Contemplated—County Planning Commission Approval Granted—Preliminary Surveying Work Completed
Hotel & Airfield Cost $1,000,000
RENO, Nevada, Washoe Co., Truckee Meadows, south of Reno.
Owner—Lloyd Root, 330 W. Pueblo Reno, Nevada.

1/30/47 • 24
Preliminary Plans in Progress
Residence
ORINDA, Calif., Alameda County.
Owner—Albert Buxton, c/o Architect
Architect and Engineer—Hanna and Cline, Pacific Bldg., 610 16th St., Oakland, Calif.
Wood frame, rustic siding, shingle roof, 7 rooms, 1½ stories, 2 car garage (attached).

1/30/47 22
Contemplated—Fund Drive For About $250,000—Tentatively Set for April—Definite Date and Goal to Be Set at Feb. 14 Meeting of Board of Directors
New YMCA Building
FRESNO, Calif., Fresno County.
Owner—Young Mens Christian Association, C. K. Wakefield, 1406 N St., Fresno, Calif.

1/29/47 26
To Prepare Plans—Topographical Survey Completed—Construction Set for Early 1948
Residences (400)
Cost $5000-$9000 Each
PALO ALTO, Calif., Santa Clara Co. 258-acre site back of Stanford University on Portola Road, four miles from downtown Palo Alto.
Owner—Peninsula Housing Association (nonprofit, cooperative group), J. Murray Luck, president, San Mateo Dr., Menlo Park, Calif.
Architects—John C. Funk and Joseph Allen Stein, 21 Columbus Ave., San Francisco, Calif.

31-32—WATER SUPPLY & SEWAGE DISPOSAL PLANTS

1/30/47 32
Tentative Report Submitted to City Council As Basis for City Application to State for Planning Aid
Sewage Disposal System Cost $800,000
MONTEREY, Calif., Monterey Co.
Owner—City of Monterey, Clyde A. Dorsey, City Mgr., City Hall, Redwood City, Calif.
Consulting Sanitary Engr. — Harry N. Jenks, 345 Madrona Ave., Palo Alto, Calif.
One primary sewage disposal plant with an outfall sewer carrying waste to a depth of 60 feet on 10-acre site, designed to treat both industrial and domestic waste.

1/30/47 32
Final Plans in Progress—Plans Nearing Completion on Sewer Lines—State Board of Public Health Permit Granted
Sewage Disposal Plant Cost $1,195,000
NAPA, Calif., Napa Co. East bank of Napa River opposite State Hospital
Owner—Napa Sanitation District, S. J. Cinnamond, chairman, c/o Chas. Martin, Secty., City Hall, Napa.
Consulting Sanitary Engineer — Harry N. Jenks, 345 Madrono Ave., Palo Alto, Calif.
Includes Project No. 1, installation of all main intercepting sewer lines, mains and force mains (approx. 14 miles, varying from 8 in. to 30 in. in diam.) and Project No. 2, construction of 3 pumping plants and main disposal plant.

1/30/47 32
Application Made for State Board of Public Health Permit
Sewage Treatment Plant (Additions)
WILLITS, Calif., Mendocino County. Broaddus Creek approx. ¾ mile northeast of Willits.
Owner—City of Willits, Allan Seary, City Clerk, City Hall, Willits, Calif
Engineers—Thomas & Whipple, 310 University Ave, Palo Alto, Calif.
Alterations and additions including electric power mechanical equipment; installation of settled sewage pumps; construction of effluent ponds.

1/30/47 32
Application Made for State Board of Public Health Permit
Sewage Disposal Plant Cost $117,700
CORNING, Calif., Tehama Co.
Owner—City of Corning, Oscar C. Bly, Mayor. City Hall, Corning, Calif.
Consulting Engineers — Thomas & Whipple, 310 University Ave., Palo Alto, Calif.
Consulting Sanitary Engineer — Harry N. Jenks, 345 Madrono Ave., Palo Alto, Calif.
New sewage disposal plant and improvements to sewage collection system.

1/30/47 32
Application Made for State Board of Public Health Permit
Sewage Treatment Plant Cost $66,000
OAKDALE, Calif., Stanislaus Co.
Owner—City of Oakdale, Jas. Greening, city clerk, City Hall, Oakdale, Calif.
Consulting Engineer — Kaiser Engineers, Inc., 1924 Broadway, Oakland, Calif.
Includes bar screens, grease removal tank, primary sedimentation and separate sludge digestion with gas collection and utilization. Disposal of effluent will be into absorption beds.

33—BRIDGES

1/29/47 33
Owner Taking Bids—Due Feb. 26, 2 P. M.—Bridge, Grading, Surfacing
NAPA and LAKE COUNTIES, Cal. Between 0.1 mile southerly and 1.5 miles northerly of the Napa-Lake county line.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Includes about 0.8 mile (net length) grading, placing road mix surf. and constructing two bridges.
Unit quantities follow:
(1) 8 acres clear and grubb;
(2) 44,000 cu. yds. rdwy. excav.;
(3) 425 cu. yds. structure excav., type A;
(4) 1,530 cu. yds. struct. excav. type B;
(5) 3,300 cu. yds. ditch and channel excav.;
(6) 25,000 sta. yds. overhaul;
(7) 3,900 cu. yds. import base matl.;
(8) Develop water supply and furnish water equip.;
(9) 1,030 M gals apply water;
(10) 39 sta. finish rdwy.;
(11) 27 tons liq. asph. SC-2 prime coat;
(12) 30 cu. yds. sand prime coat;
(13) 850 cu. yds. min agg. road mix surface;
(14) 168 tons liq. asph. SC-3 or SC-4 road mix surface;
(15) 9,400 sq. yds. mix and compact road mix surface;
(16) 14 tons asph. emulsion seal coat;
(17) 145 cu. yds. screenings seal coat;
(18) 1,040 cu. yds. class A port. cem. conc. structs.;
(19) 261 cu. yds. class A port. cem. conc. footing blocks;
(20) 228,000 lbs. reinf. steel;
(21) 546 lin. ft. conc. railing;
(22) 194 lbs. misc. iron and steel;
(23) 513 cu. yds. sacked conc. riprap;
(24) 34 each monuments;
(25) 54 each culvert markers and guide posts;
(26) 480 lin. ft. 18 inch. CMP 16 gage;
(27) 124 lin. ft. 24 in. CMP down drains, 16 gage;
(28) 4 each spillway assemblies;
(29) 190 lin. ft. salvage exist pipe culverts;
(30) 3,500 sq. yds. obliterating exist road;
(31) remove exist. bridges;
(32) Engineer's office.
Specifications obtainable from the above office.

34—DAMS, RESERVOIRS & DREDGING

1/30/47 34
Owner Taking Bids—Due March 4, 10 A. M.
Earthwork & Structures; Spec. 1668
BOISE PROJECT, Idaho. About 8 miles north of Caldwell.
Owner—U. S. Bureau of Reclamation, 214 Broadway, Boise, Idaho.
Plans by engineering department of owner.
Earthwork and structures, Conway Gulch Lateral from station 60 plus 50 to end, "C" Line East Canal laterals 9.2 and 9.4 and sublaterals, Payette Division.
Work involves:
(1) 205,000 cubic yards of excavation, common, for laterals;
(2) 100 cubic yards of excavation, rock, for laterals;
(3) 1,500 cubic yards of excavation for core banks;
(4) 15,000 station cubic yards of overhaul;
(5) Compacting 2,700 cubic yards of embankment;
(6) 32,000 cubic yards of excavation, common, for structures;
(7) 50 cubic yards of excavation, rock, for structures;
(8) 28,500 cubic yards of backfill about structures;
(9) Compacting 7,900 cubic yards of backfill about structures;
(10) Placing 16,000 cubic yards of earth lining of lateral;
(11) 500 cubic yards of gravel blanket on slope of lateral;
(12) 4,050 square yards of dry-rock paving;
(13) 2,175 cubic yards of concrete in structures;
(14) Furnishing and handling 3,300 barrels of cement;
(15) Placing 140,000 pounds of reinforcement bars;
(16) Erecting 19 M.b.m. of timber in structures;
(17) Laying 6,800 linear feet of 15-inch diameter concrete pipe;
(18) Laying 520 linear feet of 15-inch diameter concrete pipe;
(19) Laying 332 linear feet of 24-inch diameter concrete pipe;
(20) Laying 260 linear feet of 30-inch diameter concrete pipe;
(21) Laying 100 linear feet of 36-inch diameter concrete pipe;
(22) Laying 1,110 linear feet of 48-inch concrete pipe;
(23) Laying 3,000 linear feet of 54-inch diameter concrete pipe;
(24) Laying 36 linear feet of 15-inch diameter corrugated-metal pipe;
(25) Installing 2,100 pounds of gates; and
(26) Installing 10,650 pounds of miscellaneous metalwork.
Specifications obtainable without charge to prospective bidders; to others $2.50 not returnable.
Copies of the standard forms and of the specifications may be obtained from the following offices of the Bureau of Reclamation: Walker R. Young, Chief Engineer, U. S. Customhouse, Denver 2, Colorado; R. J. Newell, Regional Director, P. O. Box 937, Reclamation Building, Fairgrounds, Boise, Idaho; George N. Carter, District Engineer, 214 Broadway, Boise, Idaho; and Michael W. Straus, Commissioner, Bureau of Reclamation, Washington 25, D. C. Prospective bidders desiring to visit the site of the work should communicate with the District Engineer.

NEW Improved SCOOPMOBILE Five NEW IMPROVEMENTS!

1 NEW "Shovel Action" BUCKET
A full load . . . plus! No more ramming into stock pile. Simply ease SCOOPMOBILE into pile and lift bucket with a full load . . . easier on the machine . . . faster, fuller!

2 HAND LEVER CONTROL
Two hand levers at operator's fingertips give positive, flexible control of bucket action. No more trip rope and "shock dumping" from unhandy elevations.

3 DISCHARGE ACTION
Full loads can now be discharged from very top of rack. (Up to 8 ft.) Partial loads can be discharged by closing bucket at any height while pouring.

4 NEW COUNTER BALANCE
The new SCOOPMOBILE keeps its feet on the ground! New counter balance (optional) is easy to attach to rear of Scoopmobile to accommodate heavy loads at top of rack.

5 CONTROLLED DIGGING ACTION
Improved double sheaves and mechanical improvements give entirely new control of digging angle. New design of bucket means NO spillage over rough terrain.

PLANS and Speculations

Sausalito City Engineer John C. Oglesby has been authorized to prepare a survey showing Sausalito's needs for the proposed lateral approach to the Golden Gate Bridge.

oOo

Humbodt County supervisors passed emergency action to permit rebuilding the bridge crossing Salmon Creek on a county road near Miranda, and repairing of the Iudianola cut-off bridge.

oOo

Creation of a water district extending from Pedro mountain to a point south of Half Moon bay and including Princeton, Montara, El Granada, Moss each, Miramar and Half Moon Bay was recently recommended.

oOo

Ernest J. Kump Company, planning consultants, were engaged by the San Mateo Union High School District to make a long-range plan. It in volves a study of the scope of the planing problem, a statement of educatincal objectives, the financing of construction, building and site developments, and the planning and location of new buildings. Almost the upper half of San Mateo County is included within the high school district.

oOo

The Atomic Energy Commission has bid for 200,000 acres of eastern Washington land to establish a research area. The land parcel is located ni the million acres of arid land the Columbia asin Authority is currently seeking to develop.

oOo

Plans for improvement of Crow Canyon Road — connecting Contra Costa and Alameda counties—will be announced in February.

oOo

K. T. Norris, president of the California Manufacturers' Association, has denounced the proposed state budget as "comparable only to the most profligate days of the New Deal."

oOo

The state civil service commission will examine candidates for four positions on Saturday, March 15: Junior structural engineering draftsman ($250-$310); assistant structural engineering draftsman ($310-$370); junior bridge engineer ($250-$310), and junior highway engineer ($250-$310).

oOo

Expenditure of $50,300 on new roads and bridges in Napa and Lake counties has been approved by the state highway commission.

oOo

More than a million dollars will have been spent on new construction and improvements to Highway 50 by the end of the fiscal year. Work remains to be done in Eureka, Churchill, Elko and Lander counties, in Nevada.

PLAN ENGINEERING EXTENSION COURSES

BERKELEY. — Engineering courses ranging from elementary architecture drawing to advanced engineering design have been announced by University of California Extension.

Courses in all fields of engineering—general, civil, electrical, and mechanical — are included in the engineering program. "Architectural Drawing" and beginning classes in "Structural Design" are among the elementary courses offered.

Many of the courses announced in the catalog are designed to provide engineering graduates with courses not included in their regular college curriculum and with views of new developments in their particular fields.

'PRIVATE ENGINEERS SHOULD MAKE HALF STATE ROAD PLANS'

Fifty per cent of the plans and specifications for new state highways should be prepared by engineers in private practice, members of the Donald B. Warren engineering firm asserted in a letter to Senator Gerald J. O'Gara this week.

"This will prevent an overexpansion of civil service and its inherent continuance after need," the letter read. "Also, this will utilize the larger engineering companies that designed the major war plants, accomplishing this war work at engineering costs which it would be well to compare with costs of the state highway department."

It was recommended that the standards of work should be left in the hands of the state highway department.

"This division of work would permit a direct comparison between free enterprise and government organizations for efficiency, economy and quality of work," the message said.

The present state law prohibits this type of competition and comparison.

Electric Club Hears Cabell Discuss The Atomic Power Plant

SAN FRANCISCO.—The operation of what engineers now think will be the atomic, or "nuclear" power plant of the future was discussed by C. P. Cabell, chemical engineer at the Hanford Engineer Works of the General Electric Co., Richland, Wash., when he addressed the Electric Club of San Francisco recently at the Palace Hotel.

Explaining that operation of an atomic power plant will not be a job that an engineer can step into overnight, Cabell said that months of intensive training will be required. New superintendents will take over such plants "in name only" at the beginning, Cabell said.

The speaker pointed out that operating crews of atomic power plants would receive three to six months' training either in a plant already in operation or under a "start-up" crew. This period of training will be completed before the crew actually takes over operation of a plant, Cabell stated.

In explaining why atomic power would be selected as the means of producing both electric power and process steam for certain applications in the future, the engineer cited as an example a large mining company located in the mountains of Alaska. "The mining operation requires both electrical power and process steam—let's say the total load is 100,000-rpm," he said. "Hydroelectric power is available, but it is not practical for generating the large quantities of steam required. Coal is not available locally, and it is both expensive and difficult to haul it in over the snow-covered mountains. And so atomic power was selected because it can supply both electricity and steam for your operation."

In describing what the engineers visualize as the atomic power plant of teh future, Cabell said that it will consist of the so-called "pile area" where atomic power is produced, the electrical generating area, a chemical separations area, for working over the atomic fuels, and a building in which will be housed the "United Nations Inspection and Research Laboratories."

'May Move to Close Unfit State Roads'

Paul Scharrenberg, state director of industrial relations, today declared: "I am conferring with my legal aides and am seriously considering requesting the division of industrial safety to make an investigation of our highways with a view of issuing orders closing those highways which are unsafe for use by workers in the course of their employment until they are made safe."

Such action would be based on Section 6400 of the California Labor Code which requires every employer to provide a safe place of employment for his employees.

The Labor Code further provides that the division of industrial safety may order an unsafe place of employment closed until it is made safe, Scharrenberg explained.

#

Indiana Senator Defends Decontrol

WASHINGTON.—Senator Homer Capehart of Indiana told 300 trustees of the National Home and Property Owners Foundation here Thursday that present OPA rent ceilings have created an "inequity" due to the fact that "all other costs have gone up while the property owner's income has remained stationary."

The Senator said that it was this inequity that moved him to join in introducing a bill to provide for an increase of 15 per cent in rent ceilings and to provide for the decontrol of rental units which are covered by a one-year lease.

The provision for a lease of fixed duration, Senator Capehart explained, was added "to give the tenant the security of knowing that if his rent is increased, he will be able to remain for a fixed period of time without being evicted."

#

INDUSTRY ENGINEERED HOUSE PLAN DUE SOON

WASHINGTON—Tentative floor plans for the industry-engineered houses which have been designed to point the way to substantial reduction in the cost of building veterans' homes have been sent to building product manufacturers for comment and study, the Producers' Council announced today.

Manufacturers of building materials and equipment will meet in Washington, January 28, to discuss the plans and the engineering principles on which they are based.

#

BANKERS MEET

LOS ANGELES.—The fifth annual Bank Management Conference of the California Bankers Association is to be held at the Biltmore Hotel here, February 4-5. The program will be devoted largely to management problems.

Dr. J. E. Wallace Sterling, professor of history and government at California Institute of Technology, Pasadena, will address the Tuesday dinner meeting on "Russia and Crisis."

#

UNITED ENGINEERS AWARDED CONTRACT

United Engineers, Inc., Ogden, Utah, have been awarded a contract on a cost-plus basis for dismantling, moving and re-erecting buildings to the Utah State Agricultural College, at Logan, Utah, to provide for classroom and laboratory space. Work is scheduled to start February 3.

#

POLICY MAKERS MEET

WASHINGTON. — The trustees of the National Home and Property Owners Foundation are meeting here this weekend to work out a postwar program of policies and activities.

GROOVER AND I

LETTER TO THE MAYOR

Hon. Roger D. Lapham
Mayor of San Francisco

Dear Mr. Mayor:

You say the Cable Cars must go. How right you are. Where else in the world will you find street cars pulled up hill by an underground rope? Men wearing Levis and men wearing striped trousers and a cane—stenographers in high heels and silly hats, matrons in high heels and no hats, helping to turn a street car around—grown men and women playing carosel in the middle of the street. It is outmoded and a part of that fabulous era of Emperor Norton, when citizens would drop their work and join in with a crazy man playing at the game of being King.

Cable Cars, dumpy and funny, stuffed and barnacled with humanity, jouncing and bouncing along with bell clanging and their strange mating-call of "luuurkkutirlhcurrv"! And those bells—in such far places as Ceylon, Cairo and Jo'burg I have heard the tinkle of those bells in my dreams.

You have gove far but not far enough. Several other spots need cleaning up. For instance:

Fisherman's Wharf. This place smells of fish, drying seines and salt smells of the sea. Crabs are cooked over open fires on the sidewalk. Isn't this a violation of something? The place should be fumigated.

Chinatown. There are spots in this largest Chinese City outside China where you can enter little side street shops and for a moment forget you are in this progressive Metropolis of the West. Why shouldn't this place be torn down and rebuilt according to a streamlined municipal plan.

Last, but not least, Sidewalk Flower Stands. These stands clutter up our sidewalks and prevent people hurrying and rushing from hither to yon so they can rush back to hither. Is this in keeping with the hustling, bustling city we should have?

In short, Mr. Mayor, people all over the world are talking about us—talking about our Cable Cars, Fishermans' Wharf, Chinatown and our Sidewalk Flower Stands. People write stories about this City. Not only factual stories but they include such things in their romances and silly little love stories.

Even the Convention and Tourist League and Californians, Inc. publicize these "romantic landmarks" as sucker bait for visitors. Something should be done about it.

Now let's be realistic about our Parks. It costs uncounted thousands of dollars to maintain these Parks and they do not yield one dime revenue. There are only two classes of people who visit Golden Gate Park: Residents and Visitors. Think of the "huddled masses" this area would house. Let's subdivide Golden Gate Park into 25-foot building lots. Lease them on a 99-year transferable lease—the "plywood and wallboard" building boys would do the rest. The City would still own the property—and think of the revenue.

Another saving: think of all the space and ink, time by typists and typesetters and other savings we would effect if we dropped the 12-letter name "San Francisco" and used the 6-leter word "Frisco".

Had enough, Mr. Mayor? Seriously, cannot we save at least ONE of our "romantic institutions"? Our Cable Cars are 41 to 54 years old? They must have been good cars. They have hauled generations of fathers, sons and grandsons up and down our hills. Rails are worn? Buy new rails. Cars are old? Build new cars. Not new streamlined cars but identical in appearance with those operating for the past 4 or 5 decades —keeping the present tinkling bells that are remembered and beloved by people all over the world.

If the cable system must go, cannot we at least rebuild and preserve the Fishermans' Wharf line running from "Market and Powell" to "Bay and Taylor"? This line does not primarily serve a residential haul —but could be preserved as a musueum piece for generations to come.

Without pay or profit, cannot this City afford this one link connecting the San Francisco of the Future with "The City That Was".

Sincerely,
"GROOVER"

TO ELECT 11 EXCHANGE DIRECTORS IN MARCH

Nineteen members of the Builders' Exchange have been nominated to fill 11 positions on the Exchange's 1947 board of directors.

Directors will be elected at a meeting on Monday, March 17. The candidates are: E. J. Finnerty, H. N. Patterson, Charles E. Gordon, A. F. Edwards, Rex Penlon, L. R. Steinberg, E. E. Hundley, W. A. Rainey, Al W. Cobby;

George W. Reed, A. L. Bos, N. F. Nielsen, G. H. Martinelli, Fred W. Schell, Toni Hemi, J. P. Christiansen, A. H. Wilhelm, H. E. Drake, E. H. Patterson.

STRUCTURAL ENGINEERS MEET IN SACRAMENTO

SACRAMENTO. — About forty structural engineers attended a meeting of the newly - organized Central Valley chapter of Structural Engineers here Thursday.

Requirements to be set up for organization and election of officers were discussed at the meeting. D. C. Willett, of the school division, state architect's office, is acting chairman. O. T. Illerich is acting secretary.

ABANDON REPORTS ON TRAILER SALE

WASHINGTON. — Reports of sales of house trailers manufactured with priorities assistance under the veterans' emergency housing program no longer need be made, the Civilian Production Administration said today.

The amended direction continues to provide that an individual may buy a mounted VEHP house trailer only if he is buying it for his own fulltime housing use. Veterans have preference in buying for this purpose. It also continues to provide that an "institutional purchaser" (educational institution or public organization) may buy mounted or demounted VEHP house trailers for veterans' housing facilities or for local housing emergencies on presentation to the seller of a statement from the Federal Public Housing Authority.

#

MOVE FIRTEX OFFICE

E. H. Bacon, manager of Firtex of Northern California, today announced that offices will be moved from their present location at 206 Sansome, to the Marine Building, 214 Front Street, where they will occupy the entire fifth floor. Their present telephone number will be used at the new address.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, A. J. Geier, regional director, 1355 Market St., has announced the following permits granted for construction or commercial and industrial buildings in the San Francisco area:

JANUARY 28, 1947

STORE buildings, $22,500; 7th and O Sts., Sanger; owner, T. S. Mayee, 744 N St., Sanger.
FEED Mill, $9100: 716 O St., Sanger; owner, Sanger Feed & Seed, 716 O St., Sanger.
TIRE Sales and service, $17,750; Alison and Pajaro, Salinas; owner, Aubrey C. Grimson, et al, Monterey and Alisal, Salinas.
PROTECT mtls. in structure, $25; 306 Salinas Rd., Watsonville; owner, Ralph Lico, 8 oPrter Dr, Watsonville
SOILS and Irrigation Bldg., $350,000; Davis, Calif.; owner, University of California, Berkeley.
GROCERY, $8000; Fruit and California, rFesno; owner, Frank Meza, Box 76, San Joaquin.
ADDN. to 'phone exchange, $170,000; 1012 11th St., Modesto; owner, Pacific Tel. & Tel. Co., 140 New Montgomery St., San Francisco.
BRAKE lining mfg., $12,000; Lafayette and Martin, Santa Clara; owner, Donald W. Fether, 2325 Los Cozines, San Jose.
ALTER broadcasting station, $2000; San Jose; owner United Broadcasting Co., Hotel deAnza, San Jose.
REPAIRS and alterations to office, $2750; 801 J St., Sacramento; owner, Capital City Title Co, prem.
DRIVE-IN Restaurant, $9681; nr. San Rafael; owner, Robt. E. Lackenbach, 1213 Irwin, San Rafael.
REPAIR fire damage to theatre, $5,000; Union and Webster Sts., San Francisco :owner, San Francisco Theatres, 995 Market, San Francisco.
ADDN to warehouse, $1500; 2314 16th St., Sacramento; owner, Moss Appliance Co., premises.
SERVICE Station, $5500; Texas and Napa Roads, Vallejo; owner, John F Levezzo, 322 Texas, Vallejo.
STOCK Food distribution, $15,000; 1874 9th St., Modesto; owner, The Grange Co., premises.

STRAN-STEEL "Quonsets FOR FARM AND INDUSTRY

ALL-STEEL BUILDINGS AT LOW COST
Adaptable to hundreds of farm and industrial uses, Stran-Steel "Quonset" buildings are filling a steadily increasing need for low-cost, all-purpose structures.
Available in a variety of sizes, "Quonsets" are framed with Stran-Steel *nailable* framing members for strength and rigidity and the simple attachment of exterior and interior collateral materials.
Features include clear-span construction (except in the "Multiple"), for 100% usable floor space . . . all-steel materials, for fire-safety, permanence, and freedom from weather and rodent deterioration. The Stran-Steel framing system permits the easy addition of sections or the demounting of the entire building for re-erection elsewhere.
Stop in today for details and prices.
Stran-Steel "Quonset" buildings are products of Great Lakes Steel Corporation, a unit of National Steel Corporation.

Apartment Bldgs. (70) Cost $500,000
LOS ANGELES, Calif., Los Angeles Co., Between Sepulveda Blvd., and Arizona Ave., near Centinela Ave.
Owner—Housman-Ayres, c/o Architect.
Architect—Hugh Gibbs, 441 E. 1st St., Long Beach, Calif.
Frame and stucco bldgs., containing total of 80 1- and 2-bedroom units.

1/31/47 24
Plans Completed
Construction Held Until Spring
Residence & Stable Est. Cost $18,000
MONTEVILLE, Calif., Santa Cruz County.
Owner—E. B. Baker, Jr., c/o postmaster, Watsonville, Calif.
Architect—J. I. Easterly, 1006A Lincoln St., Watsonville, Calif.
Adobe, one-story five room, shake roof, hot-air heating, oak floors.

1/31/47 25
Construction To Start Soon
Residences (186)
REDONDO BEACH, Calif., Los Angeles Co. Inglewood Ave., and Manhattan Beach Blvd.
Owner—Veterans Homes Inc., 6233 Wilshire Blvd., Los Angeles, Calif.
Frame and stucco 3-room, approx. 1050 sq. ft. floor space.
Contractor—Aldon Constr. Co., 6233 Wilshire Blvd., Los Angeles, Calif.

1/31/47 25
Construction To Start Soon
Residences (208)
MONTEBELLO, Calif., Los Angeles Co. Hay St., north of Beverly Blvd
Owner—Jacmar Homes Inc., 6658 Whittier Blvd., Los Angeles, Calif.
Plans by owner.
Frame and stucco, approx. 1200 sq. ft. of floor space.
Contractor—Owner Will Build

1/31/47 23
Contract Awarded
Apartment Bldgs. Cost $900,000
LONG BEACH, Calif., Los Angeles Co., California Ave., and San Antonia Dr.
Owner—Ridgewood Heights Manor Inc., Lloyd S. Whaley, President. c/o Architect.
Architect—Hugh Gibbs, 441 E. 1st St., Long Beach, Calif.
Wood frame and stucco 2-story bldgs., containing a total of 148 units with 8 to 16 units per bldg.
Contractor—L. S. Whaley Co., Times Bldg., Long Beach, Calif.

1/31/47 22
Bids Rejected
SAN FRANCISCO, Calif., Civic Center, Dormitories A and K.
Owner — City and County of San Francisco, Department of Public Works, Room 282, City Hall ,San Francisco, Calif.
City Architect—Dodge A. Riedy, Rm. 265 City Hall, San Francisco, Calif. All bids received January 22nd were rejected, at which time Robert McCarthy, 1050 Kirkham St., San Francisco, Calif., at $11,956 submitted low bid.

1/31/47 25
Construction To Start Immediately
Residences (68)
ARCADIA, Calif., Los Angeles Co.
Owner—Development Engineers Inc., 2357 W. Washington Blvd., Los Angeles, Calif.
Plans by owner.
Frame and stucco 2- and 3-bedrooms 1000 sq. ft. floor space.
Contractor—Owner Will Build.

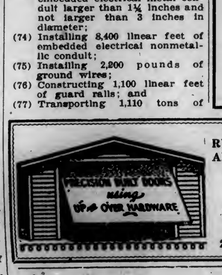
Low and Only Bidders (Unit Prices)
Granby Pumping Plant & Canal; Spec. 1585
COLORADO - BIG THOMPSON PROJECT, Colo. Between Granby and Grand Lake, Colo., southeast of U. S. Highway No. 34
Owner—U. S. Bureau of Reclamation, Walker R. Young, chief engr., Denver, Colo.
Plans by engineering department of owner.
Construction of (Schedule 1) Granby pumping plant and (Schedule 2) earthwork and structures, Granby pump canal.
Owner—E. B. Baker, Jr., c/o postmaster, Watsonville, Calif.
Architect—J. I. Easterly, 1006A Lincoln St., Watsonville, Calif.
Adobe, one-story five room, shake roof, hot-air heating, oak floors.
Low Bidders—Granby Constructors, Denver, Colo., and 714 W. Olympic Blvd., Los Angeles, Calif. (consisting of Grafe-Callahan Construction Co., Gunther & Shirley Construction, Los Angeles; Brown & Root, Inc., Houston, Texas; Ed Honnen, Colorado Springs, Colo.; Condon-Cunningham Co., Omaha, Neb.; Marjin Vunderlich, Jefferson City, Mo., and Peter Kiewit Sons Co., Omaha, Neb.), Schedule 1, $4,139,998, and Vinnell Co., 1145 Westminster, Alhambra, Calif., Schedule 2, $591,458.75.
Work involves:

Schedule No. 1
Granby Pumping Plant
(1) 80,000 cubic yards of excavation for earth dike and diversion channel;
(2) 15,000 cubic yards of earth fill for dike;
(3) 30,000 station cubic yards of overhaul;
(4) 3,500 cubic yards of selected gravelly material;
(5) 8,550 cubic yards of dumped riprap;
(6) Unwatering foundations;
(7) 295,000 cubic yards of excavation for intake canal, intake structure, intake conduits, pumping plant, pipe anchors, concrete encased pipes, and surge tank;
(8) 80,000 cubic yards of excavation for concrete discharge conduit and discharge structures;
(9) 4,000 cubic yards of excavation for pipe trenches and switchyard structures;
(10) 19,000 cubic yards of excavation, stripping borrow pits;
(11) 435,000 cubic yards of excavation, in borrow pits and transportation to sluiced fill;
(12) 1,070 square yards of asphaltic coating on foundations;
(13) 60,000 cubic yards of excavation on hill south of pumping plant;
(14) Placing 370,000 cubic yards of sluiced fill;
(15) 83,400 cubic yards of backfill;
(16) 200 cubic yards of gravel backfill;
(17) Compacting 24,300 cubic yards of backfill;
(18) 2,500 cubic yards of gravel surfacing;
(19) Furnishing and handling 50,000 barrels of cement;
(20) 1,400 cubic yards of concrete in intake structure;
(21) 2,700 cubic yards of concrete in pumping - plant substructure;
(22) 11,800 cubic yards of concrete in pumping-plant intermediate structure;
(23) 1,400 cubic yards of concrete in pumping-plant superstructure;
(24) 1,170 cubic yards second-stage concrete in pumping plant;
(25) Cooling concrete;
(26) 10,200 cubic yards of concrete in conduits and discharge structure;
(27) 2,400 cubic yards of concrete pipe anchors, pipe encasement, and base for surge tank;
(28) 500 cubic yards of concrete in switchyard structures;
(29) Furnishing and placing 7,115,000 pounds of reinforcement bars, ¾-inch diameter and larger;
(30) Painting 4,450 linear feet of reinforcement bars;
(31) Constructing 220 linear feet of control joints;
(32) Placing 2,100 square feet of joint filler;
(33) Placing 10,000 linear feet of metal sewage strips;
(34) Placing 26,000 pounds of metal water stops;
(35) Placing 300 linear feet of rubber water stops;
(36) Constructing 385 linear feet of asphalt seals;
(37) Forming 400 linear feet of holes for 4-inch drains;
(38) Placing 6,800 square feet of calulated glass insulation on roof;
(39) Placing 6,800 square feet of coal-tar saturated felt roofing;
(40) Dampproofing 100 square yards of interior wall;
(41) Placing 2,200 square yards of concrete floor finish;
(42) Installing 2,500 square feet of glass-block panels;
(43) Installing 26,000 pounds of gate frames and guides;
(44) Installing 5,700 pounds of bulkhead gate;
(45) Installing 54,000 pounds of drainage and unwatering pumps;
(46) Installing 207,000 pounds of cranes;
(47) Installing 165 track feet of transfer track rails, ties, and ballast;
(48) Installing 46,000 pounds of crane runway, transformer track, and transfer track rails in concrete;
(49) Erecting 52,000 pounds of structural-steel framework;
(50) Installing 65,000 pounds of trashrack metalwork;
(51) Installing 400,000 pounds of pump intake, and discharge pipe;
(52) Installing 275,000 pounds of surge tank;
(53) Installing 10,200 square feet of lagging on surge tank;
(54) Installing 55,900 pounds of metal ,tubing, and brass, steel wrought iron, and cast iron pipe, fittings, and valves less than 6 inches nominal diameter;
(55) Installing 163,200 pounds of metal tubing, and brass, steel, wrought iron, and cast iron pipe, fittings, and valves 6 inches and greater nominal diameter;
(56) Installing 1,500 pounds of siphon-breaker valves;
(57) Laying 650 linear feet of 8-inch clay sewer pipe with cemented joints;
(58) Placing 8,000 pounds of metal tubing and fittings for concrete cooling system;
(59) Placing 200 pounds of construction-joint grout tubing and fittings;
(60) Installing 4,700 pounds of metal inserts;
(61) Installing 4,000 pounds of pipe handrails;
(62) Installing 5,600 pounds of metal stairways;
(63) Installing 4,800 pounds of embedded metal frames for openings in floors and walls;
(64) Installing 88,700 pounds of metal gratings, floor plates, and cover plates;
(65) Installing 11,400 pounds of oil storage tanks;
(66) Installing 600 square feet of metal accordion doors;
(67) Installing 600 square feet of metal swinging doors;
(68) Installing 60 square feet of metal fire doors;
(69) Installing 270 square feet of metal sash windows;
(70) Installing 840 pounds of metal louvers;
(71) Installing 14,000 pounds of miscellaneous metalwork;
(72) Installing 12,200 linear feet of embedded electrical metal conduit 1¼ inches or less in diameter;
(73) Installing 11,100 linear feet of embedded electrical metal conduit larger than 1¼ inches and not larger than 3 inches in diameter;
(74) Installing 8,400 linear feet of embedded electrical nonmetallic conduit;
(75) Installing 2,200 pounds of ground wires;
(76) Constructing 1,100 linear feet of guard rails; and
(77) Transporting 1,110 tons of freight of all kinds for the Government or its agents, other than the contractor, between the railhead and the pumping-plant site.



Schedule No. 2
Earthwork and Structures for Granby Pump Canal
(78) Clearing and grubbing;
(79) 922,000 cubic yards of excavation for pump canal;
(80) 40,000 cubic yards of excavation for core banks;
(81) 2,500,000 station cubic yards of overhaul;
(82) Compacting 5,000 cubic yards of embankment;
(83) 6,700 cubic yards of excavation for pump-canal structures;
(84) 3,000 cubic yards of backfill;
(85) Compacting 2,000 cubic yards of backfill;
(86) 400 square yards of dry-rock paving;
(87) 700 cubic yards of dumped riprap;
(88) Furnishing and handling 1,170 barrels of cement;
(89) 780 cubic yards of concrete in pump-canal structures;
(90) Furnishing and placing 99,000 pounds of reinforcement bars, ¾-inch diameter and larger;
(91) Placing 85 square feet of joint filler;
(92) Installing 7,650 pounds of gates and gate hoists;
(93) Erecting 50,000 pounds of structural steel for bridges;
(94) Laying 44 linear feet of 42-inch diameter concrete pipe;
(95) Laying 300 linear feet of 18-inch diameter steel pipe;
(96) Laying 150 linear feet of 42-inch diameter steel pipe;
(97) Installing 300 linear feet of 18-inch diameter corrugated-metal pipe;
(98) Installing 100 linear feet of 24-inch diameter corrugated-metal pipe;
(99) Installing 500 pounds of pipe meter;
(100) Installing 2,000 pounds of miscellaneous metalwork;
(101) Erecting 12 M.B.M. timber in bridge structure;
(102) Installing 230 lin. fesar electrical metal conduit, 1¼ inches or less in diameter;
(103) Installing 40 pounds electrical conductors and ground wires.

The total bids submitted January 22 were:
(A) Granby Constructors, (Sch. 1), $4,139,998; (Sch. 2), $732,754.45.
(B) Vinnell Co. (2) $591,458.75.
(C) Morrison - Knudsen Co., Boise, Idaho, (1) $4,402,933; (2) $622,718.65.
(D) Bowen & McLaughlin, Phoenix, Ariz., and S. J. Groves & Sons, Minneapolis, Minn., (1) $4,559,-904; (2) $659,495.
(E) Cole - Carley - Hudkins, Omaha, Neb., (2) $819,524.
(F) Hinman Bros. Construction Co., Denver, Colo., (2) $831,978.
The three low unit bids were:

33—BRIDGES

1/31/47 33
Contract Awarded
Overcrossing Cost $485,769.90
LOS ANGELES, Calif., Los Angeles County, Arroyo Seco Parkway at Sunset Blvd.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Reinf. concrete box girder overcrossing.
Contractor—Winston Bros., 411 W. 5th St., Los Angeles, Calif.

34—DAMS, RESERVOIRS & DREDGING

1/31/47 34
Low Bidders—Earthwork, Pipelines and Structures; Spec. 1623
YAKIMA PROJ., Wash. Begins about 6 miles north of Prosser, Wash., and extends eastward for about 9 miles.
Owner—U. S. Bureau of Reclamation 7½ N Second St., Yakima, Wash.
Plans by Engrg. Dept. of Owner.
Includes earthwork, pipelines and structures, lateral distribution system, pump areas Nos. 15, 16 and 17, Rosa Division.
The work involves:

Schedule No. 1
Lateral Distribution System for Pump Area No. 15
(1) 32,000 cu. yds. excavation, common, for laterals;
(2) 300 cu. yds. excavation, rock, for laterals;
(3) 1,200 sta. cu. yds. overhaul;
(4) compacting 1200 cu. yds. embankments;
(5) 16,000 cu. yds. excavation, common, for pipe trenches;
(6) 500 cu. yds. excavation, rock, for pipe trenches;
(7) 5,000 cu. yds. backfill of pipe trenches;
(8) 3000 cu. yds. excavation, common, for structures;
(9) 100 cu. yds. excavation, rock, for structures;
(10) 3000 cu. yds. backfill about structures;
(11) compacting 1200 cu. yds. backfill about structures;
(12) placing 300 cu. yds. earth lining in laterals;
(13) 450 sq. yds. dry-rock paving;
(14) 500 cu. yds. concrete in structures;
(15) furnishing and handling 1000 bbls. cement;
(16) placing 30,000 lbs. reinforcement bars;
(17) erecting 70 M b.m. timber in structures;
(18) installing 8000 lbs. of gates and miscellaneous metal work;
(19) furnishing and laying 14,000 lin. ft. 6-in. diameter standard concrete irrigation pipe;
(20) furnishing and laying 29,700 lin. ft. 8-in. diameter standard concrete irrigation pipe;
(21) furnishing and laying 12,700 lin. ft. 10-in. diameter standard concrete irrigation pipe;
(22) furnishing and laying 3375 lin. ft. 12-in. diameter standard concrete irrigation pipe;
(23) furnishing and laying 330 lin. ft. 15-in. diameter standard concrete irrigation pipe;
(24) furnishing and laying 310 lin. ft. 6-in. diameter extra strength concrete irrigation pipe;
(25) furnishing and laying 1450 lin. ft. 8-in. diameter extra strength concrete irrigation pipe;
(26) furnishing and laying 900 lin. ft. 10-in. diameter extra strength concrete irrigation pipe;
(27) furnishing and laying 710 lin. ft. 12-in. diameter extra strength concrete irrigation pipe;
(28) furnishing and laying 110 lin. ft. 16-in. diameter extra strength concrete irrigation pipe;
(29) furnishing and laying 360 lin. ft. 18-in. diameter extra strength concrete irrigation pipe;

Official Proposals

FIRST PUBLISHED TODAY

Highway Improvements—
Santa Clara Co.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on February 26, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Santa Clara County, on North Fourth Street, between Route 68 and San Jose (1V-SC1-1159), about one and two-tenths (1.2) miles in length to be graded and paved with asphalt concrete.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Carpenter	1.75
Motor grader operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.25
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.35
Roller operator	1.95
Tractor driver	1.95
Truck driver (8 cubic yards water level capacity or more)	1.875
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.50
Intermediate Grade Labor	
Jackhammer operator	1.375
Oil distributor bootman	1.275
Oiler power shovels or cranes	1.60
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.4075
Truck driver (less than 4 cubic yards water level capacity)	1.2825
Unskilled Labor	
Flagman	1.25
Laborer	1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.25 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays — one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m. on February 19, 1947, at which time they will be publicly opened and read in the Assembly Room of said building for constructing Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Sacramento County, across Arcade Creek on Madison Avenue, about 10 miles northeast of Sacramento (III-Sac-537), a reinforced concrete slab bridge to be constructed.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity)	1.90
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over 1 cubic yard)	2.25
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oiler power shovels or cranes	1.50
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Unskilled Labor	
Flagman	1.25
Laborer	1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.25 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.25 per hour.

Overtime — one and one-half (1½) times the above rates.

Sundays and holidays — one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a) subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the Division of Architecture, Public Works Building, 12th and "N" Streets, Sacramento, California, up to 2:00 P. M., Tuesday, February 11, 1947, and bids thereafter on said day to be publicly opened and read for Superintendent's Residence and Garage, Division of Fish and Game, Redding, Shasta County, California, in accordance with plans and specifications therefor.

The Residence and Garage are one story wood frame, wood siding, shingle roof, wood sash, and contain approximately 1466 sq. ft. of floor area.

An alternate bid is required for substituting stucco for exterior finish.

Authority Notice — Approval for this construction was granted by the Federal Public Housing Authority— P.F.H.A. — CO-104, Serial No.).

Prevailing Wage Scale: In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Shasta County

	Hourly Rate
Brick Layers	$2.05
Cement Finishers	1.75
Carpenters	1.75
Electric Workers	1.875
Laborers Building	1.15
Painters (Brush)	1.375
Plasterer	1.95
Plumbers	1.875
Concrete Mixer Operators up to one Cu. Yd.	1.60
Sheet Metal Workers	1.75
Any classifications omitted herein not less than	1.15

Overtime — One and one-half times the above rates.

Apprentices may be employed provided they are properly indentured to the Contractor in full compliance with the provisions of Section 1777.5 of the Labor Code.

Contractors who are desirous of securing plans, specifications, and proposal forms for the purpose of preparing and submitting a proposal for this work may do so subject to certain conditions hereinafter stated by requesting same in writing from the Division of Architecture, Public Works Building, Sacramento.

No bid will be considered unless it is made on a blank form furnished by the Division of Architecture, and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 1 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

No bidder may withdraw his bid for a period of thirty (30) days after the time set for opening thereof.

PLANS and Speculations

Three state civil service examinations will be given March 22. Positions are for senior engineering aid ($220-$260), under engineering aid ($160-$200), and junior engineering aid ($189-$220).

oOo

The Shawmut and Keokuk—former railroad car ferries, drafted for war service in 1942—have been put up for sale by the Maritime Commission. Each has a capacity of 26 cars. They may be inspected at Suisun Bay, near Martinez. Bids, under Invitation No. 295, will be received by the Secretary of the U. S. Maritime Commission, Washington 25, D. C., until 2:15 (e.s.t.), February 7.

oOo

Contracts are being prepared for extension of water service to 26 Pacheco families, as well as water for fire protection of the Springbrook Tract.

oOo

Work has started on the Nine Mile Bridge on the Hayfork-Hyampom Road in Trinity County. PRA will survey the 24-mile road to determine feasibility and cost of improving it.

oOo

Mountain residents of Madera county will hear an illustrated talk by UC soil conservation specialist Lloyd Brown detailing the use and maintenance of earthen dams and reservoirs.

oOo

Expansion of the Butte County Hospital to care for 100 patients classified as custodial rather than acute was urged recently by Dr. Darius F. Caffaratti, medical director of the institution.

#

Arabian Oil Project Topic of Structural Engineers' Meeting

The Structural Engineers Association of Northern California will hold a meeting Tuesday, February 4, at the Engineers Club.

A short business meeting will be held preceding the program to discuss tentative convention plans; legislative measures affecting the profession; and a proposed seminar for persons preparing for the structural engineering license exam.

The program will feature colored motion pictures on the American-Arabian Oil Development. Unusual construction features of the project will be discussed by a representative of Bechtel Corporation, contractors on recent work in Arabia.

John A. Blume, consulting structural engineer, will discuss the designing of a steel wharf and trestle.

President William W. Moore will preside.

LAGUNA HONDA SITE AVAILABLE FOR VET NON-PROFIT PROJECT

A nine-acre tract of land owned by the San Francisco public utilities commission at Laguna Honda, near 7th Avenue, Lawton and Moraga Streets, may be the site for a proposed veterans housing project initiated by Supervisor Marvin E. Lewis.

Lewis recently proposed that the city encourage development of a 600-acre home project through a non-profit corporation which would obtain the 90 per cent Federal Housing Agency loan for construction. Rentals would be limited to $50 a month.

Other possible sites may be suggested by the library, fire and park departments, which have not yet reported their unused land holdings.

$25 MILLION DEVELOPMENT—Construction of the retail shopping center envisioned above is expected to be started next summer by the Standard Building Company. The $1.5 million shopping district is unique in that it provides for off-street parking areas no worked out that a store containing a 1000 square feet of floor space will have 1500 square feet parking area. Included in the shopping district will be a 1,000-seat theatre, a super market covering three-fourths of an acre, a drug store, bakery, paint stores, and shoe repair shop. All of the store buildings will be of concrete with truss roof design. Part of a $25 million development, the retail center will be a part of the Lakeshore Park Plaza area in the southwest section of San Francisco where Standard Building Company will erect 1,500 high class homes, ranging in cost from $7,500 to $50,000.

Ask State to Repay City, County Vet Exemption Losses

SACRAMENTO. — Legislation to expedite construction of homes in California was offered in both houses of the Legislature this week.

Senators Gerald O'Gara (d., San Francisco), and Senator Jack B. Tenney (r., Los Angeles) collaborated on a series of measures to create a state housing authority and a state planning commission and generally to reshape laws governing community redevelopment.

Senator O'Gara was appointed to head an interim committee to investigate veterans housing thruout California. He announced that the initial hearing would be held in San Francisco, on Monday, Feb. 10.

Four bills sponsored by American Veterans of World War II were introduced in the Assembly. One would appropriate $5 million for completion of units abandoned by the Federal Public Housing Authority.

The second bill would permit the state veterans' department to build and rent units at $25 to $50 a month whenever private building cannot produce 9,000 low rental units a month.

Another would insure builders or owners of low-cost housing of more than 200 units so that they would receive at least a 2-% per cent monthly yield.

Cities and counties would be reimbursed for local tax roll losses resulting from veterans and other exemptions, under another bill introduced in the Assembly.

ASK $250,000 FOR NEW UNWED MOTHERS' HOME

A 30-day campaign to raise a $250,000 building fund for construction of a new Florence Crittenton Home for unwed mothers and their children was started last Friday.

A spokesman for the home described it as "unhealthily crowded" and said it was classed as hazardous by the fire department. It was built more than 40 years ago

The proposed new structure would be twice the size of the present one.

Technical Board Continues to Meet Behind Closed Doors; Loss Charges 'Shortsighted'

By LORNA S. STOCK

Preparation of a final set of revisions by a special technical board composed of representatives of all fields of the building industry was described as "making splendid progress" by one of its members last weekend. The group—which meets behind closed doors—has been detailed to forward its recommendations for final action by February 12, to the judiciary committee of San Francisco board of supervisors.

Sharp criticism of the practice of conducting public business at closed meetings brought an immediate explanation.

One spokesman for the group explained that the room where meetings are being held in the basement of the city hall "is too small."

One prominent member of the group explained the procedure precludes open, public hearings. Only groups presenting objections to the present draft of the building code appear before the board, which does include two members of the Department of Public Works who are frequently called in to explain provisions of the existing code. Director Harry Vensano washed his hands of the whole matter several weeks ago.

According to the spokesman, reports have not been received yet from the civil and structural engineers, although Judiciary Chairman Chester MacPhee has warned that he will not vote for a second extension of time for the advisory board's written report to be submitted. The new deadline is February 12.

One critic, who declined to be quoted, said that his criticism did not spring from question as to the motives of the board of experts, but from a conviction that the committee was putting itself in "an unwholesome position" by such a policy.

The committee was scored by city officials as one of the causes of delays in passage of voluminous ordinance, who said delay already had cost the city more than $15,000 in revenue, when it failed to meet its January 29 deadline.

That amount, according to Public Works Director Harry Vensano, represents the difference between building permit fees in the present law and higher fees written into the proposed code.

Meanwhile, statements of City Administrative Officer Thomas Brooks and Public Works Director Harry Vensano that delay had cost the city at least $15,000 were termed "shortsighted in the extreme" by Milton W. Morris, executive secretary of the Associated Home Builders of San Francisco.

"The building code was never intended to be a primary source of revenue for the city," Morris declared. "The sole purpose of building permit fees is to make the Department of Public Works self-sustaining.

"A building code establishes minimum construction requirements of safety, health and welfare for the public."

Speaking of the so-called two-year delay on adoption of the new code, Morris said: "It is true that city departments have been working on the code for that period of time, but the building industry has been considering it for only six months.

"Surely Mr. Vensano knows that a good code means more and better buildings and the development of property. His department will receive many times $15,000 in fees and the city many times that amount in taxes resulting from higher valuation of improved property."

Morris added, "A code arbitrarily set up and enforced by city officials will result in less building. Right now there are prospects that building trades workers will be busy for years to come. They will be kept buy only if we have a workable code and not one that sets up a table of costs that places all building out of reach of the buying public."

Declaring that the present building code has been in effect for 40 years, the Home Builders' spokesman said, "A little time spent on developing a good code now might make it work for another 40 years. I think even Vensano and Brooks will agree that $15,000 is small considered over a 40-year period."

GROOVER AND I

MAY THE PEACE OF ALLAH ABIDE WITH THEE

A Religious Denomination now in convention in the East has set aside January 29 to February 4 as "Pray-for-the-Press-Week".

☆ ☆ ☆

The brethren are requested to offer prayers, especially for reporters and editors, every evening at 7 o'clock. It was not stated whether simultaneously 7 p. m. ETS or whether the prayer should roll as a tide of Heavenly petition, crossing the nation at the speed of 15 degrees longitude per hour.

☆ ☆ ☆

Every business has its own guide posts and limit stakes. In a newspaper office there are a trinity of warnings:

☆ ☆ ☆

The "S B List" (always referred to by full name—not initials). This list is of people and things never to be mentioned if possible, but if absolutely necessary to mention, do so veiled, nasty and in an insinuating manner. The list contains the publisher's dearest enemies and probably the organization defeating him for Mayor.

☆ ☆ ☆

Next is the "Sacred Cow List", containing the name of publisher's Girl Friend and perhaps his wife's pet charity. Names on this list must be mentioned whenever possible and always in the most laudatory manner.

☆ ☆ ☆

Third is the "Taboo List". When approaching names on this list the reporter must first cleanse his soul and perform the ritual of Washing of Hands. Among items on this list are churches and religious matters.

☆ ☆ ☆

I have known newspapermen who were home-owning, voting and taxpaying citizens — men who were reasonably faithful to their wives and went home sober at night. Men with wives who were not addicted to bar-stooling binges and with children who attended Sunday school. In other words, just good average citizens.

☆ ☆ ☆

The record, if closely examined, might contain names of churchmen who have landed in the penitentiary or juicy bits of scandal involving the minister and the choir singer.

☆ ☆ ☆

Perhaps men of the working press should have special prayers—they are forced to associate with humanity without the benefit of illusions. "In the newspaper business you meet such interesting people."

☆ ☆ ☆

Perhaps I am being unduly sensitive. Maybe my conscience is bothering me. Instead, I should be thankful toward the Deacons—

☆ ☆ ☆

Thankful that they did not slightly shift the date and make "Pray-for-the-Press Week" run concurrently with "Be Kind to Animals Week".

#

PAULEY IS SPEAKER

William N. Pauley, chief engineer for the Farr Company, will address members of the Golden Gate chapter, American Society of Heating and Ventilating Engineers at a dinner meeting next Thursday night.

His subject will be "Theory and Practical Design of Air Filters." President James Gayner will be in charge.

(Sections "B," "C" and "D" cover timber apron and concrete rear wharf and are alternates of Sections "E" and "F.")

(2) 18,700 lin. ft. making and impregnating with asphalt by vacuum pressure process of reinforced concrete jacketed bearpiles, 16-, 18-in. square with 12-in. core (this is an alternate to item 3);
(2a) having reinforcing bars on top of piling enceased in concrete;
(3) 18,700 lin. ft. making reinforced concrete bearing piles encased in asphalt impregnated concrete protected slabs, 16-, 18-in.
(3a) having reinforcing rods on top of piling encased in concrete;
(4) 18,770 lin. ft. transportation and driving either type of piles.
(4a) having reinforcing bars on top of piling encased in concrete;

Section "C"

(5) lump sum for construction of rear wharf, complete;

Section "D"

(6) lump sum for construction of timber apron wharf, complete;

Section "E"

(Sections "E" and "F" cover concrete aprons and concrete rear wharf and are alternates to Sections "B," "C" and "D.")

(7) 20,070 lin .ft. making and impregnating with asphalt by vacuum pressure process reinforced concrete jacketed bearing piles, 16-, 18-in. square, 12-in. core;
(7a) having reinforcing bars on top of piling encased in concrete;
(8) 15,894 lin. ft. making and impregnating same, 19-, 21-in. square, 12-in. core;
(8a) having reinforcing bars on top of piling encased in concrete;
(9) 20,070 lin. ft. making reinforced concrete bearing piles encased in asphalt impregnated concrete protected slabs, 16-, 19-in. square, 12-in. core;
(9a) having reinforcing bars on top of piling encased in concrete;
(10) 15,894 lin. ft. making same, 19-, 22-in. square, 15-in. core;
(10a) having reinforcing bars on top of piling encased in concrete;
(11) 20,070 lin. ft. transportation and driving either type pile with 12-in. core;
(11a) having reinforcing bars on top of piling encased in concrete;
(12) 15,894 lin. ft. transportation and driving same with 15-in. core;
(12a) having reinforcing bars on top of piling encased in concrete;

Section "F"

(13) lump sum for construction of concrete rear apron and concrete rear wharf, complete;

Extras

(14) extra reinforced concrete applicable to Sections "A," "C" and "F";
(15) extra reinforcing steel applicable to Sections "A," "C" and "F";
(16) extra asphaltic concrete pavement applicable to Section "A";
(17) extra concrete pile driving applicable to Item (4). Section "B," and item (11), Section "E";
(18) extra concrete pile driving applicable to item (12), Section "F";
(19) lump sum deductions from contract price under Section "A" in the event that certain structures are removed and dismantled above the concrete foundations prior to the commencement of work by the contractor (letters identify structures according to designation on plans);

Deductions for buildings: a, b, c, d, e, f, g, h, i, j, k and l.

The total bids submitted January 29 on Sections A, C D and F were:

(A) M. H. Golden Construction Co., 3485 Noell, San Diego, Sec. A, $680,000; Sec. C, $138,000; Sec. D, $276,000; Sec. F, $406,000.
(B) Johnson Western Co., 2100 Wilmington-San Pedro Road, San Pedro, Sec. A, $998,311; Sec. C, $182,463; Sec. D, $360,598; Sec. F, $429,192.
(C) Guy F. Atkinson Co., 22233 S. Santa Fe Ave., P. O. Box 259, Long Beach, Sec. A, $109,900; Sec. C, $162,640; Sec. D, $313,715; Sec. F, $374,431.50.
(D) Baruch Corp., 5655 Wilshire Blvd., and Hull, Smale & Robinson, 1033 N. Avalon Blvd., Wilmington (joint venturers), Sec. A, $736,681; Sec. C, $154,300; Sec. D, $289,175; Sec. F, no bid.
(E) Warren-Southwest, Inc., 2145 E. 25th St., Los Angeles, Sec. A, no bid; Sec. B, no bid; Sec. D, $282,000; Sec. F, no bid.
(F) Pugh Construction Co., 1260 Alameda, Wilmington, Sec. A, no bid; Sec. C, no bid; Sec. D, $245,000; Sec. F, no bid.

The following stipulations were submitted:

Pugh Construction Co., Spec. 1072: proposal for concrete piles under Sec. E, items 7 and 8, or 7A and 8A, is based on being awarded both items 7 and 8, or 7A and 8A, and not for individual items. If item 2 or 2A, Sec. B, of Spec. 1076 are awarded with items 2 or 2A, Sec. B, Spec. 1072, deduct $2.27 per lin. ft. of pile from bid items 2 and 2A, Sec. B of Spec. 1072. If items 2 or 2A, Sec. B of Spec. 1076 are awarded with items 7 and 8, or 7A and 8A, Sec. E of Spec. 1072, deduct $.76 per lin. ft. of pile from items 7 and 7A, or 8 and 8A of Spec. 1072.

Spec. 1076: If item 2 or 2A of Sec. B of Spec. 1072 are awarded with item 2 or 2A, Sec. B of Spec. 1076, deduct $.78 per lin. ft. of pile from bid items 2 or 2A, Spec. 1076. If item 7 or 8, or 7A or 8A, Sec. E, Spec. 1072, are awarded with bid items 2 or 2A, Sec. B of 1076, deduct $7.09 per lin. ft. of pile from bid items 2 or 2A, Spec. 1076.

Johnson Western Co., Spec. 1072: We will accept in combination Sec. A, item 1; Sec. B, item 4 or 4A; Sec. C, item 5; Sec. D, item 6; Sec. C, items 11 and 12, or alt. 11A and 12A. Will accept Sec. F, item 13, alone. Will accept award of items 11 and 12 or alt. 11A and 12A, Sec. E, in combination only; and will not accept either of them separately.
